ECONO electrical system allows up to eight duplex power modules to be daisy-chained together (non-direction/non-sequential) and powered from a single power in-feed. The number of power modules connected is limited to the maximum allowed under UL Standard 962. If too many are connected, the control module disconnects all power to the system and signals red. Power is restored to the system after the extra power module(s) are disconnected, which is indicated by a green light. Econo will not work with GFI or GFCI - Ground Fault Circuit Interrupter Wall or Floor Outlets.
