# Ordering C.O.M., C.O.L., and C.O.V.

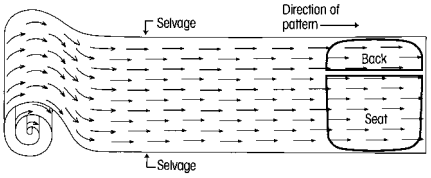
Bonduel, Green Bay, Ontario, and Tupelo

**How to Specify C.O.M. Upholstery**
Textile designs often have intricate patterns. Not all individuals will interpret fabric direction in the same manner.

As a standard procedure, KI cuts fabrics off the roll in a horizontal fashion as shown in Diagram A at the right. By cutting in this fashion, most waste is eliminated. Our requirements for yardage in this book are based on this type of cutting. When directional or patterned fabrics are used, they often require more yardage than solid colors.

By providing KI with a completely filled-out copy of the form on this page, we will be able to expedite your order. We find it particularly helpful with directional or patterned upholstery material. It is critical that copies of this form accompany test quantities as well as production quantities of C.O.M.

C.O.M. must be supplied in continuous yardage.



**C.O.M., C.O.L. and C.O.V. Testing**
KI will require for testing actual yardage to upholster one chair. The testing requirements depend on which chair you have selected on your order.

Test samples will be applied to the order and will be held for 6 months if needed. After 6 months, the sample can no longer be applied to your order. For all products to be tested, send test samples for approval to:

**KI**
**Attn: C.O.M. Specialist**
**1687 Westminster Drive, Gate 3**
**Green Bay WI 54302**

To expedite the procedure, attach a copy of the "C.O.M. Information Form" on this page.

All C.O.M., C.O.L. and C.O.V. must be labeled with the purchase order number.

**C.O.M., C.O.L. and C.O.V. Production**
Customer's fabrics and leathers must be approved prior to acceptance for production. Upon test approval, a 1' square sample swatch of upholstery material must accompany the order. KI assumes no responsibility for wear, defects or performance of customer's own fabrics, vinyl or leather. C.O.M., C.O.L. and C.O.V. orders are available on a deferred delivery basis.

Orders for production of C.O.M., C.O.L. and C.O.V. upholstered products are not scheduled for processing until upholstery material is received. Upon receipt, KI will provide an acknowledgement and an estimated shipping date.

KI recommends that leather be ordered in yardage. Leather must be usable. The outer edges cannot be calculated as square feet or yardage.

The C.O.M., C.O.L. and C.O.V. yardage requirements accompanying products in the pricing section are for 10 chairs/seats or less, 54" wide nondirectional material. On larger orders, less material is required.

For exact production yardage requirements, call 1-800-424-2432, ext. 2707.

**C.O.M., C.O.L. and C.O.V. Order Processing**
For products shipped from Green Bay, WI facility, ship upholstery material to:

**KI**
**Attn: C.O.M. Storage**
**1687 Westminster Drive, Gate 3**
**Green Bay, WI 54302**

For products shipped from Tupelo, MS facility ship material to:

**KI Tupelo**
**Attn: C.O.M. Storage**
**2112 South Green Street**
**Tupelo, MS 38801**

For products shipped from Bonduel, WI facility, ship material to:

**KI**
**Attn: C.O.M. Storage**
**204 West South Street**
**Bonduel, WI 54107**

For products shipped from Ontario, CA facility, ship material to:

**Avail/Impress/Kismet/Medical & Laboratory Stools/Pilot**
**Attn: C.O.M. Storage**
**1110 S. Mildred Ave.**
**Ontario, CA 91761**

**Intricate Patterns**
In the event of specific requirements for positioning of intricate patterns or pattern repeats on seats and backrests, provide a sketch noting requirements, as in Diagram B, along with materials for testing, and with the order.

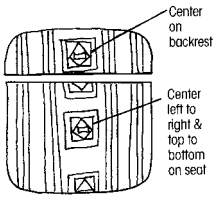


Diagram B

**Treated Materials**
If C.O.M. requires processing such as Scotchgard® or acrylic backing, it often shrinks. To prevent delays in delivery or back ordering due to shrinkage, please have your processor remeasure after processing and assure adequate yardage shipment.

**Split Orders**
If a portion of the shipment which does not require C.O.M., C.O.L. or C.O.M. applications is to be processed and shipped early, KI will enter the order immediately at your request. These split shipments are subject to minimum order changes.

Contact the C.O.M. Specialist at 1-800-424-2432, ext. 2707, with questions or to verify a split order.

**Excess Upholstery Material**
KI will dispose of excess upholstery material at the time of shipment unless expressly requested to return it with the product shipment.

**Cancelled or Changed Orders**
KI assumes no responsibility for extra C.O.M., C.O.L. or C.O.V. material due to a change of upholstery or cancellation of an order. It is the customer's responsibility to arrange for return of this material.

**C.O.M., C.O.L and C.O.V. Information Form**

A copy of this form should accompany test requests and production orders. Please fill it out completely, and, if your order has been acknowledged, provide the acknowledgement number.

## SPECIFICATIONS

The capacity listed in the above chart is for non-tablet arm chairs. Tablet arm chairs require double the space. Replacement feet and bumpers are available.

### KV Series Vertical Storage Caddy

One-piece bed of 16-gauge steel with sides channeled to 1-1/2” high. To each end, a 4-1/2” x 1-1/2” angle steel member is electrically welded. To each outside corner of the bed is welded a 14-gauge, 1-1/4” o.d. end post socket to support removable 1-1/8” o.d., 18-gauge end posts. Loading stops are stamped into the bed. 4” high x 1-1/4” wide roller-bearing wheels.

Optional adjustable end post sockets are constructed of welded steel. Sockets and removable end post are positioned against partial loads to eliminate load from shifting.

### KH Series Horizontal Storage Caddy

One-piece bed of 16-gauge steel with sides channeled to 1-1/2” high. Side rails are fitted into sockets welded to end posts. Distance between side rails is equal to folded height of chairs from top to bottom crossbrace for snug storage. 4” high x 1-1/4” wide roller-bearing wheels.

### KDT84 Caddy

Legs, uprights and crossbrace are fabricated of 11-gauge, 1” x 2” tubular steel. Legs are welded to uprights; crossbraces are bolted. Open tubing ends are covered with plastic end caps. Chair suspension tines of 14-gauge, 1” o.d. round tubing. 5” high x 1-3/8” wide roller bearing wheels.

NOTE: Do not use KDT84 for tablet arm chairs.

### Upholstered Seat
The seat has a unibody molded 2-1/2" HR foam on plywood.

### Pneumatic Ring
The KICL12 and KICL13 stools offer height adjustment with a pneumatic 360-degree, hand-activated ring. The KICL14 and KICL15 stools offer height adjustment with a pneumatic 360-degree, foot-activated ring.

### Pneumatic Cylinder
Cylinders have a 5" range, except the KICL13 stool which has a 10" range.

### Base
The KICL12, KICL13, and KICL14 have a 20" base. The KICL15 has a 24" base. All bases are die-cast aluminum with a chrome finish.

### Casters
All stools have safety soft casters.

## INFORMATION

### C.O.M. Testing and Production Requirements
Not all materials are suitable for upholstering this product. A 1 yd. x 54" sample must be submitted and approved prior to acceptance of an order. If the fabric is directional in pattern or weave, the direction must be indicated on the submitted sample, and additional yardage may be requested.

Test samples must be sent to:

KICL
Attn: C.O.M. Department
1110 S. Mildred Ave.
Ontario, CA 91761

### Fabric Disclaimer
Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Special Cost Request written specifying the direction the fabric is to be applied. The posted standard lead time will apply to the Special Cost Request.
