VENEER GRAIN OPTIONS

Nienkamper products utilize the best quality veneers available, and, combined with Nienkämper's patented veneering systems, create work environments of incredible quality and beauty.

All veneer furniture comes standard with flat cut book-match veneer; flat cut slip-match veneer can also be specified. Quarter cut slip-match and quarter cut book-match veneers are available at a 5% upcharge. Figured Anagre and Figured Sycamore veneers are Quarter cut book-matched. Bird's Eye Maple and Curly Maple are rotary cut.

Facet Edge, Taper edge and Flowform edge tops with veneer are manufactured with a solid wood edge. All edges are then veneer wrapped to create a seamless profile top.

GATEWAY™ COLLECTION FINISHES —P-LAM

Wood grain plastic laminate surfaces are available on table tops with Facet and Taper edges.

These tops are manufactured with a solid wood edge that is applied prior to the laminate top surface. This method conceals the thickness of the wood edge, while providing the durability required. Wood edges are selected that most closely resemble both the species and the color of the laminate chosen

Nienkämper has pre-selected a number of standard wood grain plastic laminates that represent a cross section of both color and species. Simply include the order code with the model number to make these selections. Alternatively wood grain plastic laminates selected outside of Nienkämper's standard selection can be made by specifying the manufacturer as well as the description and model number of the laminate at the time of order. Note: for Facet edge tops the laminate must be a post-forming grade.

FINGERPRINT RESISTANCE P-LAM

Fingerprint Resistance Plastic Laminate is an innovative material created for interior design applications and is suitable for both vertical and horizontal interior applications on our nienkamper furniture.

The external surface of Fingerprint Resistance Plastic Laminate involves the use of nanotechnology made possible by next generation acrylic resins.

The unique composition offers extraordinary features coupled with a unique user experience. These include an ultra matt surface (eliminating glare), an ultra sofa feel, an anti-fingerprint surface, thermal healing of micro-scratches, increased durability as well as anti-bacterial and mold-resistant properties.

Edgeband with matching color to the Fingerprint Resistance Plastic Laminate is only available on taper edge. For 1" or 1-1/4" thick top with self edge, same Fingerprint Resistance Plastic Laminate can be specified for the self edge or it can be in clear/silver translucent edge.

There is a 10% upcharge on our standard plastic laminate table pricing for Fingerprint Resistance Plastic Laminate.

COLOURED P-LAM

Both Taper and Facet edge profiles are available with a colored laminate top.

Laminate edging on Taper tops. Edging will match the top surface and is applied prior to the surface laminate. By applying the laminate in this way the seam is positioned horizontally, is much less conspicuous as well as more durable.

Wood edging on Facet and Taper Edge tops is applied prior to the laminate. By applying the wood edge in this way the thickness of the wood edge is concealed, while providing the durability required. Wood species and finishes for edging, can be selected from page 4.

For laminates specified outside of Nienkämper's standard selection, specify the manufacturer as well as the description and model number of the laminate selected at time of order. For Facet edge tops, the laminate must be a post forming grade.

Translucent edging on Taper edge tops is applied after the surface laminate. The translucent edge is very durable. Clear translucent edge provides a good match with most white colored laminates, while silver translucent edge provides a metallic look and contrast to colored plastic laminates.

GATEWAY™ TABLES
STORAGE BASE FOR GATEWAY TABLE

Transform any Gateway Wall Mount table into a free standing one by adding a storage element.
A Storage Base can be added onto any flat end Gateway table *deeper than 36"* (both 29"H & 38"H), to provide storage space for supplies, IT and media equipment.

Features:
- There are 4 standard storage cases: hinged double door under top, hinged double door at rear, hinge door at end and double door for height adjustable table.
- Doors are standard with touch latches.
- Case interiors have 1 adjustable shelf.
- Wire access is provided by a cut out in bottom of the case.

Finishes/Edges:
- Gateway Storage Cases are available in all Nienkämper veneers, standard post forming grade plastic laminate or finger print resistant plastic laminate.

Accessories:
- Keyed or electronic door locks can be added to cases.
- A variety of Nienkamper pulls are available.
- Contact Customer Service for option details.

GATEWAY™ PRIVACY DIVIDER PANELS
FEATURES & OPTIONS

Dimensions:

- Dividers are available in 6 lengths x 24"h x 1 5/16" thick with a 1" radius in each corner.

Construction:
- Hollow core panel with both tackable and non- tackable finished surface.
- Dividers are mounted to the underside of the table top with steel brackets. These brackets have a series of slotted holes that allow the end user to loosen and create a 3/8" gap between panel and table for wire passage.

Fabric:

- Any Knoll fabric is acceptable for divider panels however keep in mind that excessive use as tack board may result in premature wear. Speak with customer service to select the fabric that is right for your application.
- In most cases COM fabric is acceptable to use.
- Gateway "Y" seam is standard to both front and rear of dividers.

Trim:
- An aluminum trim is standard to the outer perimeter of the divider.
- Trim is standard in silver anodizing but all anodized colors are available with special order.
- Please note that paint finishes are not compatible with this product.

Options:
- A plastic wire management trough can be added.
