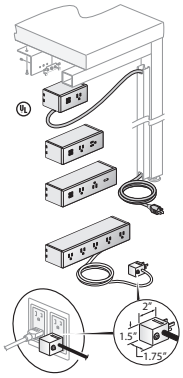
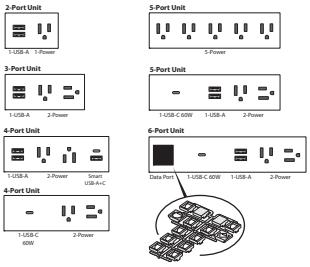
Enhanced Power Module — Seamless

Enhanced Power Module — Seamless





EUS1-PF0B
EUS1-PF0W
EUS1-HL0B
EUS1-HL0W

Features

- Includes power module with 2, 3, 4, 5 or 6 ports configured with simplex outlets (NEMA-5-15R), USB charging port or data ports and mounting hardware.
- Power Modules specified with a data port includes a variety of data port adapters and blank covers, which accommodate most varieties of field supplied data/AV Jacks.
- The Smart USB-A+C allows for the 20W to be transferred between the 2 ports. If the USB-A is being used, the full wattage is sent to the USB-A, and the same for the USB-C. If both are being used, the wattage is distributed to each port and the port drawing the most power will receive more watts than the one that is not.
- Corded power module with 15 amp - 6′(1829mm) or 12′(3658mm) long cord with plug (NEMA 5-15P).
- Hardwire power module with 12′(3658mm) flexible galvanized metal conduit with fitting for 0.5″(13mm) knockout and wires for hardwire connection.
- USB-A provides two 10W charging ports.
- USB-C 60W charging ports not available for hardwire.
- Smart USB-A+C can provide fast charge for a mobile phone and tablets. Occupies one charging port.
- USB-C 60W can charge a computer. Occupies two charging ports.
- Attaches to surface with separately specified mounting brackets.
- Enhanced Power Module Bracket EUDB-0000-B_ for perimeter edge power.
- Color option of black or white plastic front.

Specification Tips

- Configuration and quantity of power and data ports cannot be modified in the field.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Specify AV cables separately.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.
- Separately specified:
  –Mounting Bracket
  –Horizontal and Vertical Wire Management

EUD1-HF0B-2112

Features

- Includes power module with 3, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging port (with two USB outlets), data ports or cable bay(s) that can accept up to two pull out data/AV cables and mounting hardware.
- Data port accommodate most varieties of field supplied data/AV jacks.
- Attaches to surface with use of separately specified mounting brackets.
- Hardwired power module with 6′(1829mm) or 12′(3658mm) long flexible metal conduit feed, 0.5″(13mm) conduit fitting and wires for hardwire connection.
- USB Charging Port consists of two USB 2.0 style A outlets. 4 Amp (shared) charging capacity.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.

Specification Tips

- **Configuration and quantity of power and data ports cannot be modified in the field.**
- **For use with 120 volt 60 hertz power source only.**
- Separately specify attachment hardware for desired application.
- Requires field installation.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
   (No finish specification required.)

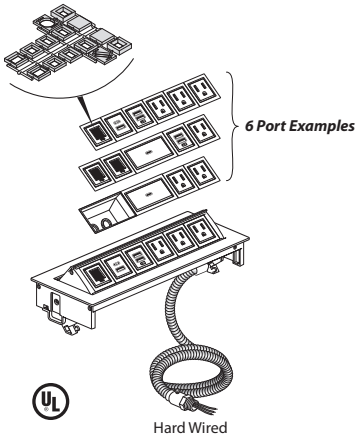
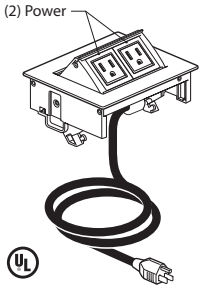
Flip Top Unit with Smooth Bezel — Hardwire — Single-Sided

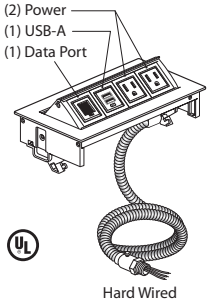
Power, Data and USB



EUC1-HF0P-311010



EUC1-HF0P-200000



EUC1-HF0P-210010

Features

- Includes flip top with smooth bezel module with 2, 4, or 6 ports configured with simplex outlets (NEMA 5-15R), USB charging port (USB-A, USB-C 60W, Smart USB-A+C), data port(s) or cable bay, and mounting hardware.
- The Smart USB-A+C allows for the 20W to be transferred between the 2 ports. If the USB-A is being used, the full wattage is sent to the USB-A, and the same for the USB-C. If both are being used, the wattage is distributed to each port and the port drawing the most power will receive more watts than the one that is not.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables. Occupies one port.
- Each cable bay can accept up to two pull out data/AV cables. Occupies two ports.
- USB-A provides two 10W charging ports. Occupies one port.
- Smart USB-A+C can provide fast charge for a mobile phone and tablets. Occupies one charging port.
- USB-C 60W can charge phone, tablets and some laptops. Occupies two ports.
- Smooth bezel is painted and features non mitered corners.
- Port color is either black or white based on smooth bezel color.
- Flip top unit is flush mounted with spring release cover.
- Flip top unit overall height is 2.75″(70mm) and will extend below the table top.
- Hardwired power module with 6′(1829mm) or 10′(3048mm) long flexible metal conduit feed, 0.5″(13mm) conduit fitting and wires for hardwire connection.
- Ships assembled.

Specification Tips

- **Configuration and quantity of ports cannot be modified in the field.**
- **For use with 120 volt 60 hertz power source only.**
- Requires field installation.
- Specify factory cut hole or field cut hole as required.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
2) Finish color for Bezel/Port.
   TR-PM1 Silver/White
   TR-PM2 Midnight Black/Black
   TR-PM8 Matte White/White
   TR-PM9 Matte Grey/Black

Note: Order flip top units to match flip top unit cutout option specified for each top (A/B, F/V or J/K).

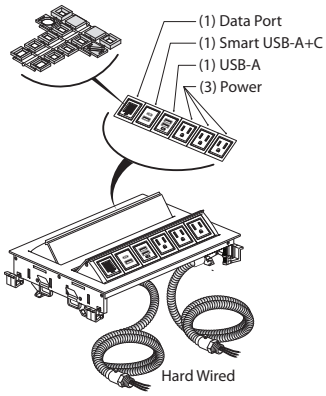
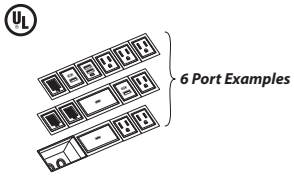
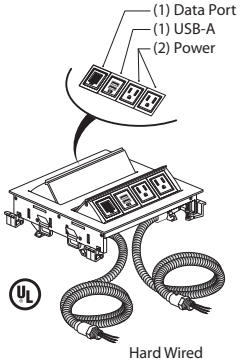
Flip Top Unit with Smooth Bezel — Hardwire — Double-Sided

Power, Data and USB





EUC2-HF0P-311010



EUC2-HF0P-210010

Features

- Includes double flip top with smooth bezel module with 2, 4, or 6 ports configured with simplex outlets (NEMA 5-15R), USB charging port (USB-A, USB-C 60W, Smart USB-A+C), data port(s) or cable bay, and mounting hardware.
- The Smart USB-A+C allows for the 20W to be transferred between the 2 ports. If the USB-A is being used, the full wattage is sent to the USB-A, and the same for the USB-C. If both are being used, the wattage is distributed to each port and the port drawing the most power will receive more watts than the one that is not.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables. Occupies one port.
- Each cable bay can accept up to two pull out data/AV cables. Occupies two ports.
- USB-A provides two 10W charging ports. Occupies one port.
- Smart USB-A+C can provide fast charge for a mobile phone and tablets. Occupies one charging port.
- USB-C 60W can charge phone, tablets and some laptops. Occupies two ports.
- Smooth bezel is painted and features non mitered corners.
- Port color is either black or white based on smooth bezel color.
- Flip top unit is flush mounted with spring release cover.
- Flip top unit overall height is 2.75″(70mm) and will extend below the table top.
- Each flip top module within the bezel provided with two 6′(1829mm) or 10′(3048mm) long flexible metal conduit feed, 0.5″(13mm) conduit fitting and wires for hardwire connection.
- Ships assembled.

Specification Tips

- **Configuration and quantity of ports cannot be modified in the field.**
- **For use with 120 volt 60 hertz power source only.**
- Note two conduit feeds are provided from the double-sided flip top unit.
- Requires field installation.
- Specify factory cut hole or field cut hole as required.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
2) Finish color for Bezel/Port.
   TR-PM1 Silver/White
   TR-PM2 Midnight Black/Black
   TR-PM8 Matte White/White
   TR-PM9 Matte Grey/Black

Note: Order flip top units to match flip top unit cutout option specified for each top (M/P or Q/V).

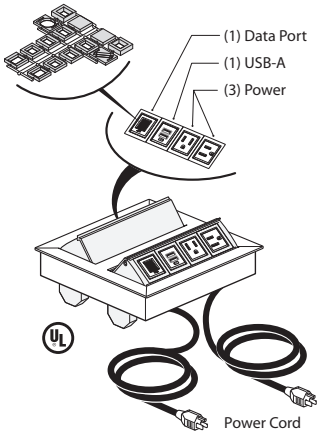
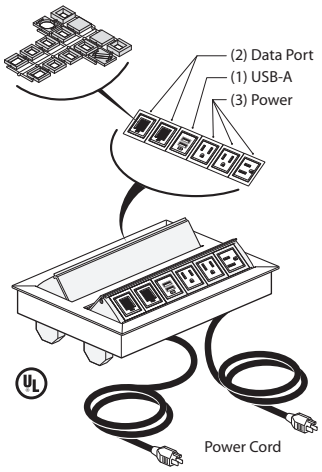
Flip Top Unit — Corded — Double-Sided

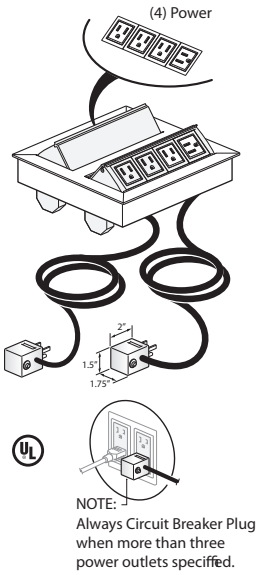
Power, Data and USB



EUE2-PF0B-2110



EUE2-PF0B-1212



EUE2-PF0B-4000

Features

- Includes bezel and two flip top modules, each flip top module with 2, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging port (with two USB outlets), data ports or cable bay(s) that can accept up to 2 pull out data/AV cables and mounting hardware.
- Data port accommodate most varieties of field supplied data/AV jacks.
- Each flip top module within the bezel provided with 15 amp - 6′(1829mm) or 12′(3658mm) long cord with plug (NEMA5-15P).
- USB Charging Port consists of two USB 2.0 style A outlets. 4 Amp (shared) charging capacity.
- Flip top unit is flush mounted with spring release flip module.
- Flip top unit overall height is 2.75″(70mm) and will extend below the table tops.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.
- Ships assembled.

Specification Tips

- **Configuration and quantity of power and data ports cannot be modified in the field.**
- **For use with 120 volt 60 hertz power source only.**
- Requires field installation.
- Specify factory cut hole or field cut hole as required.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

Note: Two cord feeds are provided from the double-sided flip top unit.

To Order, Specify:

1) Product number.
   (No finish specification required.)

Note: Order flip top units to match flip top unit cutout option specified for each top (M/P or Q/T).

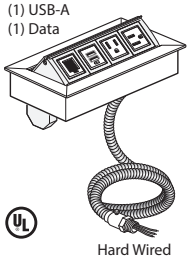
Flip Top Unit — Hardwire — Single-Sided

Power, Data and USB

4-Port:

(2) Power
(1) USB-A
(1) Data

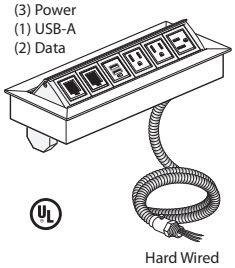


Hard Wired

EUE1-HF0B-2110

6-Port:

(3) Power
(1) USB-A
(2) Data



Hard Wired

EUE1-HF0B-1212

Features

- Includes bezel and flip top module with 2, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging port (with two USB outlets), data ports or cable bay(s) that can accept up to 2 pull out data/AV cables and mounting hardware.
- Data port accommodate most varieties of field supplied data/AV jacks.
- Hardwired power module with 6′(1829mm) or 12′(3658mm) long flexible metal conduit feed, 0.5″(13mm) conduit fitting and wires for hardwire connection.
- USB Charging Port consists of two USB 2.0 style A outlets. 4 Amp (shared) charging capacity.
- Flip top unit is flush mounted with spring release flip module(s).
- Flip top unit overall height is 2.75″(70mm) and will extend below the table tops.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.

Specification Tips

- **Configuration and quantity of power and data ports cannot be modified in the field.**
- **For use with 120 volt 60 hertz power source only.**
- Requires field installation.
- Specify factory cut hole or field cut hole as required.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
   (No finish specification required.)

Note: Order flip top units to match flip top unit cutout option specified for each top (A/B, F/V or J/K).

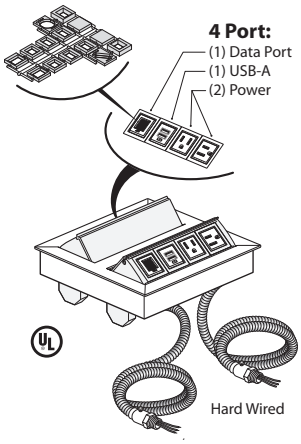
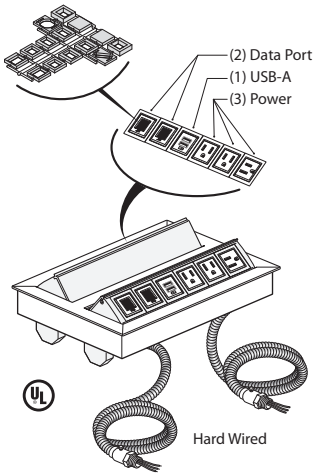
Flip Top Unit — Hardwire — Double-Sided

Power, Data and USB



EUE2-HF0B-2110



EUE2-HF0B-1212

Features

- Includes bezel and two flip top modules, each with 2, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging port (with two USB outlets), data ports or cable bay(s) that can accept up to 2 pull out data/AV cables and mounting hardware.
- Data port accommodate most varieties of field supplied data/AV jacks.
- Each flip top module within the bezel provided with 6′(1829mm) or 12′(3658mm) long flexible metal conduit feed, 0.5″(13mm) conduit fitting and wires for hardwire connection.
- USB Charging Port consists of two USB 2.0 style A outlets. 4 Amp (shared) charging capacity.
- Flip top frame is flush mounted with two spring release flip module(s).
- Flip top unit overall height is 2.75″(70mm) and will extend below the table tops.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.
- Ships assembled.

Specification Tips

- **Configuration and quantity of power and data ports cannot be modified in the field.**
- **For use with 120 volt 60 hertz power source only.**
- Note two conduit feeds are provided from the double-sided flip top unit.
- Requires field installation.
- Specify factory cut hole or field cut hole as required.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
   (No finish specification required.)

Note: Order flip top units to match flip top unit cutout option specified for each top (M/P or Q/V).

EUB1-SF0B-2112

Features

- Includes power module with 3, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging port (with two USB outlets), data ports or cable bay(s) that can accept up to two pull out data/AV cables and mounting hardware.
- Data port accommodate most varieties of field supplied data/AV jacks.
- Spiral Cord includes 15 amp plug (NEMA 5-15P) and expands to 12′(3658mm) when stretched.
- Auxiliary 24″(610mm) power cord with NEMA 5-15R used to provide power to table motor controller.
- USB Charging Port consists of two USB 2.0 style A outlets. 4 Amp (shared) charging capacity.
- Attaches to surface with use of included mounting brackets.
- Flush Mount has an overall housing depth of 4″(102mm) and will extend into mounting surface.
- Color option of black painted bezel with black receptacles or white painted bezel with white receptacles.

Specification Tips

- **Configuration and quantity of power and data ports cannot be modified in the field.**
- **For use with 120 volt 60 hertz power source only.**
- **For use with Planes Height Adjustable Tables or Planes Height Adjustable Bench.**
- Not for use with cable chain.
- Requires field installation.
- Requires field cut access hole for power cord/conduit routing.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

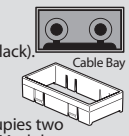
2 Data/Cable Port Options:

Cable Bay
- A reservoir that holds audio/video cables (black).
- A single Cable Bay accommodates a maximum of two video cables and occupies two ports in the Interface Module.



Data Access Ports
- The Data Access Port option includes a tree of multiple data jack adapters used to accommodate most types of field supplied RJ45 data jacks.
- The VGA and microphone data jack adapters, included with the Data Jack Adapter Tree, may not be used because of clearance issues.
- Blank data covers are also included if data access is not required.
- Additional data jack adapters are available through eParts.

Features

- Includes power module with sliding door, ports for power receptacle(s), optional data jack adapters, phone cord access and attachment hardware.
- Power cord, cable bay, receptacles and data jack adapter plates are black.
- Data jack adapters accommodate most varieties of field supplied data jacks and includes blank data covers.
- Excludes VGA and microphone adapters.
- Power module bezel is clear anodized aluminum; sliding door and end trim are available in trim colors indicated.
- Corded power module includes 12 foot black, 15 Amp cord with plug.
- Power Module overall height is 2.75″; will extend below the horizontal surface and extend above surface 0.35″.
- Power module ships for field installation; field modification required to horizontal top for phone access which will deface top.

Specification Tips

- Formerly known as workware.
- Provides power, data, communication and audio/video access for users; may be specified with a variety of port configurations to fit user requirements.
- **Configuration and quantity of power and data ports cannot be modified in the field.**
- Audio/Video Cables are separately specified. Cables must be specified at the proper length required to reach from the user's device to the Monitor.
- Requires a cable base be located directly below power module to house user cables, power and data cables and optional cable retractor; refer to Application Guide for cable base guidelines.
- 4-Port/Wide – Power Modules may be installed on tables specified with the standard Flip Top Unit cutout options (-F) or (-V); 6-Port/Wide/ – Power Modules may be installed on tables specified with the standard Flip Top Unit cutout options (-J) or (-K). These standard cutout options do not provide access for the communication opening to run a phone cable.
- Selected user AV cables extend 48″ from Cable Bay without use of a Cable Retractor and 34″ with a Cable Retractor.
- For use with 120 volt 60 hertz power source only.
- Electrical application requires prior approval by authority having jurisdiction.

Features

- Includes power module with sliding door, 4 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging simplex (with two USB outlets), data jack adapters or a cable bay that can accept up to 2 pull out data/AV cables and mounting hardware.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Spiral Cord includes 15 amp plug (NEMA 5-15P) and expands from 10′(3048mm) to 12′(3658mm) when stretched.
- Auxiliary 24″(610mm) power cord with NEMA 5-15R used to provide power to table motor controller.
- USB Charging simplex consist of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Color option of clear anodized lid with black receptacles or painted lid with black receptacles.

Specification Tips

- Formerly known as workware.
- Not for use with cable chain.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- **Configuration and quantity of power and data ports cannot be modified in the field.**
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

Features

- Includes power module with 2 ports configured with simplex outlets (NEMA-5-15R), USB charging port or data ports and mounting hardware.
- Power Modules specified with a data port includes a variety of data port adapters and blank covers, which accommodate most varieties of field supplied data/AV jacks.
- The Smart USB-A+C allows for the 20W to be transferred between the 2 ports. If the USB-A is being used, the full wattage is sent to the USB-A, and the same for the USB-C. If both are being used, the wattage is distributed to each port and the port drawing the most power will receive more watts than the one that is not.
- Corded power module with 15 amp - 6′(1829mm) or 10′(3048mm) long cord with plug (NEMA 5-15P).
- Hardwire power module with 6′(1829mm) or 10′(3048mm) long flexible galvanized metal conduit.
- USB-A provides two 10W charging ports.
- Smart USB-A+C can provide fast charge for a mobile phone and tablets. Occupies one charging port.

Specification Tips

- Installs into a 3″ diameter hole into surfaces with a maximum thickness of 1.5″.
- Configuration and quantity of power and data ports cannot be modified in the field.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Specify AV cables separately.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

- Rails 66″-96″(1676mm-2438mm) include three posts.
- L-bracket mounts under 1.19″(30mm) thick horizontal surface to support rail tools on both sides.
- Belong Work Tools or Jump Stuff Slat Pad Tools may be used; separately specified.
- Rail overall height above horizontal surface: 11.18″(284mm).
- Distance between rail bottom and top of horizontal surface: 7.44″(189mm).
- Post is 1.25″(32mm) thick.
- Ships unassembled.

Specification Tips

- **Rail with L-bracket or shared bracket mount can only be used in non-panel applications.**
- **Designed for single sided benching applications.**
- **Tool Rail supports a maximum load of 40 pounds (18.14kg) evenly distributed on user side or supports two monitor arms up to 13 pounds each; additional L-bracket mount post recommended.**
- For use with one base unit or back-to-back base units; L-Bracket Tool Rail is double sided to accommodate Belong work tool accessories on both sides.
- For back-to-back base unit applications, one or two L-Bracket tool rail(s) may be used:
  - –One L-Bracket tool rail may be used between base units which results in an aesthetically unbalanced tool rail condition. Both users share a single tool rail. L-Brackets are attached to only one of the two back-to-back storage tops. (Note: KUR2-USN Under Worksurface Mount T-Bracket is not recommended for use with back-to-back base units due to installation issues.)
  - –Two back-to-back L-Bracket tool rails may be used between base units for an aesthetically balanced tool rail condition.
  - –For a single tool rail application, a 2.8″(71mm) deep filler panel may be used to fill gap between back-to-back units.
  - –For two back-to-back tool rails, a 5.1″(130mm) deep filler panel may be used to fill gap between back-to-back base units.
- Tool Rail should be specified 6″(152mm) shorter than screen if both are specified.
- Can be installed off modular.
- Under horizontal surface: 4″(102mm) of clearance is necessary between back of horizontal surface and adjacent component for flat bracket attachment.
- Heavy load application; additional posts can be ordered.
- Monitor arm cannot be mounted in post positions.
- Gap between screen and horizontal surface allows installation of Belong Tool Rail.
- Utility tray provides clearance for installation of Belong Tool Rail.
- Posts mount flush to back edge of horizontal surface.

Note: No more than 6″(152mm) of rail can be extended beyond outside of support.

To Order, Specify:

1) Product number.
2) Trim color for rail/post.
3) Trim color for rail end caps:

2/90 Sign Systems

2/90 Sign Systems is a recommended signage program for use with Haworth Systems. Signage options include ADA-compliant panel-mounted name signs, department signs, building directories, in/out boards, restroom and no smoking signs.

For inquiries, catalogs or orders, contact System 2/90 directly at 1-800-777-4310, fax (616) 656-4300, 5350 Corporate Grove Blvd SE, Grand Rapids, MI 49512.

Lock Programs

Specification Guidelines

Locking Components Shipping Format

Locking components in all Haworth systems, casegoods, files and storage furniture are shipped with the lock housings factory-installed in each unit ready to receive separate lock plug cores. Lock plugs are field installed by means of a control key. Lock plugs and keys will be shipped with random numbering unless they are specified "keyed-alike". Quantity of locks will match quantity required for locking components on the order.

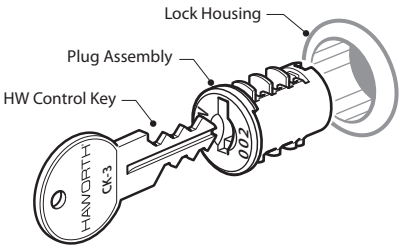
HW Lock Program

All HW lock plugs and keys will be standard in a Master Lock Program. A Master Lock program allows for better management of the facility where one "Master Key" can be used by Facility Management to service all locking components within a facility. Individual offices can be keyed-alike and will receive single-key access specific to the locking components within that workstation. Multiple locks in credenza components should be keyed-alike for the convenience of single-key access. General storage or file areas may also be keyed-alike so that individuals may have access to shared department documents or supplies.

To order new products within a workstation keyed-alike, the specifier should select the number of locks within the workstation and specify LSET quantities through Orderline. CSET lock plug and keys are to key-alike existing product for reconfigurations.

On Site Lock Installation

One Control Key for installing the lock plug will be included with each incremental order unit of up to 200 locks. The control key is used to insert and remove the lock plug into the housing at the installation site. The control key cannot be used to remove a lock plug in the locked position from its housing. Additional control keys are available and should be considered for the convenience of installing locks in widely separated areas of a facility (see Keys Only, page 227).

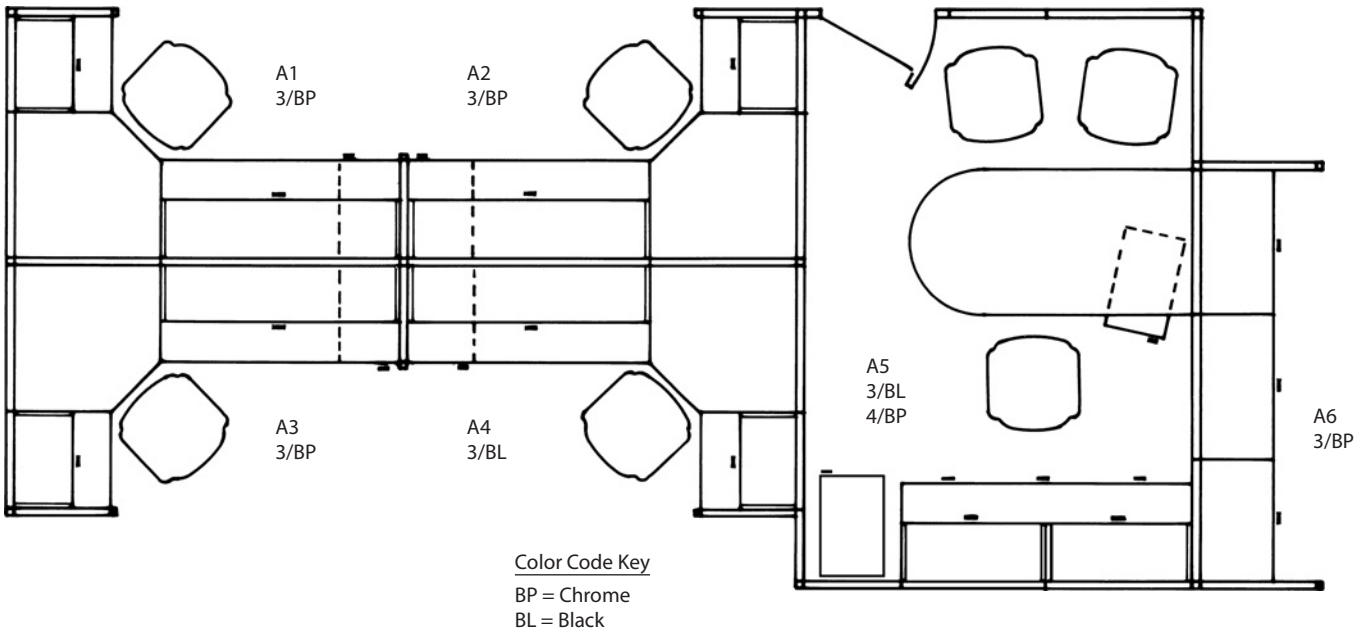


Replacement Lock Plugs and Keys

To order replacement lock plugs and keys, use the appropriate service parts catalog number or CSETS.

Coding the Office Plan

Each lock location should be identified graphically on the plan by a dash mark. Encode your office floor plan by using your own coding system to identify each workstation or area that requires keyed-alike locks. Remember that some furniture will have more than one lock — a double pedestal desk, for instance. The coded floor plan with office identification numbers and lock quantities and color code will be required at the time of installation. The installer will be responsible for assignment of lock quantities based on this plan.



Lock Programs

HW Lock Program

HW Lock Program

The Haworth HW Lock Program is a Master Lock Program and offers the option to have workstations keyed-alike with 300 lock numbers. LSET keyed-alike lock plugs/keys are for new locking product orders only and are available at no charge.

For reconfiguration projects, there are CSET lock plugs and keys available at a nominal charge.

Work Sheet Preparation

Photocopy the HW Lock Work Sheet to assist in specifying locks. This work sheet is for your convenience and is not to be submitted with your purchase order.

Using the Coded Office Plan

Enter the workstation or area identification codes from the plan into the columns headed OFFICE NUMBER on the HW Lock work sheet. The work sheet can accommodate 100 location entries.

Specifying Keyed-Alike Lock Quantities and Colors

NO KEYED-ALIKE NOTE:
When no LSETS are specified, plugs and keys for the total number of locking components will be shipped automatically.

Using the plan, count the number of locking components in each workstation. Enter the number of locks under "QUANTITY" columns, taking into account the chrome or black finish, depending on lock finishes offered. When completed, each workstation should be assigned a quantity of LSETs. For file banks or storage areas requiring a larger quantity of the same lock numbers, specify LSET-999.

A Master Key will need to be separately specified.

Example:

Office Number	Quantity		LSET Number	Totals	
	Chrome	Black		Chrome	Black
A1	3		LSET-3	1	
A2	3		LSET-3	1	
A3	3		LSET-3	1	
A4		3	LSET-3		1
A5	4	3	LSET-3		1
			LSET-4	1	
A6	3		LSET-3	1	

Total the number of LSET quantities at the bottom of the work sheet. Transfer each total quantity to your Orderline or written purchase order.

When specifying Keyed-Alike (LSETS): LSETS must be ordered for the total number of locking components. Only the quantity of LSETS ordered will be shipped. We do not ship based upon number of locking components on order.

LSETS ordered in excess of quantities required for new locking product on the order may result in the order being place on hold.

As a final verification of quantity, review the plan carefully to be sure that all products with locks have been identified. Remember that desks, credenzas and storage units may have multiple locking components.

Line Item Entry

Transfer the data from the work sheet to your Orderline or written purchase order. Enter the appropriate LSET catalog numbers on your order, followed by finish option code -BP or -BL.

Example:

Quantity	Description
4	LSET-3, LR-BP
1	LSET-4, LR-BL
2	LSET-3, LR-BL

Order Processing and Packing Method

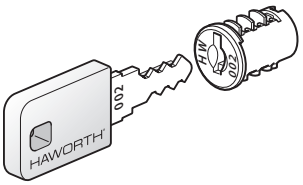


Figure 3.

Haworth will assign the lock numbers for all keyed-alike orders. Note: Specific key numbers cannot be requested.

Upon receipt of your keyed-alike order, Haworth will draw from our standard inventory of 300 lock numbers. Lock plugs will be shipped according to finish in sets per the quantity specified. HW locks and keys (Figure 3) will carry a stamped "HW" on one side with 1 through 300 on the other side as an indication of the "HW lock" program.

Warranty

Ergotron branded products in this price list are covered exclusively by the warranty statement below.

All Ergotron® products will remain free of defects in material and workmanship for a period of five years from the date of receipt of the product, subject to any exclusions and limitations as set forth below.

Ten-year warranty on all LX and MX Ergotron Products, purchased on or after August 1, 2014

Zip Charging Systems: Lifetime material/workmanship; three years electrical components; one year cables (power/Ethernet)

Ten-year warranty on LearnFit Adjustable Standing Desk (24-481-003)

Three-year warranty on all Neo-Flex® Ergotron Products

Original Equipment Manufacturer (OEM) Products resold by Ergotron are warranted by the respective manufacturer

FURTHER EXCLUSIONS AND LIMITATIONS

These warranties do not cover product abuse, modification and failure to adhere to product instructions, improper operations and/or misuse. Ergotron is not responsible for damage arising from failure to follow instructions relating to the product's intended use. Ergotron is not responsible for injury or loss caused by or associated with the installation and/or use of equipment in any manner other than in strict conformance with the instructions set forth in its installation manuals, supplemental assembly and installation instruction sheets, technical bulletins and/or product literature. You will provide Ergotron immediate written notice of any personal injury resulting from the use of Ergotron products.

Ergotron does not warrant damages or defects to the Ergotron product under the following conditions: an Act of God, unauthorized service or repair of the Ergotron products, damage from electrical power problems, usage of parts or components not supplied by Ergotron, failure to follow product instructions and guidelines, unauthorized changes to the Ergotron product, shipping damage (other than original shipment from Ergotron), failure to perform preventative maintenance, or damage caused by peripherals or software or from other external sources.

EXCLUSIVE REMEDY

Warranty Repair: In the event that any Ergotron equipment becomes defective in material or workmanship during the warranty period, Ergotron will determine with you if the product defect is covered under warranty. Ergotron, at its sole discretion, may replace or repair the unit determined to be under warranty at a designated Ergotron location or at your location. The labor costs associated with the repair of the product may be the responsibility of Ergotron if determined to be under warranty. You must receive pre-approval by Ergotron for the labor costs prior to repair or replacement of warranty products. You must contact Ergotron to obtain a Return Material Authorization (RMA) number. An RMA number may be obtained by contacting Ergotron Customer Care online or by telephone within your specific region. Contact information is available to you on the Ergotron web site at www.ergotron.com. Performance of any repair or replacement on product under warranty does not renew or extend the warranty period.

Non-Warranty Repair: You may return a product for repair that is not covered by warranty only if you have received a preapproved RMA number from Ergotron Customer Care. Labor costs and freight charges associated with non-warranty repair will be the sole responsibility of the customer, reseller or installer/integrator. A standard repair fee, specific to the product, is charged for any product that is repaired outside of the warranty period. Repairs on products out of warranty also carry a 90-day warranty, effective the day that you receive the item after repair.

For products that are not covered under warranty, Ergotron offers you the following options:

You may upgrade to a newer, functionally equivalent product at a normal list price

Ergotron will return the product to you

You can request in writing that Ergotron appropriately dispose of the product for you. A fee may apply for this service as designated by local law

Non-Defective Products: You are notified if, after examining and testing a returned product, Ergotron concludes that the product is not defective. The product is returned to you and you would be responsible for the freight charges associated with the return.

WARRANTY DISCLAIMER

Except as expressly set forth in this Limited Warranty and to the greatest extent allowed by law, Ergotron makes no other representations, warranties or conditions, express or implied, including any implied representations, warranties or conditions of merchantability, fitness for a particular purpose, non-infringement, and noninterference. Ergotron does not warrant that your use of the Ergotron product will be uninterrupted or error free. Any implied warranties that may be imposed by law are limited in duration to the Limited Warranty period, to the greatest extent allowed by law. Some states or countries do not allow a limitation on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damages for consumer products. In such states or countries, some exclusions or limitations of this Limited Warranty may not apply to you. This Limited Warranty is subject to change without notification.

Ergotron devices are not intended to cure, treat, mitigate or prevent any disease.

WARRANTY TRANSFERABILITY

This Limited Warranty is available only to the original end consumer and is non-transferable. For this warranty to be valid, the Ergotron product must have been purchased directly from an authorized distributor, reseller and/or authorized representative of Ergotron.

For additional information reference Ergotron.com or warranty inquiries contact Ergotron at 844-429-9678 or email haworth@Ergotron.com.

HAWORTH

Product Compatibility and Limited Warranty Policy

Great Expectations

You have them as a Haworth customer and so do we. And because we value our customers, we cover our products with the Haworth North America Product Compatibility and Limited Warranty Policy.

Our Commitment To Product Compatibility – Integrated Product Platforms

As a market leader in the design and manufacture of workspaces that adapt to change, we strive to maintain product compatibility within our various generations of integrated product platforms. This benefits the customer who desires to update or modify their work environment. It also benefits the customer needing to replace a product due to damage or other reasons but which is no longer manufactured or is otherwise unavailable, such as a fabric or finish that is discontinued because of changing market preferences. In both circumstances, we often can provide products with comparable function and performance.

Our Commitment To Product Quality – The Haworth North America Limited Warranty

To ensure customer satisfaction and peace of mind, we stand behind our products with the Haworth North America Limited Warranty. To review the current version of the limited warranty including its terms and conditions, please go to: **www.haworth.com/warranty** or contact **OneTouch@Haworth.com or 1 877 429 6784**.

Warranty Requests or Questions

For questions or service requests pertaining to the Haworth Limited Warranty, please contact your Haworth dealer. If you are unsure who your dealer is, please contact **OneTouch@Haworth.com or 1 877 429 6784**.

Effective: September 1, 2021
