General Ordering Information and Knoll's Sustainability Statement is available on page 438

Product Information On Each Page
On each page, the following features will assist you:

Description provides both the pattern number and a basic description of the product.

Dimensions provide the overall space the product will require. Statistics are based on the maximum width, depth, and height of the product.

Weight is based on the product itself. It does not include packaging. Weights are rounded to the nearest pound.

Weights of upholstered items do not include weight of textile/leather. To calculate total weight, multiply covering requirements by textile/leather weight, and add to product weight.

Pattern Number provides both the product identification number and all additional selections required for ordering. Finish options are enclosed in parentheses. Finish suffix descriptions are found under Finishes on the bottom portion of the page.

Order Code/Ordering Information outlines exactly how to specify KnollStudio product and the full scope of finishes and other options. The Order Code provides an example of how one pattern number on the page is specified.

Construction provides specific materials and finishes employed, as well as specific construction details.

Textiles and Leather Grades list by price group all KnollTextiles and Spinneybeck Leathers approved for each seating piece. This list is derived through careful examination of the textile or leather's distinctive upholstery characteristics and the form and structure of each piece of furniture. KnollTextiles or Spinneybeck leathers that are not listed have been rejected because Knoll cannot ensure their performance on that product. To view the full range of colorways available for each fabric or leather, consult any Knoll or Spinneybeck representative.

Cal 133 Technical Bulletin
Many KnollStudio products meet California Technical Bulletin 133. Information for specifying these items is on page 22. Applicable upcharge will be listed on the respective price list page.

Intertek Clean Air Certification
Intertek's Clean Air Certification validates the level of volatile organic compound (VOC) emissions from products. VOCs are gases emitted from products and include a variety of chemicals that may affect consumers' health in the short- and long-term. Both Intertek Clean Air GOLD and SILVER certifications ensure the user-health, safety and sustainability of KnollStudio products. A selection of Knoll Office and KnollStudio products are Intertek certified Clean Air, most of which are certified GOLD, which imposes more rigorous standards than certified SILVER.

Note to Knoll Dealer Sellers:
The products contained in this price list are also available through the Knoll Essentials program, with limited exceptions. For additional information, please contact your customer service representative or visit Knoll Exchange.

For More Information
For more information, contact your KnollStudio representative, a Knoll Space reailer or e-tailer, or telephone Customer Services at 800 343-KNOLL. To find the retailer or showroom nearest you, visit www.knoll.com.

Spinneybeck Leather Grades

For the ultimate in comfort, durability, and prestige, many KnollStudio products can be upholstered in Spinneybeck leathers.

Spinneybeck leathers are made from the top 2% of the world's finest hides, inspected numerous times during production to ensure evenness of grain, surface, color and the absence of scars.

After tanning, all Spinneybeck leathers are drum-dyed, a time-consuming procedure which ensures color penetration throughout the hide. Each hide is then finished in the manner which will best bring out its individual character.

Spinneybeck leathers are all full-grain aniline drum-dyed products imported from Italy.

The following Spinneybeck leathers are approved for application on KnollStudio products. Leathers are grouped into five price categories referred to as "grades." The selection of approved leathers varies by product. Please refer to the pricing page of each product line for more information.

Square footage requirements for Customer's Own Leather (COL) are listed on the left side of the pricing page. Please refer to Upholstery Notes on page 21 and The Knoll Selling Policy on pages 436-437 for further information regarding COL.

For further information call Spinneybeck at 1-800-482-7777.

Textile and Leather Notes

All seating in this price list includes the cost of applied fabric or leather. To simplify ordering, the seating is arranged into specific upholstery grades and priced accordingly. Samples and prices of cut textiles are available on request. For a full list of the Spinneybeck leathers available, see page 20.

Leather

The Natural Qualities of Leather
Natural leather is unique. Because every animal is different, each hide has its own individual color, texture, and life-marks. In fact, our leathers are painstakingly treated to retain their natural appearance and hand. Range marks are not camouflaged. Colors and texture vary, and will do so more with age as the leather mellows and takes on a rich patina.

Spinneybeck Leathers
Spinneybeck offers full-grain Italian leathers.

Spinneybeck features three different tanning processes which preserve the leather. The first is mineral tannage, in which chromium salts are used; the second is vegetable tannage, in which bark tanning is used; and the third is a combination of the first two processes. Each leather is tanned in the manner which will best accentuate its unique characteristics.

Spinneybeck leathers are drum-dyed which tumbles the leather over and over for smooth, even coloring absorbed directly into the leather. This aniline-dying process enhances the natural qualities of leather grain. Many competitors use vat-dying. This does not dye the leather in an even manner.

If you have further questions on Spinneybeck leathers, contact your Knoll representative or telephone Spinneybeck Customer Service at 1-800 482-7777.

Below are additional details on the three major types of Spinneybeck leathers.

Naked Leather (Capri, Copenhagen, Distressed, Maremma, Saddle) Naked leather contains no foreign substances which would affect the superbly soft, mellow hand of this most luxurious of upholstery leathers. Natural markings are accentuated. Since there are no barriers against spillage or staining, naked leathers should be carefully specified. However, scratches and marks will dissipate in time as the leather develops a beautiful patina.

Leathers with Protective Finishes: (Acqua, Alaska, Amazon, Andes, Antique, Derby, Ducale, España, Forte, Hand Tipped, Lucente, Montalcino, Portofino, Riva, Sabrina, Velluto Pelle, Volo)
For high traffic areas, protective finishes allow leather to be not only practical, but easy to maintain.

Grain Sueded Leathers (Ducale Velour, Marissa)
Full grain leathers that have been lightly buffed to raise the nap of the surface are referred to as "grain sueded" leathers. This produces the soft hand of sueded leathers. For maximum soil resistance and durability, these leathers have received an impregnated soil resistance treatment during the drum-dye process which permeates the leather, making it repellent to liquid and dirt.

Textile

Classic Boucle
Classic Boucle is with spun Boucle yarn that is a blend of wool and nylon that is piece dyed. Color can vary from lot-to-lot and it is important to use the same lot for multiple piece orders. Please notate sales order when items must match. Classic Boucle, Pearl contains natural, un-dyed wool and will have darker hairs woven within the textile.

Knoll Upholstery Restrictions

Every Knoll leather and fabric is exhaustively tested on each Knoll upholstered item. This is done in addition to the most extensive program of independent fabric testing in the industry. On furniture, testing ensures precise fit and appearance, without stretch, puddling, telegraphing or other common problems frequently experienced when careful factory pre-qualification is eliminated.

When Knoll suggests that a particular leather or fabric not be used on an object, this does not mean the material is defective in any way; it only implies less than perfect performance with the form and structure of a specific item on furniture.

Instructions for Ordering Nano-Tex

The minimum for Nano-Tex on KnollStudio orders is 1-lot $250 net for up to 70 yards. Nano-Tex orders of 71+ yards is $3.25 net/yard.

Dealer instructions for ordering Nano-Tex:
1) Visit knolltextiles.com/technical documents and open the Nano-Tex specifications to see if the fabric is approved with the finish.
2) If approved, check the seating matrix at knolltextiles.com to see if the fabric alone is approved on the chair. (If yes, proceed to #3).
3) Contact your account manager with the fabric name, treatment required, and name and pattern number of desired chair. They will see if Knoll has tested this fabric with finish/treatment on said chair. In most cases, application testing has not been done and they will contact the appropriate parties to initiate approval and determine leadtime for testing.
4) If approved, book order with a suffix of N (for Nano-Tex) after the fabric pattern number.
5) The fabric grade will remain the same. Add line item for finish/treatment required and multiply the finish cost by the number of yards required.

Customer's Own Material (COM) Customer's Own Leather (COL)

While Knoll is pleased to cooperate with COM/COL selections, an extra charge is required to help offset receiving and handling costs. Such charges are included under the COM/COL title of the price columns in this price list. Prior to order placement, a sample cutting of actual COM/COL must be submitted to Knoll in East Greenville or through your regional Knoll office for preliminary approval of intended item (8″ x 8″ minimum memo sample if solid; if COM has a repeat, the sample must be large enough to show the repeat).

Even after such preliminary approval, Knoll reserves the right to reject COM/COL, including, if necessary, the item intended for use with COM/COL, if Knoll considers the customer-supplied material inadequate for any reason. When COM/COL is accepted, KnollStudio assumes no responsibility for its appearance, durability, color fastness or any other quality after upholstered on a Knoll product.

Published yardage requirements are based upon Knoll 52″ width material unless specified otherwise. Leather requirements are based on whole hides with a minimum of 50 square feet per hide. However, in some cases, the nature or pattern of COM/COL will require additional yardage/square feet and/or additional labor charges. When this is necessary, the customer will be notified at the same time that the preliminary sample is approved.

If your COM/COL is approved, you may send the required amount for the product to:

Knoll, Inc.
1235 Water St
East Greenville, PA 18041
Attn: Customer Resources

COM/COL must be marked with designated approval number and customer's name.

For additional information, see Customer's Own Material (COM) under Selling Policy on pages 436-437.

Test Objective
California Technical Bulletin 133 (Cal 133) is a full-scale seating test, not a component test. Testing must be performed on the designated seating unit and textile together. Component data alone cannot be used to certify compliance with the regulation. Under Cal 133 you cannot assume that seating or textiles that have passed individually will pass together.

Test Procedure
The seating unit is exposed to a square open flame gas burner for 80 seconds, positioned at the center of the seating unit, two inches from the back and one inch from the seat.

Scope
Cal 133 only applies to seating units. The bulletin is designed for high risk public areas:

Nursing homes
Health care facilities
Public auditoriums
Hotels (more than 10 seating units in one room)
Motels (more than 10 seating units in one room)
Jails and prisons

Tables and desks are not covered by the bulletin. Variations may occur in individual states with regards to specific application. In California only, compliance is at the discretion of the fire marshall in any building which is fully sprinklered.

KnollStudio Approvals
Tested seating units have been tested in a worst case scenario thus covering other fabrics of lighter weight and same construction. When specifying Cal 133, the seating unit may be constructed with a fire resistant foam and a fire blocker will be laminated to the textile.

How To Specify
It is easy to specify Cal 133 on KnollStudio seating. Simply add the suffix "C" to the end of the pattern number prior to the textile selection. Approved textile selections must have the suffix 133 added to the end of the pattern number.

Example: Bertoia side chair, chrome, seat pad in Common Ground/Basalt
420C-C-K-C-K448/12-133

Testing Additional Product
If you would like to test a specific product:

Specify chair and textile desired - adding appropriate C and 133 codes as explained.

Testing lead time will be the standard lead time of the chair plus 4 - 6 weeks for testing procedure.

Test cost will be the regular price of the chair plus $520 for the testing procedures.

All prices below are list.

Intertek Clean Air Certification

Intertek's Clean Air Certification validates the level of volatile organic compound (VOC) emissions from products. VOCs are gases emitted from products and include a variety of chemicals that may affect consumers' health in the short- and long-term. Both Intertek Clean Air GOLD and SILVER certifications ensure the user-health, safety and sustainability of Knoll products. A selection of Knoll Office and Studio products are Intertek certified Clean Air, most of which are certified GOLD, which imposes more rigorous standards than certified SILVER.

Certified Clean Air GOLD

- USGBC LEED credits
- California 01350 Special Environmental Requirements (CDPH).
- California Department of General Service (DGS) Indoor Air Quality Specifications for Open Panel Office Furniture
- Compliant to BIFMA e3 standard credit 7.6.2 and 7.6.3.

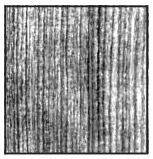
KnollStudio Natural Materials

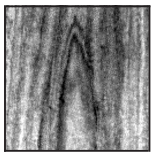
Wood, marble, granite, and slate are natural materials that vary. Use material samples and printed sample materials as reference only. KnollStudio printed and finish samples offer an example of what an "average" natural material may look like, within a range of acceptance carefully delineated by Knoll. Because of the breadth of variations possible with any natural material, Knoll specialists select these materials with stringent criteria, accepting only the top 3 - 5% of what is available.

Wood

Knoll Natural Veneers
All natural finishes are selected from the finest hardwoods available around the world. Veneers are flat cut and carefully matched so that cathedral or heart patterns are perfectly balanced. Natural veneers also are cut to allow a generous margin of quarter-grain figuring ensuring invisible splicing.



Quarter Pattern



Cathedral Pattern

Finishes
Most finishes are designed to coordinate with standard Morrison and Reff. For reference, consult the matrix on page 25.

Marble, Granite and Slate

Knoll selects the highest quality, structurally sound marble, granite and slate available, through a host of quarries in the United States, Turkey, Spain, Slovenia and Italy. Because each mountain range and quarry have their own signature, every marble piece - even within a single quarry - is unique. Hues, veins, crystals, fossils, clouds, and distinctive marks will vary from piece to piece. This is the extraordinary character of stone as a material. Its high quality and its unique nature give Knoll tables a feel of incredible sculptural beauty. The following list are the marbles, granites, travertines, and slates that KnollStudio offers:

Coated Marbles

Coated Marbles
Coated marbles have transparent, high-polish, acrylic coating to prevent use-associated stains. Even with this protection, coated marbles should not be used outdoors. Stains should be wiped immediately. Coating will yellow over time.

Satin Coated Marble
Satin coated marbles have transparent satin acrylic coating to prevent use-associated stains. This satin finish gives the stone a natural, honed appearance while providing the same protective qualities as the Coated Marbles. Even with this protection, satin coated marbles should not be used outdoors. Stains should be wiped immediately. Coating will yellow over time.

Arabescato
Ivory white with dark grey veining. May contain random green veins.

Calacatta
Ivory white. Gold and beige random veins with additional veins varying from cream to green and grey.

Carrara
White background with grey veining.

Espresso Marble
Light and dark brown with white and beige veining.

Grey Marble
Grey with black and white veins. Hues vary in tone and intensity.

Grigio Marquina
Dark warm grey with thin black veining and characterized by white linear veins.

Portoro Marble
Deep black background with large striking white and silver veining. Some gold veining may be present.

Rosso Rubino
Rich red with hues that can vary from violet to green with white and green veins. Hues vary in tone and in intensity.

Verde Alpi
Green. Black and white veins. Hues vary in tone and intensity.

Natural Marbles

Natural marbles have a protective sealer to protect the stone from aging and staining. Sealer has to be renewed periodically (see product maintenance on page 27). Natural marbles are not suitable for outdoor use.

Carrara
White background with grey veining.

Calacatta
Ivory white. Gold and beige random veins with additional veins varying from cream to green and grey.

Natural Granites

Natural granites have a sealer to protect the stone from aging and staining. Sealer has to be renewed periodically (see product maintenance on page 28). Because of its non-porous density, granite does not require protective acrylic coatings.

Black Andes Granite
Black with reflective mica crystallines.

Slate

Natural cleft slate is available on SM Tables, and Saarinen Tables.

Please refer to respective product pages for recommended outdoor finish combinations.

Cane

Cane is a natural material that might present slight variations in color and texture. For more detail, visit the Cesca price list pages.

With proper care, your KnollStudio furniture should last for years to come. To help ensure the longevity of your purchase, below are helpful hints on routine cleaning for your KnollStudio piece. Most basic maintenance can be performed with common household cleaning products.

Textiles
See KnollTextiles website for detailed cleaning and care instructions. Wipe all spills immediately. Brush and vacuum every three to four months. Use a foam upholstery cleaner as directed semi-annually, or more frequently if necessary. Try a hidden area to test for color fastness.

Spinneybeck Leathers
Leather is hardy and will adjust to its environment. It mellows gracefully with age. Leather is expected to change; even the oils from our hands help to develop the patina.

Full grain, aniline leather is undemanding. It breathes, has a life of its own, and requires little care. It should not be abused by harsh cleaners, or substances such as wax or mink oils which will clog the pores. A periodic wipe with a damp cloth is a sufficient means of cleaning under normal conditions.

Spinneybeck now offers a leather maintenance kit specifically designed for the 28 quantities offered. The kit includes a cleaner, conditioner and ink-remover and can be ordered by calling 1 800 482-7777. There are three types of kits:
- finished products
- full aniline products
- brush-sueded products

The following guidelines will help you to maintain the beauty of the leather without destroying any of its natural characteristics.

Naked Leather (Capri, Cervo, Copenhagen, Cordovan, Distressed, Prima, Saddle)
Naked leathers contain no foreign substances that act as a barrier against spillage or staining. They should be selected with this in mind.

The only recommended cleaning method for naked leather is to wipe the entire surface with a soft woolen cloth and water. Do not spot rub for it will darken only that area. The idea is to even out any abrasions or stains.

With use, naked leather develops a beautiful patina that removes many small scratches and abrasions as body oils moisturize and revitalize the leather. Substantial body oil marks will also dissipate over time, particularly if rubbed down with cool water.

Protective Finished Leathers (Acqua, Alaska, Amazon, Andes, Antique, Arizona, Derby, Ducale, España, Forte, Hand Tipped, Portofino, Riva, Sabrina, Salon, Torello, Velluto Pelle, Vicenza, Volo)
For high traffic use, breathable protective finish allows leather not only to be practical but also easy to maintain. It can be cleaned by wiping the entire surface with a soft cloth and a very mild solution of Ivory Flakes and cold water, followed by wiping the entire surface with water alone.

Grain Sueded Leather (Ducale Velour, Marissa)
For maximum soil resistance and durability these leathers have received an impregnated soil resistant treatment in the drum which permeates the leather making it repellent to liquid and dirt.

Grain sueded leather can be maintained with moderate care because spillage will bead and roll off. However, spillage should not be allowed to puddle, and should be blotted dry immediately. For normal care, leather should be brushed occasionally, with a sueded cleaning block to help remove general soilage.

If you have further questions about the care and maintenance of Spinneybeck leather, call Spinneybeck Customer Service at 800 482-7777.

Cowhide Slings, Belting Leather
For normal cleaning, use a soft cloth dampened with a solution of mild soap or detergent (Ivory Flakes) well dissolved in water. Rub very lightly, never pressing hard. Do not use solvents because dye may run. For scratches, use liquid shoe polish and buff when dry. Any liquids spilled on leather should be mopped up as soon as possible in order to avoid being absorbed by the leather.

Cane
Use water and glycerin every three months to keep cane from drying out.

Vinyl
Clean frequently with a mild detergent and water. Use leather or plastic cleaners for unusually heavy use. Do not use solvents such as gasoline because plastic surface will gum and deteriorate.

Wood
Clean with a commercial brand of liquid furniture polish twice a month. For stubborn dirt or light scratches, rub lightly with very fine steel wool before using furniture polish. To rejuvenate luster, apply a furniture cream as a last step. Do not use water or household solvents: they will destroy the protective finish.

Lacquer Finishes on Wood (Florence Knoll credenza)
Frequent cleaning recommended: once per week with heavy use or once per month with light use. Clean with ordinary household soaps or detergents, well dissolved in water. Polish with lemon oil using a very soft cloth. For stubborn dirt or light scratches, uniformly apply Cleanbright Liquid Ebony or Guardsman liquid furniture polish with cheesecloth. Allow ten minutes to dry and wipe with a clean, dry cloth. For nicks, chips, and deep scratches, contact a professional refinisher. Never use abrasives.

Teak
Do not apply teak oil if you are using your furniture outdoors. For teak furniture used outdoors, clean with soapy water and allow to dry. Note that teak exposed to the sun will patina to a silvery grey color. For teak furniture used indoors, wipe surface with soft cloth to remove dust. Apply thin layer of teak oil using a paint brush and wipe excess using a soft cloth. Oil can be applied every 3 months to maintain rich color.

Wood Frame Chairs
Clean with dry and soft cloth. Rub smoothly with damp, lukewarm cloth. Treat stubborn stains with household soap solution or a solution with dishwashing liquid. Wipe off with clean, dry cloth. Do not use acid or abrasive detergents.

Marble with Acrylic Coating
Wash with lukewarm water. Wash more thoroughly with Windex, Fantastik, Ivory Flakes in warm water, or other non-abrasive solutions. Rinse with warm water and dry with a soft cloth.

Natural Marbles/Marbles without Acrylic Coating
Cleaning: Wipe off stains and liquid spills immediately with water and soft cloth. Never use steel wool or other abrasives on marble.

Maintenance: The mineral surface of marble is very porous and easily absorbs moisture and fluids causing staining and discoloring. If applied on a yearly basis, impregnators or penetrating sealers protect the interior of the stone, inhibit discoloration and allow the stone to breathe and release water vapor.

To restore a uniform luster, clean surface from any grit or debris, then remove all topical coatings with Stoneguard Stripper. Use Marbalex to rinse surface, then let top dry for twelve hours before applying stone impregnator. Apply SCI Impregnator using a clean and dry applicator brush. After five minutes, wipe off the excess with soft, white terry cloth. If impregnator is absorbed within five minutes apply second coat at least twelve hours later.

Never use steel wool or other abrasives on marble.

Slate
Apply a generous amount of soap solution (1:5) to the table top with a hard brush. Wipe off the top with a clean, damp cloth. Repeat as often as required. Apply mineral oil or lemon oil as needed to protect surface and maintain color.

Granite
Clean with Windex, Fantastik, or other non-abrasive solutions on a regular basis. Apply a marble wax to improve luster and protect finish. Routine maintenance will prevent the stone from darkening with use from body oils, and will help maintain an evenness of color.

Vetro Bianco
Wash surface with lukewarm water. Clean more thoroughly with a non-abrasive solution such as Windex or Fantastik. Rinse with warm water and dry with a soft cloth. Wipe off stains immediately with water and a soft cloth. Never use steel wool or other abrasives on surface.

Glass/Acrylic Polycarbonate
Clean with Windex, Fantastik or other non-abrasive cleaning solutions. Wipe dry with a clean cloth.

Laminate/Melamine
Scrub with Windex, Fantastik, Mr. Clean, or other household soaps or detergents well dissolved in water, or with a very soft cloth dampened with alcohol or a synthetic thinner. For a dull finish, rub with jeweler's rouge as a polishing agent and finish with paste wax. Never use abrasives. Remove stubborn stains with Soft Scrub.

Stainless Steel
Use Windex, Fantastik, or other non-abrasive household cleaners. For small scratches, rub with Comet, Ajax, or other mild abrasives in the direction of the grain. Apply a coat of auto wax to maintain beauty.

Chrome/Satin Chrome
Clean with Windex or an automotive chrome cleaner such as Semi-Chrome twice a month. Apply a coat of hard paste wax to protect against moisture.

Nickel
Clean with Windex, Fantastik, or other non-abrasive cleaning solutions. If discoloration occurs, rub lightly with a fine steel wool to restore luster. Steel wool Grade #0000 is recommended. Touch-up with a clear lacquer to prevent oxidation.

Copper (uncoated)
Polish using a soft cloth and metal polish cream such as BlueMagic®. Do not use harsh abrasive or steel wool.

Polished Aluminum
Clean with Windex, Fantastik, or other non-abrasive cleaning solutions. Coat with a hard paste wax semi-annually to maintain luster and prevent discoloration.

Anodized Aluminum
Clean with mild soaps, detergents, or other non-abrasive cleaning agents. Apply paste wax or DuPont non-abrasive car polish #7 twice a year to prevent oxidation.

For stubborn stains or discoloration, apply navel jelly aluminum cleaner.

Urethane Edge
Clean with household soaps and detergents well dissolved in water. Do not use abrasive cleaning solutions.

Epoxy
Clean with Windex, Fantastik, or other ordinary non-abrasive household soaps, detergents, or ammonia at least once a month to prevent yellowing. For scratches and chips, rub with Comet, Ajax, or other mild abrasives. For deeper scratches, contact Knoll Customer Service for touch-up paint. Shine with a high grade auto polish. Never use harsh abrasives or steel wool.

Rilsan©
Clean with Windex, Fantastik, or other ordinary non-abrasive household soaps or detergents. For ink stains on white surfaces, use Soft Scrub. For scratches and chips, rub with Comet, Ajax, or other mild abrasives. For deeper scratches, use a good grade automotive acrylic-lacquer touch-up paint. Shine with a high grade auto polish. Never use harsh abrasives or steel wool.

Porcelain
Clean with damp cloth using water or Windex. Do not use any abrasive detergent.

Powder Coat Paint
Clean with Windex or Endust using a soft cloth. Remove stubborn stains with Soft Scrub.

Polyester Shell
Clean with Windex or soap and water. Do not use any abrasive detergent.

Plastic Seat Shells
Clean with damp cloth with diluted soap. Wipe dry with clean cloth. Do not use any abrasive or acid detergents.

Cotton Webbing
Use damp cloth to clean. Do not use detergent or soap or any abrasive detergent.

Cotton/Nylon Webbing
Use damp cloth to wipe off stains.

Moving Parts
Lubricate moving parts every six months.

Swivel Mechanism
Apply a paste-type grease to swivel mechanism once a year.

Plastic/Polyethelene
Clean using a soft rag, either dry or wet. When needed, use mild pH-balanced soap diluted in water. Do not use abrasives sponges, acidic products or solvents containing ammonia.

To remove scuff marks, lightly rub scuff mark with a dry, non-scratch scour pad, like Scotch-Brite.

KnollStudio Outdoor Care Guidelines

Knoll outdoor furniture is designed to withstand years of normal use with proper care and maintenance. By following the basic precautions below, you can be sure that your furniture will be enjoyed for many years to come.

Cleaning

- Do not use a power washer as a method of cleaning as it may abrade the finish.
- Surfaces, painted frames, fabrics, mesh, and teak should be cleaned regularly with mild soap and water to prevent the build-up of dirt, pollen, mildew, and mold. Harsh abrasives should not be used.
- If furniture is used near the ocean or indoor pool area, rinsing, and wiping down your furniture regularly will prevent the formation of salt and chloride residues, which can corrode finishes.
- It is recommended that towels or other coverings are used to protect vinyl strapping and mesh when body oils, sunscreens, suntan lotions are being used, as some of these products may stain. If diret contact occurs clean promptly.

Sun Protection

- No material is fade-proof under years of exposure to the sun's UV rays and elements. To minimize possible fading, keep products covered when not in use and limit exposure to direct sunlight when possible.

Extreme Weather

- Extreme conditions in summer and winter will cause materials to expand and contract. Always cover furniture when not in use, and when possible, bring indoors during the off-season.
- Do not store product upside down as water could accumulate in the frames causing corrosion and potentially damage, in freezing temperatures.

Freight within the 48 contiguous United States and Canada, excluding the Yukon, Northwest Territories and Newfoundland, is prepaid and included in the price of all orders.

For residential orders, Knoll strongly recommends White Glove delivery service to most locations in the Continental United States and Canada. Hat Trick note:
Hat Trick arms are 9-ply and arm supports are a total of 26-ply for added strength. Arms may be retrofitted on armless Hat Trick chair, or removed from arm version. Easily added or removed with bolts. Contoured seat constructed of cross-ply maple for rigidity.

High Sticking note:
Built-in lumbar curve for enhanced back support. To maximize tension compression, limited assembly glue is used in woven seat: weaves flex in unison for spring-like comfort.

Construction

Frame:
Constructed of hard white maple veneers in 2″ wide, 1/54″ thick strips on Hat Trick and High Sticking chair, laminated to 7 to 9-ply thickness with high-bonding urea glue. All wood grains run in same direction for resilience. Thermo-set assembly glue provides structural rigidity without the need for metal connectors, while allowing for ergonomic movement and flexibility. Backs on all chairs flex for added comfort.

Cushions:
½″ thick high resiliency foam on Hat Trick. ¾″ thick high resiliency foam on High Sticking. Hat Trick cushion "shower cap" design envelopes entire seat. Square High Sticking cushion snap-locks underneath chair.

Glides:
Clear plastic with matte frost finish.

Construction

Molded Polyethylene Stones:
Polyethylene stones have integral color with a light texture and a low gloss finish, available in one color.

Recycled Molded Polyethylene Stones:

Seats and Table:
Stones are available in molded polyethylene in virgin or recycled material. Both versions are fully finished and are enclosed on top, bottom and sides. Seat tops are slightly concave and table top is slightly convex.

Note:
The original Maya Lin Coffee Table (85T42) is no longer available and has been replaced by a modified version (85T32). Please note the new dimensions and weight.

Outdoor application note:
With proper care and limited exposure to the elements, Stones tables and seats without seat pads are suitable for outdoor use. Polyethylene stones in all colors can be used outdoors. Remove water in the concave seats to avoid permanent stains. White patina may appear on surface. During cool or inclement weather, it is recommended to bring Stones inside.

Seat application note:
Do not use as stepping stool.

Security kit hooks onto latch on underside of polyethylene Stone directly into the ground for permanent applications. Due to variations in flooring, kit does not include hardware. Security kit is NOT available on coffee tables.

UV Testing:
Maya Lin Stones in polyethylene in all colors have passed UV testing standards including 100 hours under intense UV radiation to test for colorfastness.

Cal 133:
For polyethylene Maya Lin Stones in a Cal 133 finish please request through CPD. Please note, specifying the Maya Lin Stone seat pad in a Cal 133 textile does not make the polyethylene Stone Cal 133 approved.

Maintenance:
See pages 27-28.

Note:
The Maya Lin Seat and Coffee Table are certified Clean Air GOLD.

Construction

Molded Polyethylene Stones:
Polyethylene stones have integral color with a light texture and a low gloss finish, available in one color.

Recycled Molded Polyethylene Stones:

Weighted Polyethylene Stones:
Large and small stones in molded poyethylene can be specified with or without weight. For stones with weight, sand is added at the factory. Weight can be adjusted in the field through access on underside of the stones. There is no option for a sand kit if the Stones are ordered without weight. The coffee table can only be specified without weight.

Top:
Thick polished plate glass or coated marble with transparent acrylic coating in polished or satin finish to help eliminate use-associated stains. Marble tops arrive with a 1/8″ thick black high density particle board spacer glued underneath the perimeter and rests on the table frame with double sided adhesive.

Note:
Marbles with a coating will yellow over time giving the marble a warmer tone.

Base:
Legs are made of solid steel bars and connected to horizontal steel tube rails using steel connectors.

Substructure:
Larger tables, 2523T and 2524T, include an added cross bar between the rails and feature a tension rod substructure to help support the weight of the marble top. Four steel rods connected to the top corners of the table base converge into a chrome box attached to the cross bar. This hidden structure prevents any deflection of the marble.

Selling Policy

This Selling Policy supersedes all previous selling policies and is inclusive of Knoll, KnollStudio and Muuto. Prices, discounts and product offerings are subject to change without notice.

Terms & Conditions of Sales

Sales by Knoll, Inc. or Knoll North America Corp. ("Seller") of Knoll Product Lines (hereinafter "Products") within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser's assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supersede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.

Ordering Information

All orders must be in writing. The product pattern number(s) contained on Seller's order acknowledgement shall be the final expression of the order.

Order Confirmation

A purchase order is not binding on Seller until Purchaser has received Seller's order confirmation or acknowledgment.

Pricing Policies

List prices are subject to change without notice.

List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller's list prices.

Taxes

All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.

Terms of Payment

Payment for one hundred percent (100%) of the net order amount (including any applicable shipping and handling fee) is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than $100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

KnollStudio orders less than $2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than $2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment.

If, in the judgment of Seller, Purchaser's financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance.

Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney's fees and costs.

Changes and Cancellation

Standard purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including "COM" (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.

QuickShip orders may not be changed or canceled without Knoll's authorization. In the event of Muuto order changes, 25% payment of original net order amount is required for changes incurring the week the order was entered. 100% payment of original net order amount is required for changes incurring the week the order is scheduled to ship. If Muuto is ordered on QuickShip, the QuikShip policy supersedes.

Freight Prepaid

For standard orders, freight is prepaid and included in the price of all Knoll Office and KnollStudio Products, except KnollTextiles and Muuto, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.

Freight for all Muuto orders must be specified at time of order placement and added to the PO.

Delivery/Freight Charges

Shipments outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin.

For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination.

Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.

Nonstandard methods of shipment and/or additional services are available upon request. Orders for QuickShip product shipping direct parcel or White Glove are subject to additional shipping and handling charges and must be paid by Purchaser. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser's request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.

Partial shipments may be made and invoiced by Seller.

Claims

All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for any other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability to Purchaser for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.

Seller's Security Interest

Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.

Returns

The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.

Held Orders/Storage

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.

Customer's Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller's line of Products ("COM") must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of war or terrorism, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

Compliance with Law

PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.

Patents

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:

- Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
- Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
- Any settlements of a suit or proceeding made without Seller's written consent.

Limitations of Liability

SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.

Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.
