HAWORTH

UniGroup Too, UniGroup & PLACES

North America Price List / Specification Guide – May 2024

This price list is based upon Haworth's February 2024 commercial pricing.

Electronic Update Page – UniGroup Too Price List

- The table below lists all of the updates and addendums added to this price list since the original version was created.
- All **Update** pages will replace the existing pages within the document.
- All **New** pages will be placed at the back of the document.

Link	Date	Pages	Description
Click Here	July 2024	All Pages	**Update –** The 4-Circuit power option for UniGroup Too, UniGroup and PLACES was discontinued due to declining volumes and manufacturing restraints. All of the affected pages were updated or removed, and the following pages were renumbered.
Click Here	August 2024	201, 202, 205	**Update –** The Standard Snap-n-Fit Cantilever Bracket for Rectangular Worksurfaces, Standard Snap-n-Fit Mini Cantilever Bracket for Rectangular Worksurfaces, Standard Snap-n-Fit Cantilever Bracket for Corner Worksurface, Standard Snap-n-Fit Mini Cantilever Bracket for Corner Worksurface, Adaptable Worksurface Support – Wood have been obsoleted.

This Haworth North American price book contains US list prices.
Canadian customers can convert the US list price into their Canadian equivalent by going to **www.Haworth.com/Canada** to find the current Canadian multipliers. These multiplier factors allow you to convert the US list price into a Canadian list price.

Price Book Overview

The following overview explains how information is organized within the UniGroup® Too, UniGroup® and PLACES® price book.

❶ Front Cover
- Includes the price book title and pricing effectivity date.

❷ Canadian Conversion / Update Page
- Pricing conversion information for converting US pricing into the equivalent Canadian pricing is located on the footer of this page.
- All Price Book updates will be listed on this page including the date, page number and description of the update.

❸ Price List Table of Contents
- Price List table of contents with page numbers.

❹ Statement of Line
- Provides a pictorial outline of the entire product offering.

❺ Price List
Each price list page contains the following:
- Product Illustration
- Catalog Number
- To Order Specify – sequencing for ordering product options and finishes
- List Prices
- Product Specification Dimensions
- Features
- Specification Tips
- Class, Discount Group Number (used for discounting) and GSA information

❻ Specification Guide
- Table of Contents – specification guide content with page numbers
- Statement of Line – provides a pictorial outline of the product offering
- Product Overview – brief introduction of the product and application intent
- Easy Planning Steps – basic steps of planning with the product line
- Product Details – product attributes, dimensions, surface materials and functionality
- Product Application – vertical and horizontal planning guidelines including support and load, power, and storage
- Technical Specifications – provides performance ratings, material composition and manufacturing process information

❼ Finishes, Fabrics and COM
- Lists information for material finishes and availability.
- Provides COM information and requirements (if applicable).

❽ Index
- Products are listed alphabetically by alpha-numeric catalog numbers with price list page number.

❾ Product Non-Obsolescence, Warranty Policy and Terms of Sale
- Provides information about the Haworth policy for non-obsolescence, warranty and Terms of Sale.

Additional Information and Resources

Prices are subject to change without notice or approval. Haworth dealers should always submit proposals through Lynx before presenting to customers. See North American Terms of Sale for more information.

Online Resources

haworth.com
- Haworth's corporate website provides access to price books and a variety of other resources and publications.

surfaces.haworth.com
- Website provides access to the most current fabrics and finishes offered across Haworth's various product lines.

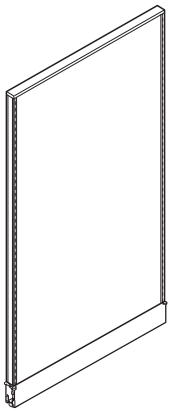
Basic Monolithic Panel — No Power

UniGroup Too

Fabric



E2MN-B (Non-Powered)

NOTE:
This panel has fabric/colorway restrictions, see systems fabrics/ color legend.

Features

- Includes non-powered panel assembly, square top cap with aligner, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper. **.6** top cap end plugs and base raceway end caps are shipped with each panel. Order additional as necessary.
- Acoustical panel surfaces over 0.125″(3mm) thick fiber board.
- Panel surfaces may have the same fabric on both sides or a different fabric on each side.
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept add-on panels up to a combined height of 80″(2032mm). For aesthetic consistency, specify UniGroup Too add-on panels.
- Raceway cover must be separately specified for option -BE (no raceway cover).
- If 90° top cap for four-way and 120° top cap for three-way are not specified, additional top cap end plugs will need to be ordered.
- Additional top cap end plugs and base raceway end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ Options:

B With Raceway Cover

BE Without Raceway Cover, deduct **$122.58** list

2) Fabric/colorway for panel side one.
3) Fabric/colorway for panel side two.
4) Trim color raceway cover, glide housings and end caps.
5) Trim color for top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Non-powered panels ship without receptacle ports in the base raceway cover.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

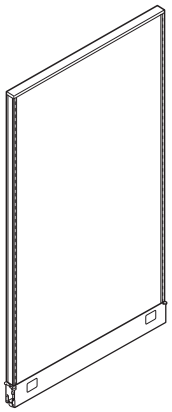
Basic Monolithic Panel — Powered

UniGroup Too

Fabric



E2MP-B (3-circuit)

NOTE:
This panel has fabric/colorway restrictions, see systems fabrics/ color legend.

Features

- Includes powered panel assembly, square top cap with aligner, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper; power distribution assembly/flex connector(s). **.6** top cap end plugs and base raceway end caps are shipped with each panel. Order additional as necessary.
- Acoustical fabric surface over 0.125″(3mm) thick fiber board.
- Panel surfaces may have the same fabric on both sides or a different fabric on each side.
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Powered raceway with or without raceway cover requires modified catalog number and list price.
- Powered panels are available for countries that utilize 120 volt 60 hertz electrical systems and U.S. configured plugs and outlets.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept add-on panels up to a combined height of 80″(2032mm). For aesthetic consistency, specify UniGroup Too add-on panels.
- Flex connectors provided for powered monolithic panels accommodate straight in-line, inside 90°, and inside 120° conditions (if applicable).
- Receptacles for powered panels must be specified separately.
- Raceway cover must be separately specified for option -BE or BYE (no raceway cover).
- If 90° top cap for four-way and 120° top cap for three-way are not specified, additional top cap end plugs will need to be ordered.
- Additional top cap end plugs and base raceway end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ 3-Circuit

B	With Raceway Cover
BE	Without Raceway Cover, deduct **$138.36** list
BY	NYC with Raceway Cover
BYE	NYC without Raceway Cover, deduct **$138.36** list

2) Fabric/colorway for panel side one.
3) Fabric/colorway for panel side two.
4) Trim color raceway cover, glide housings and end caps.
5) Trim color for top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Powered panels with raceway covers ship with receptacle ports in the base raceway cover. Receptacle ports on the raceway cover measure 2.35″(60mm) top-to-bottom and 2.88″(73mm) side-to-side.*
- *Powered panels with Power Distribution Assemblies (PDA) but without raceway covers require separately specified base raceway covers for power and communication port locations other than the standard powered base raceway cover.*
- *New York City (NYC) electrical applications require field installation of PDA.*
- *New York Port Authority (NYPA) electrical applications require metal raceway covers. To order, specify NYC powered panels without raceway cover and separately specify metal covers through Haworth e-Parts.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

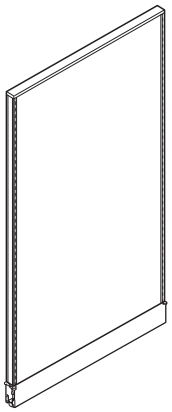
Fabric Monolithic Panel — No Power

UniGroup Too

Fabric



E2FN-B (Non-Powered)

NOTE:
This panel has fabric/colorway restrictions, see systems fabrics/ color legend.

Features

- Includes non-powered panel assembly, square top cap with aligner, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper. **.6** top cap end plugs and base raceway end caps are shipped with each panel. Order additional as necessary.
- High acoustical panel surfaces over 0.5″(13mm) thick fiber board.
- Panel surfaces may have the same fabric on both sides or a different fabric on each side.
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept add-on panels up to a combined height of 80″(2032mm). For aesthetic consistency, specify UniGroup Too add-on panels.
- Raceway cover must be separately specified for option -BE (no raceway cover).
- If 90° top cap for four-way and 120° top cap for three-way are not specified, additional top cap end plugs will need to be ordered.
- Additional top cap end plugs and base raceway end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ Options:

B	With Raceway Cover
BE	Without Raceway Cover, deduct **$122.58** list

2) Fabric/colorway for panel side one.
3) Fabric/colorway for panel side two.
4) Trim color raceway cover, glide housings and end caps.
5) Trim color for top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Non-powered panels ship without receptacle ports in the base raceway cover.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

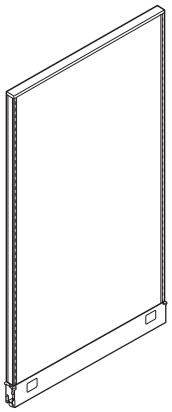
Fabric Monolithic Panel — Powered

UniGroup Too

Fabric



E2FP-B (3-circuit)

NOTE:
This panel has fabric/colorway restrictions, see systems fabrics/ color legend.

Features

- Includes powered panel assembly, square top cap with aligner, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper; power distribution assembly/flex connector(s). **.6** top cap end plugs and base raceway end caps are shipped with each panel. Order additional as necessary.
- High acoustical panel surfaces over 0.5″(13mm) thick fiber board.
- Panel surfaces may have the same fabric on both sides or a different fabric on each side.
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Powered raceway with or without raceway cover requires modified catalog number and list price.
- Powered panels are available for countries that utilize 120 volt 60 hertz electrical systems and U.S. configured plugs and outlets.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept add-on panels up to a combined height of 80″(2032mm). For aesthetic consistency, specify UniGroup Too add-on panels.
- Flex connectors provided for powered monolithic panels accommodate straight in-line, inside 90°, and inside 120° conditions (if applicable).
- Receptacles for powered panels must be specified separately.
- Raceway cover must be separately specified for option -BE or BYE (no raceway cover).
- If 90° top cap for four-way and 120° top cap for three-way are not specified, additional top cap end plugs will need to be ordered.
- Additional top cap end plugs and base raceway end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ 3-Circuit

B	With Raceway Cover
BE	Without Raceway Cover, deduct **$138.36** list
BY	NYC with Raceway Cover
BYE	NYC without Raceway Cover, deduct **$138.36** list

2) Fabric/colorway for panel side one.
3) Fabric side two.
4) Trim color raceway cover, glide housings and end caps.
5) Trim color for top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Powered panels with raceway covers ship with receptacle ports in the base raceway cover. Receptacle ports on the raceway cover measure 2.35″(60mm) top-to-bottom and 2.88″(73mm) side-to-side.*
- *Powered panels with Power Distribution Assemblies (PDA) but without raceway covers require separately specified base raceway covers for power and communication port locations other than the standard powered base raceway cover.*
- *New York City (NYC) electrical applications require field installation of PDA.*
- *New York Port Authority (NYPA) electrical applications require metal raceway covers. To order, specify NYC powered panels without raceway cover and separately specify metal covers through Haworth e-Parts.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

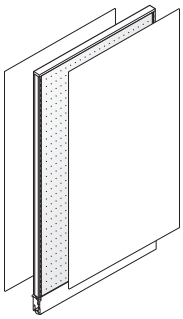
Monolithic Panel with Full-Height Inserts — No Power

UniGroup Too

Fabric Inserts



E2LN-B (Non-Powered)

Features

- Includes non-powered full-height panel core assembly, monolithic panel inserts square top cap with aligner, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper. **.6** top cap end plugs and base raceway end caps are shipped with each panel. Order additional as necessary.
- Acoustical panel surfaces bonded to compressed fiberboard for moderate tackable properties.
- Each insert may have the same fabric or a different fabric.
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Shipped with unassembled inserts, top cap, base raceway cover and side trim rails.
- Inserts may easily be changed on installed monolithic panels without components.
- Can be field-modified from full-height monolithic panel insert to segmented panel inserts.

Specification Tips

- Panels will accept add-on panels up to a combined height of 80″(2032mm). For aesthetic consistency, specify UniGroup Too add-on panels.
- Raceway cover must be separately specified for option -BE (no raceway cover).
- If 90° top cap for four-way and 120° top cap for three-way are not specified, additional top cap end plugs will need to be ordered.
- Additional top cap end plugs and base raceway end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ Options:

B	With Raceway Cover
BE	Without Raceway Cover, deduct **$98.65** list

2) Fabric/colorway for panel insert side one.
3) Fabric/colorway for panel insert side two.
4) Trim color raceway cover, glide housings and end caps.
5) Trim color for top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Non-powered panels ship without receptacle ports in the base raceway cover.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

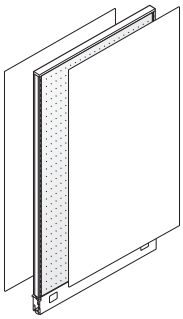
Monolithic Panel with Full-Height Inserts — Powered

UniGroup Too

Fabric Inserts



E2LP-B (3-circuit)

Features

- Includes powered full-height panel core assembly, monolithic panel inserts square top cap with aligner, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper; power distribution assembly/flex connector(s). **.6** top cap end plugs and base raceway end caps are shipped with each panel. Order additional as necessary.
- Acoustical panel surfaces bonded to compressed fiber board moderate tackable properties.
- Each insert may have the same fabric or a different fabric.
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Powered raceway with or without raceway cover requires modified catalog number and list price.
- Powered panels are available for countries that utilize 120 volt 60 hertz electrical systems and U.S. configured plugs and outlets.
- Shipped with unassembled inserts, top cap, base raceway cover and side trim rails.
- Inserts may easily be changed on installed monolithic panels without components.
- Can be field-modified from full-height monolithic panel insert to segmented panel inserts.

Specification Tips

- Panels will accept add-on panels up to a combined height of 80″(2032mm). For aesthetic consistency, specify UniGroup Too add-on panels.
- Flex connectors provided for powered monolithic panels accommodate straight in-line, inside 90°, and inside 120° conditions (if applicable).
- Receptacles for powered panels must be specified separately.
- Raceway cover must be separately specified for option -BE or BYE (no raceway cover).
- If 90° top cap for four-way and 120° top cap for three-way are not specified, additional top cap end plugs will need to be ordered.
- Additional top cap end plugs and base raceway end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ 3-Circuit

B	With Raceway Cover
BE	Without Raceway Cover, deduct **$127.34** list
BY	NYC with Raceway Cover
BYE	NYC without Raceway Cover, deduct **$127.34** list

2) Fabric/colorway for panel insert side one.
3) Fabric/colorway for panel insert side two.
4) Trim color raceway cover, glide housings and end caps.
5) Trim color for top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Powered panels with raceway covers ship with receptacle ports in the base raceway cover. Receptacle ports on the raceway cover measure 2.35″(60mm) top-to-bottom and 2.88″(73mm) side-to-side.*
- *Powered panels with Power Distribution Assemblies (PDA) but without raceway covers require separately specified base raceway covers for power and communication port locations other than the standard powered base raceway cover.*
- *New York City (NYC) electrical applications require field installation of PDA.*
- *New York Port Authority (NYPA) electrical applications require metal raceway covers. To order, specify NYC powered panels without raceway cover and separately specify metal covers through Haworth e-Parts.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

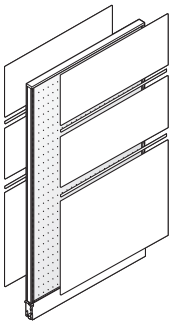
Monolithic Panel with Segmented Inserts — No Power

UniGroup Too

Fabric Inserts



E2SN-B (Non-Powered)

Features

- Includes non-powered full-height panel core assembly, segmented panel inserts and trim strips, square top cap with aligner, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper. **.6** top cap end plugs and base raceway end caps are shipped with each panel. Order additional as necessary.
- Acoustical panel surfaces bonded to compressed fiber board for moderate tackable properties.
- Panel surfaces may have the same fabric on both sides or a different fabric on each side.
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Shipped with unassembled inserts, top cap, base raceway cover side trim rails.
- Inserts may easily be changed on installed monolithic panels without components.
- Refer to the Panel Configuration Options chart in Specification Guide for panel and insert heights (nominal vs. actual) and insert configurations.

Specification Tips

- Panels will accept add-on panels up to a combined height of 80″(2032mm). For aesthetic consistency, specify UniGroup Too add-on panels.
- Raceway cover must be separately specified for option -BE (no raceway cover).
- If 90° top cap for four-way and 120° top cap for three-way are not specified, additional top cap end plugs will need to be ordered.
- Additional top cap end plugs and base raceway end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ Options:

B With Raceway Cover

BE Without Raceway Cover, deduct **$98.65** list

2) Fabric/colorway for panel insert side one.
3) Fabric/colorway for panel insert side two.
4) Trim color raceway cover, glide housings and end caps.
5) Trim color for top cap, side trim rails and trim strip(s) for panel insert.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Non-powered panels ship without receptacle ports in the base raceway cover.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*

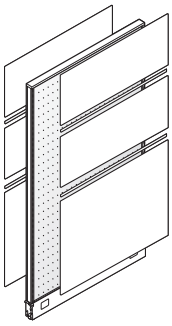
Monolithic Panel with Segmented Inserts — Powered

UniGroup Too

Fabric Inserts



E2SP-B (3-circuit)

Features

- Includes powered full-height panel core assembly, segmented panel inserts and trim strips, square top cap with aligner, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper; power distribution assembly/flex connector(s). **.6** top cap end plugs and base raceway end caps are shipped with each panel. Order additional as necessary.
- Acoustical panel surfaces bonded to compressed fiber board for moderate tackable properties.
- Panel surfaces may have the same fabric on both sides or a different fabric on each side.
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Powered raceway with or without raceway cover requires modified catalog number and list price.
- Powered panels are available for countries that utilize 120 volt 60 hertz electrical systems and U.S. configured plugs and outlets.
- Shipped with unassembled inserts, top cap, base raceway cover side trim rails.
- Inserts may easily be changed on installed monolithic panels without components.
- Refer to the Panel Configuration Options chart in Specification Guide for panel and insert heights (nominal vs. actual) and insert configurations.

Specification Tips

- Panels will accept add-on panels up to a combined height of 80″(2032mm). For aesthetic consistency, specify UniGroup Too add-on panels.
- Flex connectors provided for powered monolithic panels accommodate straight in-line, inside 90°, and inside 120° conditions (if applicable).
- Receptacles for powered panels must be specified separately.
- Raceway cover must be separately specified for option -BE or BYE (no raceway cover).
- If 90° top cap for four-way and 120° top cap for three-way are not specified, additional top cap end plugs will need to be ordered.
- Additional top cap end plugs and base raceway end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ 3-Circuit

B	With Raceway Cover
BE	Without Raceway Cover, deduct **$127.34** list
BY	NYC with Raceway Cover
BYE	NYC without Raceway Cover, deduct **$127.34** list

2) Fabric/colorway for panel insert side one.
3) Fabric/colorway for panel insert side two.
4) Trim color raceway cover, glide housings and end caps.
5) Trim color for top cap, side trim rails and trim strip(s) for panel insert.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Powered panels with raceway covers ship with receptacle ports in the base raceway cover. Receptacle ports on the raceway cover measure 2.35″(60mm) top-to-bottom and 2.88″(73mm) side-to-side.*
- *Powered panels with Power Distribution Assemblies (PDA) but without raceway covers require separately specified base raceway covers for power and communication port locations other than the standard powered base raceway cover.*
- *New York City (NYC) electrical applications require field installation of PDA.*
- *New York Port Authority (NYPA) electrical applications require metal raceway covers. To order, specify NYC powered panels without raceway cover and separately specify metal covers through Haworth e-Parts.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

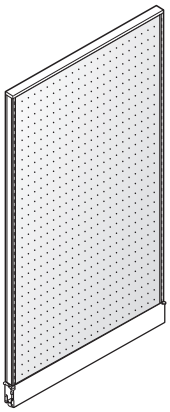
Monolithic Panel Core without Insert(s) — No Power

UniGroup Too

Panel Core



E2BN-B (Non-Powered)

Features

- Includes non-powered panel core assembly, square top cap with aligner, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper. **.6** top cap end plugs and base raceway end caps are shipped with each panel. Order additional as necessary.
- **For use with separately specified inserts.**
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept add-on panels up to a combined height of 80″(2032mm). For aesthetic consistency, specify UniGroup Too add-on panels.
- Raceway cover must be separately specified for option -BE (no raceway cover).
- If 90° top cap for four-way and 120° top cap for three-way are not specified, additional top cap end plugs will need to be ordered.
- Additional top cap end plugs and base raceway end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ Options:

B	With Raceway Cover
BE	Without Raceway Cover, deduct **$98.65** list

2) Trim color raceway cover, glide housings and end caps.

3) Trim color for top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Non-powered panels ship without receptacle ports in the base raceway cover.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

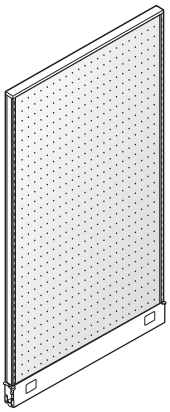
Monolithic Panel Core without Insert(s) — Powered

UniGroup Too

Panel Core



E2BP-B (3-circuit)

Features

- Includes powered panel core assembly, square top cap with aligner, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper; power distribution assembly/flex connector(s). **.6** top cap end plugs and base raceway end caps are shipped with each panel. Order additional as necessary.
- **For use with separately specified inserts.**
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Powered raceway with or without raceway cover requires modified catalog number and list price.
- Powered panels are available for countries that utilize 120 volt 60 hertz electrical systems and U.S. configured plugs and outlets.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept add-on panels up to a combined height of 80″(2032mm). For aesthetic consistency, specify UniGroup Too add-on panels.
- Flex connectors provided for powered monolithic panels accommodate straight in-line, inside 90°, and inside 120° conditions (if applicable).
- Receptacles for powered panels must be specified separately.
- Raceway cover must be separately specified for option -BE or BYE (no raceway cover).
- If 90° top cap for four-way and 120° top cap for three-way are not specified, additional top cap end plugs will need to be ordered.
- Additional top cap end plugs and base raceway end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ 3-Circuit

B	With Raceway Cover
BE	Without Raceway Cover, deduct **$127.34** list
BY	NYC with Raceway Cover
BYE	NYC without Raceway Cover, deduct **$127.34** list

2) Trim color raceway cover, glide housings and end caps.

3) Trim color for top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Powered panels with raceway covers ship with receptacle ports in the base raceway cover. Receptacle ports on the raceway cover measure 2.35″(60mm) top-to-bottom and 2.88″(73mm) side-to-side.*
- *Powered panels with Power Distribution Assemblies (PDA) but without raceway covers require separately specified base raceway covers for power and communication port locations other than the standard powered base raceway cover.*
- *New York City (NYC) electrical applications require field installation of PDA.*
- *New York Port Authority (NYPA) electrical applications require metal raceway covers. To order, specify NYC powered panels without raceway cover and separately specify metal covers through Haworth e-Parts.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

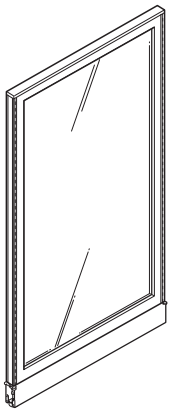
Glazed Monolithic Panel — No Power

UniGroup Too

Glazed



E2GN-B (Non-Powered)

Features

- Includes non-powered panel assembly, square top cap with aligner, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper. **.6** top cap end plugs and base raceway end caps are shipped with each panel. Order additional as necessary.
- Includes 0.25″(6mm) thick clear tempered safety glass or frosted acrylic.
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Does not accept top feed modules.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept glazed add-on panels up to a combined height of 80″(2032mm). For aesthetic consistency, specify UniGroup Too add-on panels.
- Raceway cover must be separately specified for option -BE (no raceway cover).
- If 90° top cap for four-way and 120° top cap for three-way are not specified, additional top cap end plugs will need to be ordered.
- Additional top cap end plugs and base raceway end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ Options:

B With Raceway Cover

BE Without Raceway Cover, deduct **$72.25** list

2) Glazing finish color.
3) Trim color raceway cover.
4) Trim color for frame, top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Non-powered panels ship without receptacle ports in the base raceway cover.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*

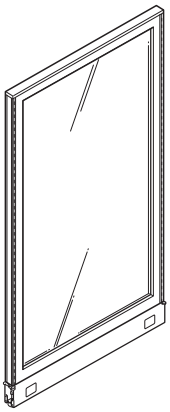
Glazed Monolithic Panel — Powered

UniGroup Too

Glazed



E2GP-B (3-circuit)

Features

- Includes powered panel assembly, square top cap with aligner, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper; power distribution assembly/flex connector(s). **.6** top cap end plugs and base raceway end caps are shipped with each panel. Order additional as necessary.
- Includes 0.25″(6mm) thick clear tempered safety glass or frosted acrylic.
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Powered raceway with or without raceway cover requires modified catalog number and list price.
- Powered panels are available for countries that utilize 120 volt 60 hertz electrical systems and U.S. configured plugs and outlets.
- Does not accept top feed modules.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept glazed add-on panels up to a combined height of 80″(2032mm). For aesthetic consistency, specify UniGroup Too add-on panels.
- Flex connectors provided for powered monolithic panels accommodate straight in-line, inside 90°, and inside 120° conditions (if applicable).
- Receptacles for powered panels must be specified separately.
- Raceway cover must be separately specified for option -BE or BYE (no raceway cover).
- If 90° top cap for four-way and 120° top cap for three-way are not specified, additional top cap end plugs will need to be ordered.
- Additional top cap end plugs and base raceway end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ 3-Circuit

B	With Raceway Cover
BE	Without Raceway Cover, deduct **$138.36** list
BY	NYC with Raceway Cover
BYE	NYC without Raceway Cover, deduct **$138.36** list

2) Glazing finish color.
3) Trim color raceway cover.
4) Trim color for frame, top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Powered panels with raceway covers ship with receptacle ports in the base raceway cover. Receptacle ports on the raceway cover measure 2.35″(60mm) top-to-bottom and 2.88″(73mm) side-to-side.*
- *Powered panels with Power Distribution Assemblies (PDA) but without raceway covers require separately specified base raceway covers for power and communication port locations other than the standard powered base raceway cover.*
- *New York City (NYC) electrical applications require field installation of PDA.*
- *New York Port Authority (NYPA) electrical applications require metal raceway covers. To order, specify NYC powered panels without raceway cover and separately specify metal covers through Haworth e-Parts.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

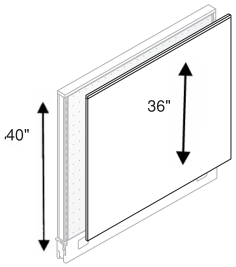
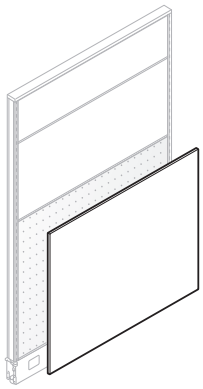
Base Insert

UniGroup Too

Base Insert — Fabric





E2JF

Feature

- Includes one base insert.

Specification Tips

- Only for use at base with monolithic core panel, separately specified.
- May be used with upper inserts and appropriate height panel core.
- Base and/or upper insert combinations may vary per panel side.
- Only one base insert per side is allowed.

To Order, Specify:

1) Product number.
2) Fabric/colorway.

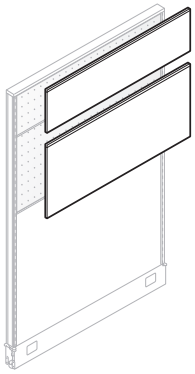
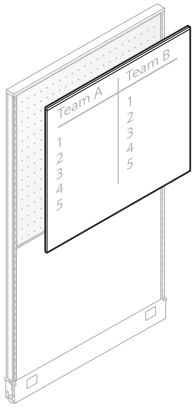
Upper Inserts

UniGroup Too

Upper Insert — Fabric or Markerboard



E2TF



E2TM

Feature

- Includes one insert and segment trim strip or markerboard tray.

Specification Tips

- For markerboard installation allow clearance above panel equal to height of insert.
- Must be used with monolithic core panel and base insert, separately specified.
- Maximum of 4 upper inserts is allowed per panel side.
- Base and/or upper insert combinations may vary per panel side.
- Markerboard cleaner & conditioner, order service part #7031-7001.
- Order markerboard with tray in lower application to protect lower fabric insert.

Ⓜ Product marked with this symbol available as GSA open market.

To Order, Specify:

1) Product number, including:

❶ **Markerboard Option:**

- **N** Markerboard with segment trim strip
- **M** Markerboard with tray

2) Fabric/colorway (for fabric insert).
3) Trim color for segment trim strip or markerboard tray.

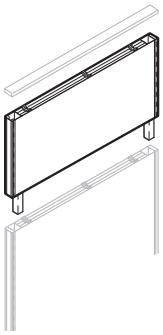
Fabric Add-On Panel

UniGroup Too

Fabric



E2AM

NOTE:
This panel has fabric/ colorway restrictions, see systems fabrics/ color legend.

Features

- Includes panel, vertical connector (bayonet), light block, side trim rails, two full hinge sets and top cap clips.
- Fabric add-on panels may be installed above straight fabric and laminate base or fabric add-on panels.
- Both sides in same fabric; one color or different color each side.
- Each base panel will accept two add-on panels.
- Lower Level add-on panel will accept overhead components (load bearing). Second add-on panel (top) is non-load bearing.
- Utilizes top cap from base panel.
- Same construction as UniGroup Too Basic Monolithic fabric panel.

Specification Tips

- Add-on panels may be stacked a maximum of two high above a UniGroup Too base panel.
- Add-on panel must match panel width.
- Combination of panel and add-on panel cannot exceed 80″(2032mm) in height.
- Cannot be used above doors or glazed panels.
- Base and add-on panel combinations should match existing base panel heights so that end-of-runs and finish posts can be used without field modification.
- Finish posts may be used, separately specified.
- Full-height side trim rails required for end-of-run conditions with a base panel and one add-on panel, separately specified.
- For two high add-on panel applications specify separately full-height side trim rail for base panel and one high add-on, for two high panel add-on location use side trim rail that ships with add-on panel. See Specification Guide for application guidelines.
- Clerestory can be added above fabric add-on panel. See Specification Guide for application guidelines.

To Order, Specify:

1) Product number.
2) Fabric/colorway for add-on panel side one.
3) Fabric/colorway for add-on panel side two.
4) Trim color for side trim rails and trim strip.

Note: For mixed grade fabric surfaces pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

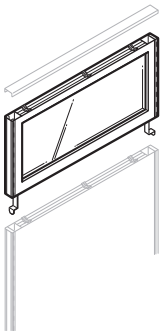
Glazed Add-On Panel

UniGroup Too

Glazed



E2AG

Features

- Includes panel, vertical connector (bayonet), light block, side trim rails, two full hinge sets and top cap clips.
- Utilizes top cap from monolithic panel.
- Glazed add-on panels may be installed above glazed, fabric, laminate, fabric add-on or glazed add-on panels.
- Glazed add-on panels will not accept any load bearing components.
- Textured glazing material is textured on one side only. Recommend installing the textured side to face the interior of the workstation.

Specification Tips

- Add-on panels may be stacked a maximum of two high above a monolithic panel.
- Add-on panel width must match base panel width.
- Combination of base panel and add-on panel cannot exceed 80″(2032mm).
- Cannot be used above doors.
- Does not accept top feed modules.
- Add-on panels may be retrofitted in the field for use on glazed or fabric monolithic panels.
- To convert a glazed add-on above a fabric/laminate monolithic base panel to a glazed add-on above a glazed base panel or (vice versa), a vertical connector (bayonet) retrofit kit is available. Order separately through Haworth e-Parts.
- Finish posts may be used, separately specified.
- Full-height side trim rails required for end-of-run conditions with a base panel and one add-on panel, separately specified.
- For two high add-on panel applications specify separately full-height side trim rail for base panel and one high add-on, for two high panel add on location use side trim rail that ships with add-on panel.
- Clerestory can be added above glazed add-on panel. See Specification Guide for application guidelines.

To Order, Specify:

1) Product number, including:

❶ Application Designation:

F Glazed add-on panel **above fabric/laminate base panel or fabric add-on panel**

G Glazed add-on panel **above glazed or glazed add-on panel,** add **$48.82** list

2) Glazing color or glass pattern.
3) Trim color for frame, side trim rails and trim strip.

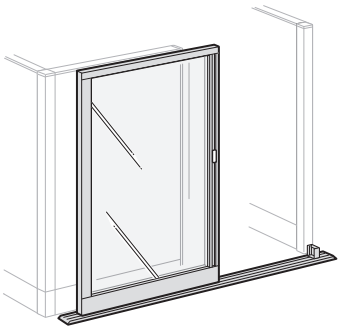
Panel Accessories

UniGroup Too

Sliding Door



VUZF
(Left-hand door)

Features

- Includes sliding door with threshold track and optional lock.
- Available with clear glass or frosted acrylic door insert.
- Full height vertical recessed door handle.
- Sliding Door adjustable wheels allow 1.25″(32mm) height adjustment.
- Optional door lock is available; locks with key outside and lever inside. Not field retrofittable.
- Lock plugs come standard in black.
- For lock options, refer to Lock Program Price List.
- Locking mechanism locks the door into the track.
- Right-handed door slides open to right.
- Left-handed door slides open to left.

Specification Tips

- Handedness cannot be changed in the field.
- Sliding Door mounts outside of the workspace.
- Threshold track is included and must be used with the Sliding Door.
- Sliding Door can be attached to panel of same height or taller. Cannot be attached to panel lower than sliding door.
- Sliding Door Filler Post is required in certain applications and ordered separately. Refer to Specification Guide.
- Sliding Door extends 34″(864mm) for the 36″(914mm)-wide sliding door and 40″(1016mm) for the 42″(1067mm)-wide sliding door.

To Order, Specify:

1) Product number, including:

❶ Insert Option:

- **G** Clear (SG-1C)
- **X** Frosted (SK-1E)

❷ Handedness Option:

- **R** Right
- **L** Left

❸ Locking Option:

- **N** Non-Locking
- **L** Locking, add **$637.93** list

2) Trim color.

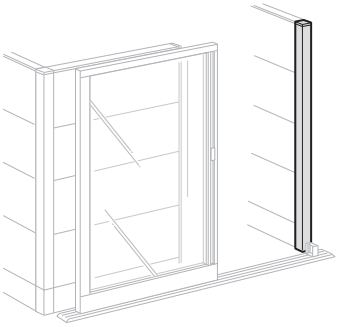
Filler Post — Sliding Door



VEZP

Feature

- Includes painted filler post with square painted top cap and attachment hardware.

Specification Tips

- Filler post is required for certain Sliding Door applications. Refer to Specification Guide.
- Specify filler post to match panel height in all applications.
- Filler post is only available with UniGroup Too square profile trim.

To Order, Specify:

1) Product number.
2) Trim color for filler post.
3) Trim color for top cap.

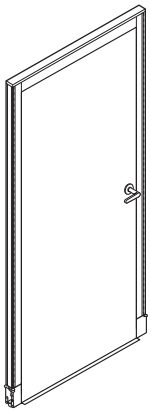
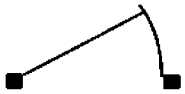
Swing Door

UniGroup Too

Single Door — Laminate



E2DS



(Left-hand swing)

Actual Height	Width	Number ❶		Laminate A Trim A	Laminate A Trim B	Laminate B Trim A	Laminate B Trim B
80″(2032mm)	36″(914mm)	E2DS-3678-B	L	**$4472.95**	**$4580.59**	**$4598.51**	**$4706.15**
	42″(1067mm)	E2DS-4278-B	L	**4732.99**	**4840.63**	**4858.55**	**4966.19**

Features

- Includes complete panel assembly [hinge sets, carpet gripper, door jamb, side trim rails, leveling glides and trim, hollow core door (1.625″(41mm) thick), door hinges, hardware, brushed chrome knobs or ADA lever with lockset and keys, and threshold].
- Door shipped with left-hand swing and can be field-changed for right-hand swing.
- Both sides of door covered in same laminate surface color.
- No power/communications in base raceway.

Specification Tips

- Door may be placed a maximum of 24″(610mm) from supporting panels at 90°.
- Will not accept add-on panel.

Door Opening Clearance

Door Size	Height	Width
3678	78″(1981mm)	28.75″(730mm)
4278	78″(1981mm)	34.75″(883mm)

To Order, Specify:

1) Product number, including:

❶ **Handle Designation:**

- **K** Knob
- **H** ADA Lever, add **$343.02** list

2) Laminate surface color.
3) Trim color for raceway covers and glide housings.
4) Trim color for door jamb, top cap and side trim rails.

NOTES:

Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant prior to installation.

Most building codes for new buildings require a minimum clear door width of 32″(813mm). To meet this requirement, the 42″(1067mm) door must be ordered.

- Includes top cap with one or two alignment tabs; specify accordingly.

Specification Tips

- For use with multiple height panels in a 180°, 3-Way condition; specify height to match lowest panel height.
- Product specification must reflect number of top cap alignment tabs for lowest like panel heights in an ``I″ or ``L″ condition; see Product Application Guidelines for details.
- Top cap alignment tabs are for dedicated applications and are not field removable; -V1, -V2I, -V2L.
- For use with panels with UniGroup Too square painted top cap.
- Required by UL for covering base raceway power connectors when power connector covers are not used.

To Order, Specify:

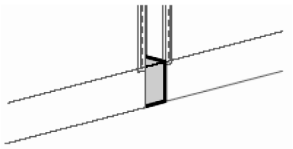
1) Product number:
2) Paint color for finish post.
3) Trim color for raceway cover.
4) Trim color for top cap.

Note: For mixed grade trim surfaces pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

Panel Accessories

UniGroup Too

	Height	Number	Price
180° Power Connector Cover	4″(102mm)	PCC-180-B	**$118.35**



PPC-180-B
Class AA

Features
- Includes six covers.
- For use with UniGroup Too square painted top cap panels.
- Required by UL for covering power connector 180° panel condition when finish post is not used.

Specification Tip
- Can also be used with UniGroup and PLACES.

To Order, Specify:

1) Product number.
2) Trim color.

180° Vertical Cover only, (no top cap or base raceway cover)

72″(1829mm)	E2TK-70	**246.27**	**255.81**
80″(2032mm)	E2TK-78	**264.11**	**275.17**

Features

- Includes pre-drilled side rail, center-mount brackets, end-mount brackets, light block extrusions, glide housing, and screws.
- Brackets included for both center- and end-mount T-conditions.
- Connects two panels in a T-condition. T-mount can attach to a base panel and one fabric add-on panel. Configuration coming off of a T-mount cannot contain add-on panels.

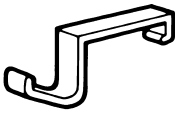
Specification Tips

- Both panels in a T-mount condition must be of equal height.
- Cannot mount on glazed panels, glazed add-on panels or doors.
- Must be used with UniGroup Too panels only.

To Order, Specify:

1) Product number.
2) Trim color.

All-Purpose Hook



E2CH-8
Class AC

Number	Trim A	Trim B
E2CH-8	**$166.40**	**$195.74**

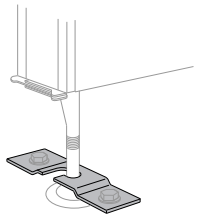
Features

- Includes eight hooks.
- For use with UniGroup Too square painted top cap panels.

To Order, Specify:

1) Product number.
2) Trim color.

Seismic Anchoring Bracket



HAB
Class AC

Number	Price
HAB-0001	**$333.05**

Features

- Includes package of six formed steel brackets.
- For seismic anchoring of UniGroup Too, UniGroup and PLACES panels.

To Order, Specify:

1) Product number.
(No finish specification required.)

Friction Pad

7031-0501
Class BA

7031-0501	**$18.94**

Feature

- Includes one pad.

Specification Tip

- Attaches to bottom of glide to prevent movement of panels on hard surface flooring.

To Order, Specify:

1) Product number.
(No finish specification required.)

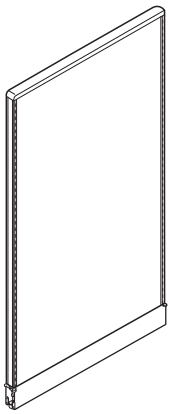
Monolithic Panel with Steel Top Cap — No Power

UniGroup

Fabric



EFN-B (Non-Powered)

NOTE:
This panel has fabric/colorway restrictions, see Systems Fabric/ Color Legend.

Features

- Includes non-powered panel assembly, radius steel top cap, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper. **.6** base raceway end caps are shipped with each panel. Order additional as necessary.
- Acoustical panel surfaces; fabric surface over 0.5″(13mm) thick fiber board.
- Panel surfaces may have the same fabric on both sides or a different fabric on each side.
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept add-on panels up to a combined height of 82″(2083mm). For aesthetic consistency, specify UniGroup add-on panels.
- Raceway cover must be separately specified for option -BE (no raceway cover).
- Additional base raceway cover end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ **Options:**

B With Raceway Cover

BE Without Raceway Cover, deduct **$119.67** list

2) Fabric/colorway for panel side one.
3) Fabric/colorway for panel side two.
4) Trim color for raceway cover, glide housings and end caps.
5) Trim color for top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Non-powered panels ship without receptacle ports in the base raceway cover.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*

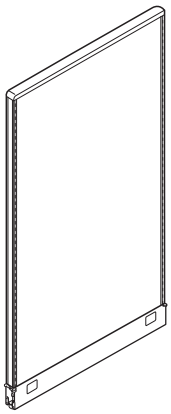
Monolithic Panel with Steel Top Cap — Powered

UniGroup

Fabric



EFP-B (3-circuit)

NOTE:
This panel has fabric/colorway restrictions, see Systems Fabric/ Color Legend.

Features

- Includes powered panel assembly, radius steel top cap, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper; power distribution assembly/flex connector(s). **.6** base raceway end caps are shipped with each panel. Order additional as necessary.
- Acoustical panel surfaces; fabric surface over 0.5"(13mm) thick fiber board.
- Panel surfaces may have the same fabric on both sides or a different fabric on each side.
- Panel thickness is 2"(51mm).
- Base raceway is 4"(102mm) high.
- Powered raceway with or without raceway cover requires modified catalog number and list price.
- Powered panels are available for countries that utilize 120 volt 60 hertz electrical systems and U.S. configured plugs and outlets.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept add-on panels up to a combined height of 82"(2083mm). For aesthetic consistency, specify UniGroup add-on panels.
- Flex connectors provided for powered monolithic panels accommodate straight in-line, inside 90°, and inside 120° conditions (if applicable).
- Receptacles for powered panels must be specified separately.
- Raceway cover must be separately specified for option -BE or BYE (no raceway cover).
- Additional base raceway cover end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ 3-Circuit

B	With Raceway Cover
BE	Without Raceway Cover, deduct **$119.67** list
BY	NYC with Raceway Cover, add **$80.16** list
BYE	NYC without Raceway Cover, deduct **$39.51** list

2) Fabric/colorway for panel side one.
3) Fabric/colorway for panel side two.
4) Trim color for raceway cover, glide housings and end caps.
5) Trim color for top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Powered panels with raceway covers ship with receptacle ports in the base raceway cover. Receptacle ports on the raceway cover measure 2.35"(60mm) top-to-bottom and 2.88"(73mm) side-to-side.*
- *Powered panels with Power Distribution Assemblies (PDA) but without raceway covers require separately specified base raceway covers for power and communication port locations other than the standard powered base raceway cover.*
- *New York City (NYC) electrical applications require field installation of PDA.*
- *New York Port Authority (NYPA) electrical applications require metal raceway covers. To order, specify NYC powered panels without raceway cover and separately specify metal covers through Haworth eParts.*
- *Some building codes may restrict the use of panel heights greater than 69"(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

Class AA – SIN 33721; Discount Group I

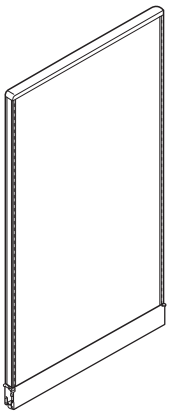
Basic Monolithic Panel with Steel Top Cap — No Power

UniGroup

Fabric



EMN-B (Non-Powered)

NOTE:
This panel has fabric/colorway restrictions, see Systems Fabric/ Color Legend.

Features

- Includes non-powered panel assembly, radius steel top cap, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper. **.6** base raceway end caps are shipped with each panel. Order additional as necessary.
- Acoustical panel surfaces; fabric surface over 0.25″(6mm) thick fiber board.
- Panel surfaces may have the same fabric on both sides or a different fabric on each side.
- Panel thickness is 2″(51mm).
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept add-on panels up to a combined height of 82″(2083mm). For aesthetic consistency, specify UniGroup add-on panels.
- Raceway cover must be separately specified for option -BE (no raceway cover).
- Additional base raceway cover end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ **Options:**

B With Raceway Cover

BE Without Raceway Cover, deduct **$119.67** list

2) Fabric/colorway for panel side one.
3) Fabric/colorway for panel side two.
4) Trim color for raceway cover, glide housings and end caps.
5) Trim color for top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Non-powered panels ship without receptacle ports in the base raceway cover.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

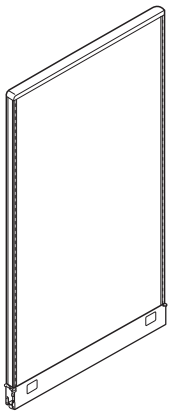
Basic Monolithic Panel with Steel Top Cap — Powered

UniGroup

Fabric



EMP-B (3-circuit)

NOTE:
This panel has fabric/colorway restrictions, see Systems Fabric/ Color Legend.

Features

- Includes powered panel assembly, radius steel top cap, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper; power distribution assembly/flex connector(s). **.6** base raceway end caps are shipped with each panel. Order additional as necessary.
- Acoustical panel surfaces; fabric surface over 0.25″(6mm) thick fiber board.
- Panel surfaces may have the same fabric on both sides or a different fabric on each side.
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Powered raceway with or without raceway cover requires modified catalog number and list price.
- Powered panels are available for countries that utilize 120 volt 60 hertz electrical systems and U.S. configured plugs and outlets.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept add-on panels up to a combined height of 82″(2083mm). For aesthetic consistency, specify UniGroup add-on panels.
- Flex connectors provided for powered monolithic panels accommodate straight in-line, inside 90°, and inside 120° conditions (if applicable).
- Receptacles for powered panels must be specified separately.
- Raceway cover must be separately specified for option -BE or BYE (no raceway cover).
- Additional base raceway cover end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ 3-Circuit

- **B** With Raceway Cover
- **BE** Without Raceway Cover, deduct **$119.67** list
- **BY** NYC with Raceway Cover, add **$80.16** list
- **BYE** NYC without Raceway Cover, deduct **$39.51** list

2) Fabric/colorway for panel side one.
3) Fabric/colorway for panel side two.
4) Trim color for raceway cover, glide housings and end caps.
5) Trim color for top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Powered panels with raceway covers ship with receptacle ports in the base raceway cover. Receptacle ports on the raceway cover measure 2.35″(60mm) top-to-bottom and 2.88″(73mm) side-to-side.*
- *Powered panels with Power Distribution Assemblies (PDA) but without raceway covers require separately specified base raceway covers for power and communication port locations other than the standard powered base raceway cover.*
- *New York City (NYC) electrical applications require field installation of PDA.*
- *New York Port Authority (NYPA) electrical applications require metal raceway covers. To order, specify NYC powered panels without raceway cover and separately specify metal covers through Haworth eParts.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

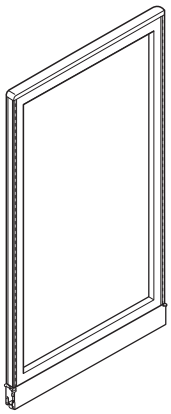
Open Frame Panel with Steel Top Cap — No Power

UniGroup

Open-Frame



EON-B (Non-Powered)

Features

- Includes non-powered panel assembly, radius steel top cap, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper. **.6** base raceway end caps are shipped with each panel. Order additional as necessary.
- Panel thickness is 2"(51mm).
- Base raceway is 4"(102mm) high.
- Does not accept top feed modules.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept glazed add-on panels up to a combined height of 82"(2083mm). For aesthetic consistency, specify UniGroup add-on panels.
- Raceway cover must be separately specified for option -BE (no raceway cover).
- Additional base raceway cover end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ Options:

B With Raceway Cover

BE Without Raceway Cover, deduct **$152.49** list

2) Trim color for raceway cover, glide housings and end caps.

3) Trim color for frame, top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Non-powered panels ship without receptacle ports in the base raceway cover.*
- *Some building codes may restrict the use of panel heights greater than 69"(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

Class AA – SIN 33721; Discount Group I
Canadian Conversion Factor: Refer to haworth.com/Canada

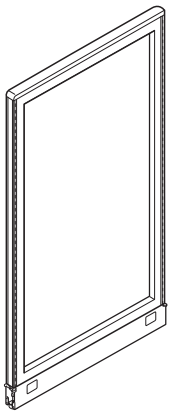
Open Frame Panel with Steel Top Cap — Powered

UniGroup

Open-Frame



EOP-B (3-circuit)

Features

- Includes powered panel assembly, radius steel top cap, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper; power distribution assembly/flex connector(s). **.6** base raceway end caps are shipped with each panel. Order additional as necessary.
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Powered raceway with or without raceway cover requires modified catalog number and list price.
- Powered panels are available for countries that utilize 120 volt 60 hertz electrical systems and U.S. configured plugs and outlets.
- Does not accept top feed modules.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept glazed add-on panels up to a combined height of 82″(2083mm). For aesthetic consistency, specify UniGroup add-on panels.
- Flex connectors provided for powered monolithic panels accommodate straight in-line, inside 90°, and inside 120° conditions (if applicable).
- Receptacles for powered panels must be specified separately.
- Raceway cover must be separately specified for option -BE or BYE (no raceway cover).
- Additional base raceway cover end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ 3-Circuit

B	With Raceway Cover
BE	Without Raceway Cover, deduct **$167.90** list
BY	NYC with Raceway Cover
BYE	NYC without Raceway Cover, deduct **$167.90** list

2) Trim color for raceway cover, glide housings and end caps.

3) Trim color for frame, top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Powered panels with raceway covers ship with receptacle ports in the base raceway cover. Receptacle ports on the raceway cover measure 2.35″(60mm) top-to-bottom and 2.88″(73mm) side-to-side.*
- *Powered panels with Power Distribution Assemblies (PDA) but without raceway covers require separately specified base raceway covers for power and communication port locations other than the standard powered base raceway cover.*
- *New York City (NYC) electrical applications require field installation of PDA.*
- *New York Port Authority (NYPA) electrical applications require metal raceway covers. To order, specify NYC powered panels without raceway cover and separately specify metal covers through Haworth eParts.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

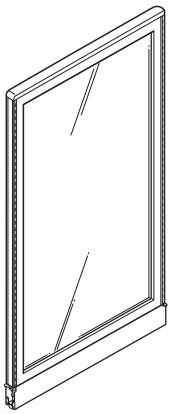
Glazed Monolithic Panel with Steel Top Cap — No Power

UniGroup

Glazed



EGN-B (Non-Powered)

Features

- Includes non-powered panel assembly, radius steel top cap, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper. **.6** base raceway end caps are shipped with each panel. Order additional as necessary.
- Panel thickness is 2"(51mm).
- Base raceway is 4"(102mm) high.
- Does not accept top feed modules.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept glazed add-on panels up to a combined height of 82"(2083mm). For aesthetic consistency, specify UniGroup add-on panels.
- Raceway cover must be separately specified for option -BE (no raceway cover).
- Additional base raceway cover end caps will need to be specified if finish post are not ordered.

To Order, Specify:

1) Product number, including:

❶ Options:

B With Raceway Cover

BE Without Raceway Cover, deduct **$152.49** list

2) Glazing finish color.
3) Trim color for raceway cover, glide housings and end caps.
4) Trim color for frame, top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Non-powered panels ship without receptacle ports in the base raceway cover.*
- *Some building codes may restrict the use of panel heights greater than 69"(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

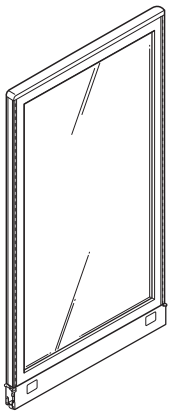
Glazed Monolithic Panel with Steel Top Cap — Powered

UniGroup

Glazed



EGP-B (3-circuit)

Features

- Includes powered panel assembly, radius steel top cap, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper; power distribution assembly/flex connector(s). **.6** base raceway end caps are shipped with each panel. Order additional as necessary.
- Panel thickness is 2"(51mm).
- Base raceway is 4"(102mm) high.
- Powered raceway with or without raceway cover requires modified catalog number and list price.
- Powered panels are available for countries that utilize 120 volt 60 hertz electrical systems and U.S. configured plugs and outlets.
- Does not accept top feed modules.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept glazed add-on panels up to a combined height of 82"(2083mm). For aesthetic consistency, specify UniGroup add-on panels.
- Flex connectors provided for powered monolithic panels accommodate straight in-line, inside 90°, and inside 120° conditions (if applicable).
- Receptacles for powered panels must be specified separately.
- Raceway cover must be separately specified for option -BE or BYE (no raceway cover).
- Additional base raceway cover end caps will need to be specified if finish post are not ordered.

To Order, Specify:

1) Product number, including:

❶ 3-Circuit

- **B** With Raceway Cover
- **BE** Without Raceway Cover, deduct **$167.90** list
- **BY** NYC with Raceway Cover
- **BYE** NYC without Raceway Cover, deduct **$167.90** list

2) Glazing finish color.
3) Trim color for raceway cover, glide housings and end caps.
4) Trim color for frame, top cap and side trim rails.

Note: Upcharge for mixed surface grades, refer to the electronic design and specification tools for pricing.

NOTES:

- *Powered panels with raceway covers ship with receptacle ports in the base raceway cover. Receptacle ports on the raceway cover measure 2.35"(60mm) top-to-bottom and 2.88"(73mm) side-to-side.*
- *Powered panels with Power Distribution Assemblies (PDA) but without raceway covers require separately specified base raceway covers for power and communication port locations other than the standard powered base raceway cover.*
- *New York City (NYC) electrical applications require field installation of PDA.*
- *New York Port Authority (NYPA) electrical applications require metal raceway covers. To order, specify NYC powered panels without raceway cover and separately specify metal covers through Haworth eParts.*
- *Some building codes may restrict the use of panel heights greater than 69"(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

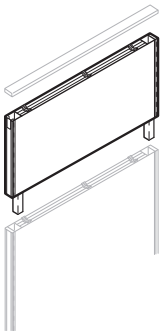
Fabric Add-On Panel

UniGroup

Fabric



EAF

NOTE:
This panel has fabric/ colorway restrictions, see Fabrics/Color Legend.

Features

- Includes panel, vertical connector (bayonet), light block, side trim rails, two full hinge sets, one side trim rail cover and top cap clips.
- Fabric add-on panels may be installed above any straight fabric and laminate base or fabric add-on panels.
- Both sides in same fabric; one color or different color each side.
- Each base panel will accept two add-on panels.
- Lower Level add-on panel will accept overhead components (load bearing). Second add-on panel (top) is non-load bearing.
- Utilizes top cap from base panel.
- Standard finish posts can be used.
- Same construction as UniGroup Monolithic fabric panel.

Specification Tips

- For mixed fabric surfaces, specify fabric/color for each fabric surface and price at higher grade.
- Add-on panels may be stacked a maximum of two high in any order of height above a base panel.
- Add-on panel must match panel width.
- Combination of panel and add-on panel cannot exceed 82″(2083mm) in height.
- Cannot be used above any door, glazed, legacy videne, open-frame or glazed add-on panels.
- Base and add-on panel combinations should match existing base panel heights so that end-of-runs and finish posts can be used without field modification.
- Full-height side trim rails required for end-of-run conditions with a base panel and one add-on panel, separately specified.
- For two high add-on panel applications specify separately full-height side trim rail for base panel and one high add on, for two high panel add on location use side trim rail that ships with add-on panel.
- Clerestory can be added above fabric add-on panels. See Specification Guide for application guidelines.

To Order, Specify:

1) Product number.
2) Fabric/colorway for add-on panel side one.
3) Fabric/colorway for add-on panel side two.
4) Trim color for side trim rails, and trim strip.

Class AA – SIN 33721; Discount Group I

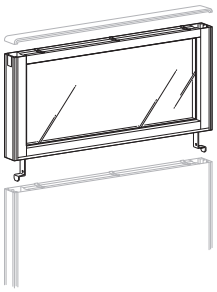
Glazed Add-On Panel

UniGroup

Glazed



EAG

NOTE:
Add-on panel cannot be used with add-on panels ordered with the SP prefix.*

Features

- Includes panel, vertical connector (bayonet), light block, side trim rails, two full hinge sets, one side trim rail cover, and top cap clips.
- Utilizes top cap from base panel.
- Glazed add-on panels may be installed above any straight fabric, glazed, laminate, or open-frame base or add-on panels.*
- Each base panel will accept two add-on panels.
- Glazed add-on panels will not accept any load bearing components.
- Top rail of add-on panel will provide top wire management.
- Textured glazing material is textured on one side only. Recommend installing the textured side to face the interior of the workstation.
- Standard finish post and end-of-run posts can be used.

Specification Tips

- Specify glazed add-on panel based upon the type of panel, fabric (F)/laminate (L) or glazed/open-frame (G), that will be directly below the add-on panel.
- Add-on panels may be stacked a maximum of two high in any order of height above a base panel.
- Add-on panel must match base panel width.
- Combination of base panel and add-on panel cannot exceed 82″(2083mm) in height.
- Base and add-on panel combinations should match existing base panel heights so that end-of-runs and finish posts can be used without field modification.
- Cannot be used above doors, or legacy videne panels.
- Does not accept top feed modules.
- To convert a glazed add-on above a fabric/laminate monolithic base panel to a glazed add-on above a glazed base panel or (vice versa), a vertical connector (bayonet) retrofit kit is available. Order separately through Haworth eParts.
- Full-height side trim rails required for end-of-run conditions with a base panel and one add-on panel, separately specified.
- For two high add-on panel applications specify separately full-height side trim rail for base panel and one high add on, for two high panel add on location use side trim rail that ships with add-on panel.
- Clerestory can be added above glazed add-on panels. See Specification Guide for application guidelines.
- **Patterned Glass (SQ-CM Checks Mix, SQ-ER English Reeded and SQ-VM Vertical Moire) available on 12″(305mm) and 18″(457mm) high add-on panels only.**

To Order, Specify:

1) Product number, including:

❶ Application Designation

F Glazed add-on panel directly above fabric/laminate base panel or fabric add-on panel.

G Glazed add-on panel directly above glazed and open frame base panel or glazed add-on panel, add **$56.34** list.

2) Glazing color or glass pattern.
3) Trim color for frame, side trim rails and trim strip.

Class AA – GSA: Open Market
Canadian Conversion Factor: Refer to haworth.com/Canada

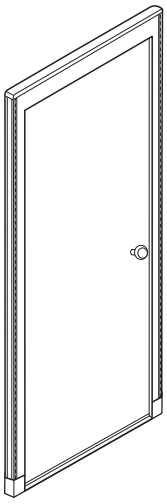
Swing Doors with Steel Top Cap

UniGroup

	Actual Height	Width	Door Swing	Number	Laminate A	B
Single Door — Laminate	82″(2083mm)	36″(914mm)	Left	EDS-380-BHL	**$4990.66**	**$5309.62**
		42″(1067mm)	Left	EDS-4280-BHL	**5242.41**	**5581.52**



EDS-BHL

(Left-hand swing)

Features

- Includes complete panel assembly [hinge sets, carpet gripper, door jamb, side trim rails, leveling glides and trim, hollow core door (1.625″(41mm) thick), door hinges, hardware, ADA lever with lockset and keys, and threshold].
- Both sides of door covered in same laminate surface color.
- Doors are shipped left-hand swing. Field-adjustable for right-hand swing.
- No power or communications in base raceway.

Specification Tips

- Door may be placed a maximum of 24″(610mm) from supporting panels at 90°.
- Will not accept add-on panel.

Door Opening Clearance

Door Size	Height	Width
380	78″(1981mm)	28.75″(730mm)
4280	78″(1981mm)	34.75″(883mm)

To Order, Specify:

1) Product number, including:
2) Laminate surface color.
3) Trim color for raceway covers and glide housings.
4) Trim color for door jamb, top cap and side trim rails.

NOTES:

Some building codes may restrict the use of panel heights greater than 69 ″(1753mm). Consult your local code authority to assure that the furniture layout is compliant prior to installation.

Most building codes for new buildings require a minimum clear door width of 32 ″(813mm). To meet this requirement, the 42 ″(1067mm) door must be ordered.

82″(2083mm)		FPPC-80-B	**224.67**

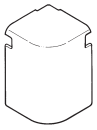
Features

- Includes 90° painted vertical cover, radius plastic top cap and base raceway cover.
- Required by UL for covering base raceway flexible and straight-span power connectors when power connector covers are not used.

To Order, Specify:

1) Product number.
2) Paint surface color.
3) Trim color for raceway cover.
4) Trim color for top cap.

90° Power Connector Cover



PCC-90-B

4″(102mm)	PCC-90-B	**$118.35**

Features

- Includes six power connector covers.
- Required by UL for covering flexible power connector in 90° panel configurations when a finish post is not used.

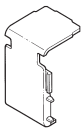
Specification Tip

- For use with UniGroup and PLACES panels.

To Order, Specify:

1) Product number.
2) Trim color.

180° Power Connector Cover — Radius Profile



PCC-180-B

		Price
4″(102mm)	PCC-180-B	**$118.35**

Features

- Includes six power connector covers.
- Required by UL for covering straight-span or flexible power connectors in 180°, three-way panel configurations when a finish post is not used.

Specification Tip

- For use with UniGroup Too, UniGroup and PLACES panels.

To Order, Specify:

1) Product number.
2) Trim color.

68″(1727mm)	TMKT-66-B	**334.07**
82″(2083mm)	TMKT-80-B	**372.32**

Features

- Includes pre-drilled side rail, center-mount brackets, end-mount brackets, light block extrusions, glide housing, and screws.
- Brackets included for both center- and end-mount T-conditions.
- Connects two panels in a T-condition. T-mount can attach to a base panel and one fabric add-on panel. Configuration coming off of a T-mount cannot contain add-on panels.

Specification Tips

- Both panels in a T-mount condition must be of equal height.
- Cannot mount on glazed panels, glazed add-on panels or doors.
- For use with UniGroup panels.

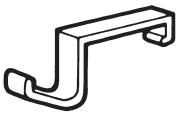
To Order, Specify:

1) Product number.
2) Trim color.

Panel Accessories

UniGroup

	Actual Height	Depth	Width	Number	Price
All-Purpose Hook	1″(25mm)	3″(76mm)	0.625″(16mm)	CH-8	**$181.26**

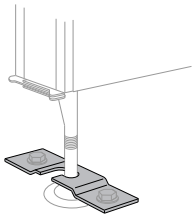


CH-8
Class AA

Features
- Includes eight hooks.
- Attaches to panel steel top cap.
- For use with UniGroup panels only.

To Order, Specify:
1) Product number.
2) Trim color.

Seismic Anchoring Bracket	HAB-0001	**$333.05**



HAB
Class BA

Features
- Includes package of six formed steel brackets.
- For seismic anchoring of UniGroup Too, UniGroup and PLACES panels.

To Order, Specify:
1) Product number.
(No finish specification required.)

Friction Pad	7031-0501	**$18.94**

7031-0501
Class BA

Feature
- Includes one pad.

Specification Tip
- Attaches to bottom of glide to prevent movement of panels on hard surface flooring.

To Order, Specify:
1) Product number.
(No finish specification required.)

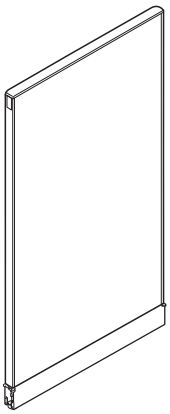
Monolithic Fabric Panel with Steel Top Cap — No Power

PLACES

Fabric



HFN (Non-Powered)

Features

- Includes non-powered or powered panel assembly, low profile top cap, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper; power distribution assembly/flex connector(s) when power is specified. **.6** base raceway end caps are shipped with each panel. Order additional as necessary.
- Acoustical panel surfaces.
- Panel surfaces may have the same fabric on both sides or a different fabric on each side.
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Powered raceway with or without raceway cover requires modified catalog number and list price.
- Powered panels are available for countries that utilize 120 volt 60 hertz electrical systems and U.S. configured plugs and outlets.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept add-on panels up to a combined height of 82″(2083mm). For aesthetic consistency, specify PLACES add-on panels.
- Flex connectors provided for powered monolithic panels accommodate straight in-line, inside 90°, and inside 120° conditions (if applicable).
- Receptacles for powered panels must be specified separately.
- Raceway cover must be separately specified for option -E (no raceway cover).
- Additional base raceway end caps will need to be specified if finish post are not ordered.

To Order, Specify:

1) Product number, including:

❶ Option:

E Without Raceway Cover, deduct **$175.26** list (No option required for Raceway Cover)

2) Fabric/colorway for panel side one.
3) Fabric/colorway for panel side two.
4) Trim color for raceway cover, glide housings and end caps.
5) Trim color for top cap and side trim rails.

Note: For mixed grade surfaces pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

NOTES:

- *Powered panels with raceway covers ship with receptacle ports in the base raceway cover. Receptacle ports on the raceway cover measure 2.35″(60mm) top-to-bottom and 2.88″(73mm) side-to-side.*
- *Non-powered panels ship without receptacle ports in the base raceway cover.*
- *Powered panels with Power Distribution Assemblies (PDA) but without raceway covers require separately specified base raceway covers for power and communication port locations other than the standard powered base raceway cover.*
- *New York City (NYC) electrical applications require field installation of PDA.*
- *New York Port Authority (NYPA) electrical applications require metal raceway covers. To order, specify NYC powered panels without raceway cover and separately specify metal covers through Haworth e-Parts.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

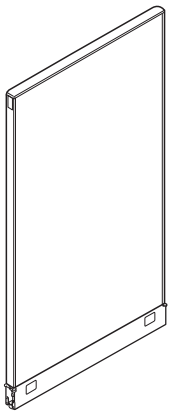
Monolithic Fabric Panel with Steel Top Cap — Powered

PLACES

Fabric



HFP (3-circuit)

Features

- Includes non-powered or powered panel assembly, low profile top cap, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper; power distribution assembly/flex connector(s) when power is specified. **.6** base raceway end caps are shipped with each panel. Order additional as necessary.
- Acoustical panel surfaces.
- Panel surfaces may have the same fabric on both sides or a different fabric on each side.
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Powered raceway with or without raceway cover requires modified catalog number and list price.
- Powered panels are available for countries that utilize 120 volt 60 hertz electrical systems and U.S. configured plugs and outlets.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept add-on panels up to a combined height of 82″(2083mm). For aesthetic consistency, specify PLACES add-on panels.
- Flex connectors provided for powered monolithic panels accommodate straight in-line, inside 90°, and inside 120° conditions (if applicable).
- Receptacles for powered panels must be specified separately.
- Raceway cover must be separately specified for option -E or YE (no raceway cover).
- Additional base raceway end caps will need to be specified if finish post are not ordered.

To Order, Specify:

1) Product number, including:

❶ 3-Circuit

- **E** Without Raceway Cover, deduct **$192.98** list
- **Y** NYC with Raceway Cover
- **YE** NYC without Raceway Cover, deduct **$192.98** list (No option required with Raceway Cover)

2) Fabric/colorway for panel side one.
3) Fabric/colorway for panel side two.
4) Trim color for raceway cover, glide housings and end caps.
5) Trim color for top cap and side trim rails.

Note: For mixed grade surfaces pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

NOTES:

- *Powered panels with raceway covers ship with receptacle ports in the base raceway cover. Receptacle ports on the raceway cover measure 2.35″(60mm) top-to-bottom and 2.88″(73mm) side-to-side.*
- *Non-powered panels ship without receptacle ports in the base raceway cover.*
- *Powered panels with Power Distribution Assemblies (PDA) but without raceway covers require separately specified base raceway covers for power and communication port locations other than the standard powered base raceway cover.*
- *New York City (NYC) electrical applications require field installation of PDA.*
- *New York Port Authority (NYPA) electrical applications require metal raceway covers. To order, specify NYC powered panels without raceway cover and separately specify metal covers through Haworth e-Parts.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

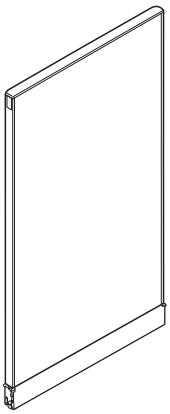
Basic Monolithic Fabric Panel with Steel Top Cap — No Power

PLACES

Fabric



HMN (Non-Powered)

Features

- Includes non-powered or powered panel assembly, low profile top cap, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper; power distribution assembly/flex connector(s) when power is specified. **.6** base raceway end caps are shipped with each panel. Order additional as necessary.
- Acoustical panel surfaces.
- Panel surfaces may have the same fabric on both sides or a different fabric on each side.
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Powered raceway with or without raceway cover requires modified catalog number and list price.
- Powered panels are available for countries that utilize 120 volt 60 hertz electrical systems and U.S. configured plugs and outlets.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept add-on panels up to a combined height of 82″(2083mm). For aesthetic consistency, specify PLACES add-on panels.
- Flex connectors provided for powered monolithic panels accommodate straight in-line, inside 90°, and inside 120° conditions (if applicable).
- Receptacles for powered panels must be specified separately.
- Raceway cover must be separately specified for option -E (no raceway cover).
- Additional base raceway end caps will need to be specified if finish post are not ordered.

To Order, Specify:

1) Product number, including:

❶ Option:

E Without Raceway Cover, deduct **$175.26** list (No option required for Raceway Cover)

2) Fabric/colorway for panel side one.
3) Fabric/colorway for panel side two.
4) Trim color for raceway cover, glide housings and end caps.
5) Trim color for top cap and side trim rails.

Note: For mixed grade surfaces pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

NOTES:

- *Powered panels with raceway covers ship with receptacle ports in the base raceway cover. Receptacle ports on the raceway cover measure 2.35″(60mm) top-to-bottom and 2.88″(73mm) side-to-side.*
- *Non-powered panels ship without receptacle ports in the base raceway cover.*
- *Powered panels with Power Distribution Assemblies (PDA) but without raceway covers require separately specified base raceway covers for power and communication port locations other than the standard powered base raceway cover.*
- *New York City (NYC) electrical applications require field installation of PDA.*
- *New York Port Authority (NYPA) electrical applications require metal raceway covers. To order, specify NYC powered panels without raceway cover and separately specify metal covers through Haworth e-Parts.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

Class BA – SIN 33721; Discount Group I

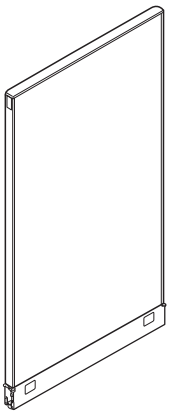
Basic Monolithic Fabric Panel with Steel Top Cap — Powered

PLACES

Fabric



HMP (3-circuit)

Features

- Includes non-powered or powered panel assembly, low profile top cap, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper; power distribution assembly/flex connector(s) when power is specified. **.6** base raceway end caps are shipped with each panel. Order additional as necessary.
- Acoustical panel surfaces.
- Panel surfaces may have the same fabric on both sides or a different fabric on each side.
- Panel thickness is 2″(51mm).
- Base raceway is 4″(102mm) high.
- Powered raceway with or without raceway cover requires modified catalog number and list price.
- Powered panels are available for countries that utilize 120 volt 60 hertz electrical systems and U.S. configured plugs and outlets.
- Shipped with unassembled top cap, base raceway cover and side trim rails.

Specification Tips

- Panels will accept add-on panels up to a combined height of 82″(2083mm). For aesthetic consistency, specify PLACES add-on panels.
- Flex connectors provided for powered monolithic panels accommodate straight in-line, inside 90°, and inside 120° conditions (if applicable).
- Receptacles for powered panels must be specified separately.
- Raceway cover must be separately specified for option -E or YE (no raceway cover).
- Additional base raceway end caps will need to be specified if finish post are not ordered.

To Order, Specify:

1) Product number, including:

❶ 3-Circuit

E	Without Raceway Cover, deduct **$192.98** list
Y	NYC with Raceway Cover
YE	NYC without Raceway Cover, deduct **$192.98** list (No option required with Raceway Cover)

2) Fabric/colorway for panel side one.
3) Fabric/colorway for panel side two.
4) Trim color for raceway cover, glide housings and end caps.
5) Trim color for top cap and side trim rails.

Note: For mixed grade surfaces pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

NOTES:

- *Powered panels with raceway covers ship with receptacle ports in the base raceway cover. Receptacle ports on the raceway cover measure 2.35″(60mm) top-to-bottom and 2.88″(73mm) side-to-side.*
- *Non-powered panels ship without receptacle ports in the base raceway cover.*
- *Powered panels with Power Distribution Assemblies (PDA) but without raceway covers require separately specified base raceway covers for power and communication port locations other than the standard powered base raceway cover.*
- *New York City (NYC) electrical applications require field installation of PDA.*
- *New York Port Authority (NYPA) electrical applications require metal raceway covers. To order, specify NYC powered panels without raceway cover and separately specify metal covers through Haworth e-Parts.*
- *Some building codes may restrict the use of panel heights greater than 69″(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

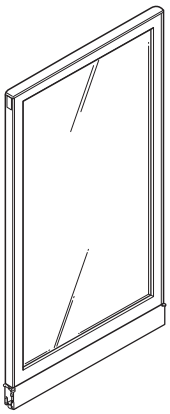
Glazed Monolithic Panels with Steel Top Cap — No Power

PLACES

Glazed



HGN (Non-Powered)

Features

- Includes non-powered or powered panel assembly, low profile top cap, with or without one-piece base raceway cover, 1.6 hinge kits, side trim rails, leveling glides and carpet gripper; power distribution assembly/flex connector(s) when power is specified. **.6** base raceway end caps are shipped with each panel. Order additional as necessary.
- Base raceway is 4"(102mm) high.
- Powered raceway with or without raceway cover requires modified catalog number and list price.
- Powered panels are available for countries that utilize 120 volt 60 hertz electrical systems and U.S. configured plugs and outlets.
- Shipped with unassembled top cap, base raceway cover and side trim rails.
- Does not accept top feed modules.

Specification Tips

- Panels will accept glazed add-on panels up to a combined height of 82"(2083mm). For aesthetic consistency, specify PLACES add-on panels.
- Glazed panels accept muntin kits and wainscot kits.
- Flex connectors provided for powered monolithic panels accommodate straight in-line, inside 90°, and inside 120° conditions (if applicable).
- Receptacles for powered panels must be specified separately.
- Raceway cover must be separately specified for option -E (no raceway cover).
- Additional base raceway end caps will need to be specified if finish posts are not ordered.

To Order, Specify:

1) Product number, including:

❶ Option:

E Without Raceway Cover, deduct **$175.26** list (No option required for Raceway Cover)

2) Glazing finish color.
3) Trim color for raceway cover, glide housings and end caps.
4) Trim color for frame, top cap and side trim rails.

NOTES:

- *Powered panels with raceway covers ship with receptacle ports in the base raceway cover. Receptacle ports on the raceway cover measure 2.35"(60mm) top-to-bottom and 2.88"(73mm) side-to-side.*
- *Non-powered panels ship without receptacle ports in the base raceway cover.*
- *Powered panels with Power Distribution Assemblies (PDA) but without raceway covers require separately specified base raceway covers for power and communication port locations other than the standard powered base raceway cover.*
- *New York City (NYC) electrical applications require field installation of PDA.*
- *New York Port Authority (NYPA) electrical applications require metal raceway covers. To order, specify NYC powered panels without raceway cover and separately specify metal covers through Haworth e-Parts.*
- *Some building codes may restrict the use of panel heights greater than 69"(1753mm). Consult your local code authority to assure that the furniture layout is compliant.*
- *For International Power, specify non-powered panels and use Power Logic components. See Specification Guide for more information on Power Logic.*
- *For Chicago power, specify non-powered panels without a base raceway cover and separately specify Chicago power retrofit kit.*

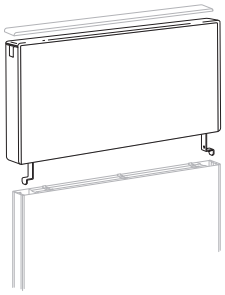
Fabric Add-On Panel

PLACES

Fabric



HAF

NOTE:
Add-on panels cannot be used with add-on panels ordered with the SP prefix.*

Features

- Includes panel, vertical connector (bayonet), light block, side trim rails, two full hinge sets, one side trim rail cover and top cap clips.
- Fabric add-on panels may be installed above any straight fabric base or fabric add-on panels.*
- Both sides in same fabric; one color or different color each side.
- Each base panel will accept two add-on panels.
- Lower Level add-on panel will accept overhead components (load bearing). Second add-on panel (top) is non-load bearing.
- Top rail of add-on panel will provide top wire management.
- Utilizes top cap from base panel.
- Standard finish posts can be used.
- Same construction as PLACES Monolithic fabric panel.

Specification Tips

- Add-on panels may be stacked a maximum of two high in any order of height above a base panel.
- Add-on panel must match panel width.
- Combination of panel and add-on panel cannot exceed 82″(2083mm) in height.
- Cannot be used above any door, glazed, open-frame, or glazed add-on panels.
- Base and add-on panel combinations should match existing base panel heights so that end-of-runs and finish posts can be used without field modification.
- Full-height trim rails required for end-of-run conditions with a base panel and one add-on panel, separately specified.
- For two high add-on panel applications specify separately full-height side trim rail for base panel and one high add on, for two high panel add on location use side trim rail that ships with add-on panel.
- Clerestory can be added above fabric add-on panels.

To Order, Specify:

1) Product number.
2) Fabric/colorway for add-on panel side one.
3) Fabric/colorway for add-on panel side two.
4) Trim color for side trim rails and trim strip.

Note: For mixed grade surfaces pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

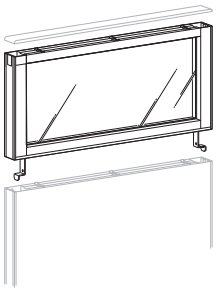
Glazed Add-On Panel

PLACES

Glazed



HAG

NOTE:
Add-on panels cannot be used with add-on panels ordered with the SP prefix.*

Features

- Includes panel, vertical connector (bayonet), light block, side trim rails, two full hinge sets, one side trim rail cover, and top cap clips.
- Utilizes top cap from base panel.
- Glazed add-on panels may be installed above any straight fabric, glazed, or open-frame base or add-on panels.*
- Each base panel will accept two add-on panels.
- Glazed add-on panels will not accept any load bearing components.
- Top rail of add-on panel will provide top wire management.
- Textured glazing material is textured on one side only. Recommend installing the textured side to face the interior of the workstation.
- Standard finish post and end-of-run posts can be used.

Specification Tips

- Specify glazed add-on panel based upon the type of panel, fabric (F) or glazed/open-frame (G), that will be directly below the add-on panel.
- Add-on panels may be stacked a maximum of two high in any order of height above a base panel.
- Add-on panel must match base panel width.
- Combination of base panel and add-on panel cannot exceed 82″(2083mm) in height.
- Base and add-on panel combinations should match existing base panel heights so that end-of-runs and finish posts can be used without field modification.
- Cannot be used above doors.
- Does not accept top feed modules.
- To convert a glazed add-on above a fabric monolithic base panel to a glazed add-on above a glazed base panel or (vice versa), a vertical connector (bayonet) retrofit kit is available. Order separately through Haworth e-Parts.
- Full-height trim rails required for end-of-run conditions with a base panel and one add-on panel, separately specified.
- For two high add-on panel applications specify separately full-height side trim rail for base panel and one high add on, for two high panel add on location use side trim rail that ships with add-on panel.
- Clerestory can be added above glazed add-on panels.
- **Patterned Glass (SQ-CM Checks Mix, SQ-ER English Reeded and SQ-VM Vertical Moire) available on 12″(305mm) and 18″(457mm) high add-on panels only.**

To Order, Specify:

1) Product number, including:

❶ Application Designation:

F Glazed add-on panel directly above fabric base panel or fabric add-on panel.

G Glazed add-on panel directly above glazed and open frame base panel or glazed add-on panel, add **$68.18** list.

2) Glazing color or glass pattern.
3) Trim color for frame, side trim rails and trim strip.

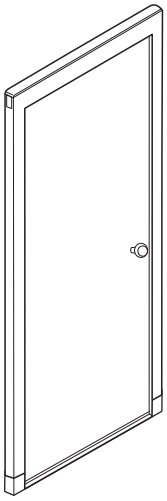
Swing Doors with Steel Top Cap

PLACES

	Actual Height	Width	Door Swing	Number	Laminate A	Laminate B
Single Door — Laminate	82″(2083mm)	36″(914mm)	Left	HDS-3682-HL	**$5899.06**	**$6249.77**
		42″(1067mm)	Left	HDS-4282-HL	**$6505.06**	**$6903.99**



HDS-L

(Left-hand swing)

Features

- Includes complete panel assembly [hinge sets, carpet gripper, door jamb, side trim rails, leveling glides and trim, hollow core door (1.625″(41mm) thick), door hinges, hardware, ADA lever with lockset and keys, and threshold].
- Both sides of door covered in same laminate surface color.
- Door shipped with left-hand swing and can be field-changed for right-hand swing.
- 1″(25mm) deep top communications raceway.
- No power and communications in base raceway.

Specification Tips

- Door may be placed a maximum of 24″(610mm) from supporting panels at 90°.
- Will not accept add-on panel.

Door Opening Clearance

Door Size	Height	Width
3682	78″(1981mm)	28.75″(730mm)
4282	78″(1981mm)	34.75″(883mm)

To Order, Specify:

1) Product number.
2) Laminate surface color.
3) Trim color for raceway covers and glide housings.
4) Trim color for door jamb, top cap and side trim rails.

NOTES:

Some building codes may restrict the use of panel heights greater than 69 ″(1753mm). Consult your local code authority to assure that the furniture layout is compliant prior to installation.

Most building codes for new buildings require a minimum clear door width of 32 ″(813mm). To meet this requirement, the 42 ″(1067mm) door must be ordered.

44″(1118mm)	U2PA-42-V	**245.80**	**263.47**
50″(1270mm)	U2PA-48-V	**254.26**	**274.27**
56″(1422mm)	U2PA-54-V	**262.72**	**285.07**
64″(1626mm)	U2PA-62-V	**274.00**	**299.47**
68″(1727mm)	U2PA-66-V	**279.64**	**306.67**

Feature

- Includes 120° vertical cover, square painted top cap and base raceway cover.

Specification Tips

- For use with multiple height UniGroup panels in a 120°, 2-Way condition; specify height to match lowest panel height with UniGroup Too square painted top cap.
- To be used with straight top cap panels only.
- Required by UL for covering base raceway power connectors when power connector covers are not used.

To Order, Specify:

1) Product number:
2) Paint color for finish post.
3) Trim color for raceway cover.
4) Trim color for top cap.

Note: For mixed grade trim surfaces pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

82″(2083mm)	U2PS-80-V2I	**$266.23**	**$302.83**

Features

- Includes 180° vertical cover, square painted top cap and base raceway cover.
- Includes top cap with one or two alignment tabs; specify accordingly.

Specification Tips

- For use with multiple height UniGroup panels in a 180°, 3-Way condition with UniGroup Too square painted top cap; specify height to match lowest panel height except in V2I condition.
- To be used with straight top cap panels only.
- Product specification must reflect number of top cap alignment tabs for lowest like panel heights in an ``I″ or ``L″ condition; refer to UniGroup Too Application Guidelines.
- Top cap alignment tabs are for dedicated applications and are not field removable; -V1, -V2I, -V2L.
- Required by UL for covering base raceway power connectors when power connector covers are not used.

To Order, Specify:

1) Product number:
2) Paint color for finish post.
3) Trim color for raceway cover.
4) Trim color for top cap.

Note: For mixed grade trim surfaces pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

82″(2083mm)	H2PC-82	276.63	312.91

Feature

- Includes 90° vertical cover, square painted top cap and base raceway cover.

Specification Tips

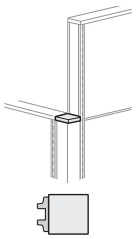
- For use with equal height PLACES panels in a 90°, 2-Way condition with UniGroup Too square painted top cap.
- Not for use with legacy expanded panels.
- To be used with straight top cap panels only.
- Required by UL for covering base raceway flexible and Straight power connectors when power connector covers are not used.

To Order, Specify:

1) Product number:
2) Paint color for finish post.
3) Trim color for raceway cover.
4) Trim color for top cap.

Note: For mixed grade trim surfaces pricing will be determined by the sum of the upcharges. Please refer to the electronic catalog.

90° Variable-Height Finish Post — Square Painted Top Cap



H2PC-V

Actual Height	Number	Trim A	Trim B
30″(762mm)	H2PC-30-V	$211.80	$228.32
37″(940mm)	H2PC-37-V	223.98	243.16

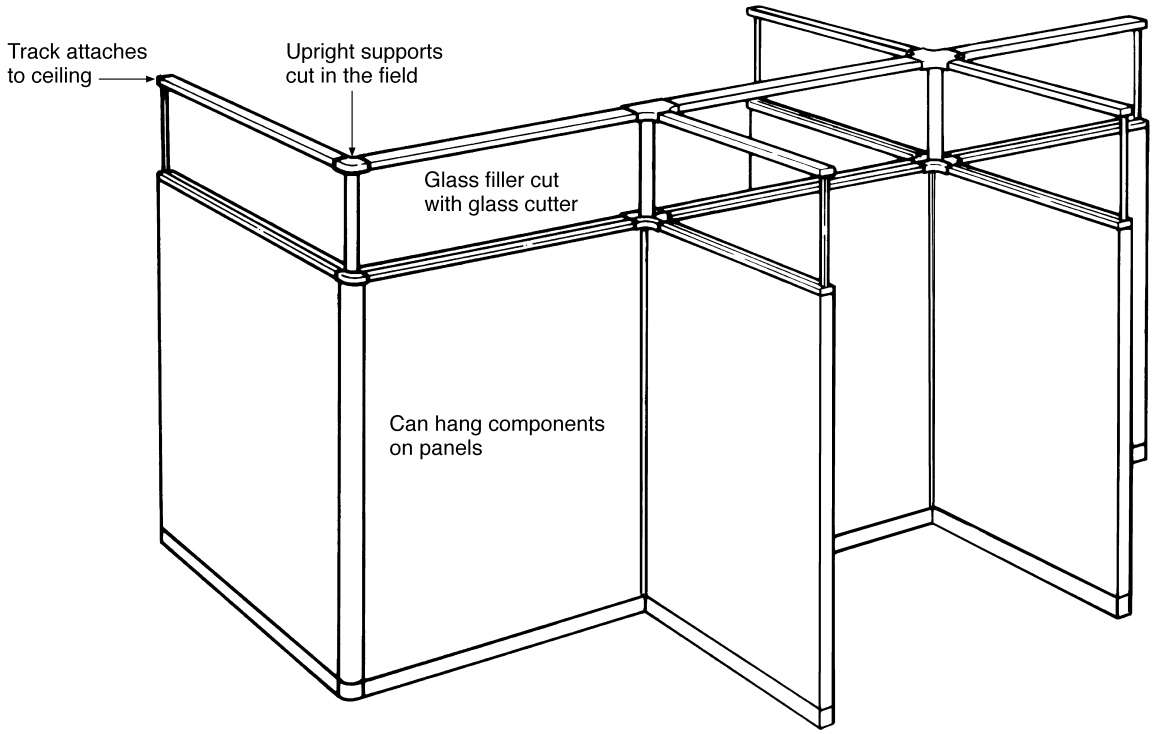
Clerestory Kits

for use with UniGroup Too, UniGroup, PLACES

Clerestory Illustration



Planning and Specification

1. To determine how many lineal feet of straight track are needed, divide the total lineal feet of panels that require Clerestory by ten and round-off to the next highest whole number. Order that quantity of Straight Track SPCL-1616.
2. Examine your floor plan to determine the type and quantities of corner kits you will require. Note that only 90° angles are possible; other angles cannot be accommodated.
3. If mounting Clerestory on straight panel runs that include swing doors or glazed panels, a maximum combination of four lineal feet of glazed panels or glazed panels with a door is permitted per 12'(3658mm) panel run.
4. Follow normal support and load values for UniGroup Too, UniGroup and PLACES panels as defined in Haworth Installation Procedures.
5. Be sure that sprinkler, HVAC and lighting locations are taken into consideration when planning for Clerestory; it does form a floor-to-ceiling barrier.
6. Consult Installation Instructions #7021-6201 for specific installation information.

NOTES:

- *Installation instructions available in the Library. Please refer to prior to ordering field supplied glass.*
- *Not to be used with top feed modules.*
- *Not to be used with sliding doors.*
- *Ceiling bracket designed to fit 1"(25mm) grid.*
- **For UniGroup Too applications, 90° finish posts must be replaced with UniGroup 90° finish posts so radius aesthetic matches 2-way corner pieces. Field cut to size.**
- Installation of clerestory kits on PLACES panels will reduce the cabling capacity of the upper panel raceway and restrict access.

Code Compliance

Where Clerestory is used with UniGroup Too, UniGroup and PLACES panels that feature The Power Base electrical system, electrical components do not comply with UL 183 requirements for floor-to-ceiling partitions; the electrical components do comply with UL 1286 requirements for panel systems. Verify acceptance of this exception and check local codes.

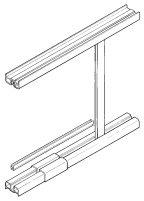
Clerestory Kits

for use with UniGroup Too, UniGroup, PLACES

Application Guidelines

- Clerestory is designed to be used with 80″(2032mm) or 82″(2083mm) high UniGroup Too, UniGroup and PLACES panels where there is a maximum ceiling height of 10′(3048mm), OR with 64″(1626mm) or 68″(1727mm)-high panels where there is a maximum ceiling height of 9′(2743mm). Be sure that Clerestory complies with local building codes before ordering and installing the product.
- All aluminum and plastic components (such as corner moldings) are available color-matched to UniGroup Too, UniGroup and PLACES panel trim colors. **Not available in Metallic finishes.**
- Note: Laminated safety glass is required for use in all Clerestory applications; consult installation instructions glass specification directions (purchase all required glass locally).
- Minimum thickness of glass is 0.220″(6mm).
- Maximum thickness of glass is 0.275″(7mm).
- Glass panes should not exceed 5′(1524mm) in width.

Straight Track Kit



SPCL-1616

Number	Price
SPCL-1616	**$1045.26**

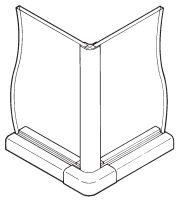
Features

- Includes two 10′(3048mm) lengths of extruded aluminum, painted ceiling and panel track; two (2) 10′(3048mm) lengths of ``H″ spacer; extruded aluminum, painted vertical connectors; four (4) couplers; and hardware.
- To determine the amount of lineal feet of straight track needed, divide the total lineal feet of panels that require Clerestory by 10 and round off to the next highest whole number. Order that quantity of straight track.

To Order, Specify:

1) Product number.
2) Trim color.

2-Way Connector Kit



SPCL-1613

SPCL-1613 Vertical **$163.14**

Features

- Includes one 4′(1219mm) length of connector post and corner moldings for panel and ceiling.

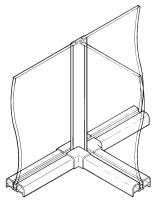
Specification Tip

- Use with UniGroup or PLACES 90° finish posts only.

To Order, Specify:

1) Product number.
2) Trim color.

3-Way Connector Kit



SPCL-1614

SPCL-1614 Vertical **$177.24**

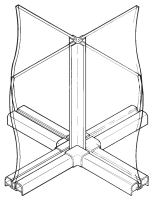
Features

- Includes one 4′(1219mm) length of connector post and corner moldings for panel and ceiling.

To Order, Specify:

1) Product number.
2) Trim color.

4-Way Connector Kit



SPCL-1615

SPCL-1615 Vertical **$195.36**

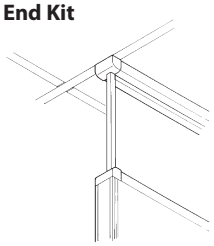
Features

- Includes one 4′(1219mm) length of connector post and corner moldings for panel and ceiling.

To Order, Specify:

1) Product number.
2) Trim color.

End Kit



SPCL-1622

SPCL-1622 Vertical **$98.69**

Features

- Includes one 4′(1219mm) length of end trim post and panel end cap molding.

To Order, Specify:

1) Product number.
2) Trim color.

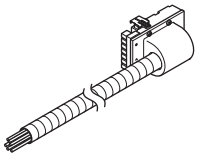
Base Feed Module – Hardwire Connection



BFM-1-B

Description	Feed Length	Number	Price
3-Circuit Hardwire 20 Amp	48″(1219mm)	BFM-1-B	**$ 431.54**
	72″(1829mm)	BFM-0006-B	**580.25**
	120″(3048mm)	BFM-0010-B	**752.47**
	180″(4572mm)	BFM-0015-B	**988.19**
	300″(7620mm)	BFM-0025-B	**1417.91**

Features

- Includes one base feed with 4′(1219mm) long, with black 0.5″(13mm) flexible metal conduit.
- Conduit for 3-Circuit includes eight 12-gauge wires for up to three 20 amp circuits of power.
- For floor, column, or wall hardwire connections.
- For use with panels equipped with power components.
- Base feed module can be field modified to accommodate left or right conditions.
- Attaches at any one of the four receptacle sites in a powered base raceway of a panel.
- Standard in charcoal trim color only.

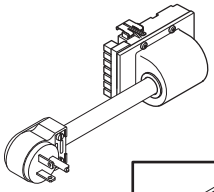
Specification Tips

- For use with UniGroup Too, UniGroup and PLACES.
- Not for use with power sources other than 120 volt 60 hertz.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

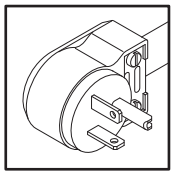
To Order, Specify:

1) Product number.
(No finish specification required.)

Single Circuit Base Feed Module – Receptacle Connection with Power Cord



BFM-2-B



3-Circuit Cord Feed 20 Amp **(USA Only)**	2′(610mm)	BFM-2-B	**$407.34**

Features

- Includes one base feed, 2′(610mm) cord and 20 amp plug (NEMA 5-20P).
- For use with panels equipped with power components.
- Requires a 20 amp, 125 volt power receptacle (NEMA 5-20R) for plug-in (not included).
- Provides power to circuit #1 only.
- Attaches at any of the four receptacle sites in a powered base raceway of a panel.
- Standard in charcoal trim color only.

Specification Tips

- For use with UniGroup Too, UniGroup and PLACES.
- **Not for use in Canada due to electrical code restrictions.**
- **Not for use with isolated ground receptacles.**
- Not for use with power sources other than 120 volt 60 hertz.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

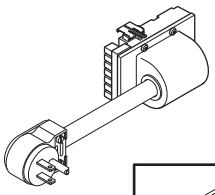
To Order, Specify:

1) Product number.
(No finish specification required.)

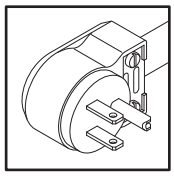
Electrical Components

UniGroup Too, UniGroup, PLACES

	Description	Feed Length	Number	Price
Single Circuit Base Feed Module – Receptacle Connection with Power Cord	3-Circuit Cord Feed 15 Amp **(Canada Only)**	6'(1829mm)	BFM-2-A	**$390.62**



BFM-2-A



Features

- Includes one base feed, 6'(1829mm) cord, and 15 amp plug (NEMA 5-15P).
- For use with panels equipped with power components.
- Requires a 15 amp, 125 volt power receptacle (NEMA 5-15R) for plug-in (not included).
- Attaches at any one of four receptacle sites in a powered raceway of a panel.
- Provides power to circuit #1 only.
- Standard in charcoal trim color only.

Specification Tips

- For use with UniGroup Too, UniGroup and PLACES.
- **Not for use in USA due to electrical code restrictions.**
- **Not for use with isolated ground receptacles.**
- Not for use with power sources other than 120 volt 60 hertz.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

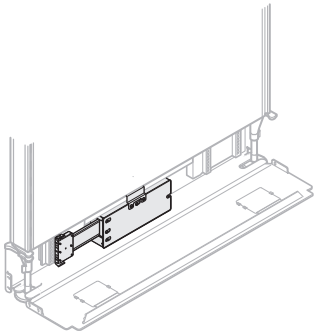
UniGroup Too, UniGroup, PLACES

Base Feed Module — Concealed Hardwire Connection

Description	Number	Price
3-Circuit Concealed	BFM-6-B	**$438.76**



BFM-6-B

Features

- Includes one junction box with modular connector and three 0.5″(13mm) knockouts.
- For use with panels equipped with power components.
- For floor, column, or wall hardwire connections.
- For 3-Circuit includes eight 12-gauge wires for up to three 20 amp circuits of power.
- Attaches into receptacle site on left side of panel.
- Conforms to New York City electrical code.
- Junction box has three 0.5″(13mm) knockouts.

Specification Tips

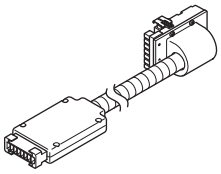
- For use with UniGroup Too, UniGroup and PLACES.
- For installation on panels **no less than** 30″(762mm) wide.
- Conduit and fittings for connection between building and junction box are supplied by local electricians.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
(No finish specification required.)

Raised Floor Base Feed Module

Description	Feed Length	Number	Price
3-Circuit Infeed Connector	69″(1753mm)	EBEJ-0072-3WF	**$544.86**



EBEJ-0072-3WF

Features

- Includes connector assembly which consists of one Power Base connector head, 0.5″(13mm) black flexible metal conduit and one Power Base AI connector and a two port splitter.
- Eight 12-gauge wires provided up to three 20-amp circuits for 3-circuit.
- For use with power components.
- Attaches at any one of the four receptacle sites in a powered base raceway of a panel and to a Power Base AI underfloor power system or a Power Base AI Wall feed.
- Base feed module can be field modified to accommodate left or right conditions.
- Connector has integral latching system.
- UL listed manufactured wiring system rated for 20-amp 120V/208Y or 120V/240V 60 Hz and for use in ``other air handling spaces″ per the NEC article 604.
- Standard in charcoal trim color only.

Specification Tips

- For use with UniGroup Too, UniGroup and PLACES.
- Male Power Base AI connector can plug directly into a zone distribution box, circuit distributor, flush floor box connectors or wall feed.
- Male Power Base AI connector cannot connect directly to infeed or jumper.
- Not for power sources other than 120 volt 60 hertz.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
(No finish specification required.)

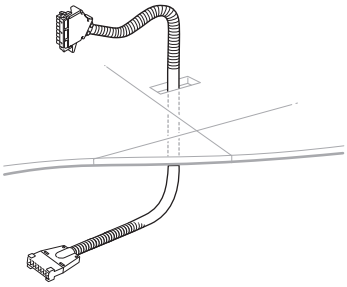
Internal Power Base AI Feed



EVEJ-3WF

Description	Length	Number	Price
3-Circuit	64″(1626mm)	EUEJ-0064-3WF	**$276.75**
	102″(2591mm)	EUEJ-0102-3WF	**319.86**
	144″(3658mm)	EUEJ-0144-3WF	**384.57**
	300″(7620mm)	EUEJ-0300-3WF	**918.29**

Features

- Includes connector assembly which consists of one power base connector head, 0.5″(13mm) (unpainted) flexible metal conduit and one Power Base AI connector for up to three circuits of power and a two port splitter.
- Attaches at any one of the four receptacle sites in a powered base raceway of a panel and to a Power Base AI underfloor power system.

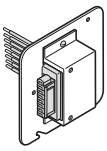
Specification Tips

- **Not for use with power sources other than 120 volt 60 hertz.**
- Male Power Base AI connector can plug directly into a zone distribution box, circuit distributor, flush floor box connectors or wall feed.
- Male Power Base AI connector cannot connect directly to infeed or jumper.
- Excess length can be coiled under the floor.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
(No finish specification required.)

Wall Feed Field Wired 1 Port



FBEW

Description	Height	Length	Number	Price
3-Circuit	1.5″(38mm)	4.69″(119mm)	FBEW-0004-31	**$113.32**

Features

- Includes 4.69″(119mm) junction box cover with one female modular power connector.
- For use with field supplied 4.69″(119mm) square junction box.
- For use with Raised Floor Base Feed Module and Internal Power Base AI feed.
- Connector has integral latching system.
- UL listed manufactured wiring system rated for 20 AMP 120V/20BY or 120/240V 60 Hz and for use in other air.

Specification Tips

- Provides transition from building power to modular power distribution system. May be used with junction box in wall or column.

To Order, Specify:

1) Product number.
(No finish specification required.)

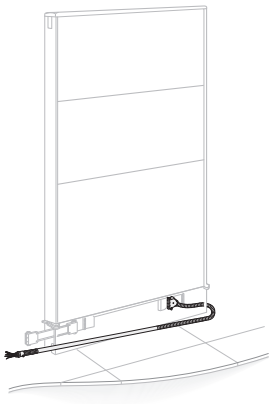
Infeed Harness



VEEH-3

Description	Length	Number	Price
3-Circuit	15′(4572mm)	VEEH-0000-3	**$ 950.71**
	30′(9144mm)	VEEH-0030-3	**1457.09**

Features

- Includes electrical harness in metal conduit.
- For connection to the electrical source located in space above a drop ceiling or from floor.
- For use with panels equipped with power components.
- Electrical harness contained in metal conduit allows for adjacent routing of communication cabling within the pole.
- Conduit for 3-Circuit includes eight 12-gauge wires for up to three 20-amp circuits of power.
- Routes power to base raceway.
- Attaches to receptacle site on right hand side of panel in a powered raceway.

Specification Tips

- For use with UniGroup Too, UniGroup and PLACES.
- Not for use with power sources other than 120 volt 60 hertz.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
   (No finish specification required.)

Features

- Includes one electrical harness in metal conduit, electrical box, ceiling bezel plate, single channel pole, hardware and square painted top cap cover.
- For connection to the electrical source located in space above a drop ceiling.
- For use with panels equipped with power components.
- Electrical harness contained in metal conduit allows for adjacent routing of communication cabling within the pole.
- Conduit for 3-Circuit includes eight 12-gauge wires for up to three 20-amp circuits of power.
- For routing and cabling capacities, see Specification Guide.
- Removable cover on pole provides access to pathway.
- Provides eight 12-gauge wires for up to three 20-amp circuits of power.
- Routes power to base raceway.
- Attaches at receptacle site on right hand side of panel in a powered base raceway.

Specification Tips

- For installation on panels no less than 18″(457mm) wide.
- Not for use with glazed add-on panels, glazed panels or single doors.
- For use with UniGroup Too square painted top cap panels only, field cutting of top cap is required.
- Not for use with power sources other than 120 volt 60 hertz.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

NOTE: Wire harness length is 180″(4572mm) regardless of pole length.

To Order, Specify:

1) Product number.
2) Trim color for pole.
3) Trim color top cap piece.

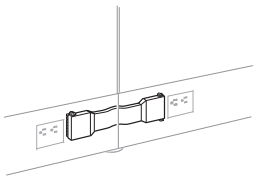
	Description	Length	Number	Price
Flexible Power Connector — Panel-to-Panel	3-Circuit	8"(203mm)	PCF-3-B	**$239.10**



Features

- Includes one flexible power connector with safety latches for securing connector to power block.
- Continues electrical circuit between adjacent powered panels in straight or angled conditions.
- Finish post or power connector cover is required by UL for covering flexible power connector.
- For use with panels equipped with power components.
- .95 Flexible Connectors shipped per powered panel specified.
- Standard in charcoal finish color only.

Specification Tips

- For use with UniGroup Too, UniGroup and PLACES.
- Not for use with power sources other than 120 volt 60 hertz.

To Order, Specify:

1) Product number.
   (No finish specification required.)

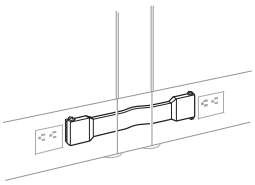
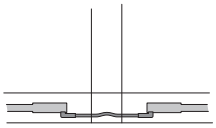
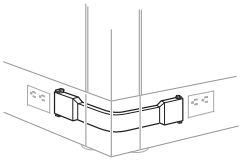
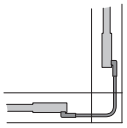
3-Circuit	10.125″(257mm)	PCSS-3-B	**$201.39**





Panel three-way or four-way condition





Panel outside 90° condition

PCSS-3-B

Features

- Includes one straight-span flexible power connector with safety latches for securing connector to power block.
- Continues electrical circuit across the 2″ space between powered panels in a 3-way, 4-way or outside 90° condition in the base raceway.
- Retaining clips attached.
- For use with panels equipped with power components.
- Finish post or power connector cover is required by UL for covering straight-span power connector.
- Standard in charcoal finish color only.

Specification Tips

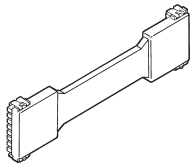
- For use with UniGroup Too, UniGroup and PLACES.
- Straight span flexible power connector must be separately specified and is not included with panel.
- Not for use with power sources other than 120 volt 60 hertz.

To Order, Specify:

1) Product number.
   (No finish specification required.)

Connector Assembly – 12″ Pass-Through

Description	Length	Number	Price
3-Circuit	20″(508mm)	PCOF-1-B	**$217.50**



PCOF-1-B

Features

- Includes one flexible power connector with safety latches for securing connector to power block.
- Used to pass power through a 12″(305mm) wide panel and a 3-way or 4-way condition.
- Connector is provided with 12″(305mm) powered panel.
- For use with panels equipped with power components.

Specification Tips

- For use with UniGroup Too, UniGroup and PLACES.
- Designed for in line use only.
- Not for use with power sources other than 120 volt 60 hertz.

To Order, Specify:

	Circuit 1-3	N/A	Isolated	PRDI-5-B	**276.56**	PRDI-5-BC	**283.47**

Features

- Includes box of six receptacles, each receptacle has two 15 Amp outlets (NEMA 5-15R configuration).
- For use with panels equipped with power components.
- **Receptacles are ground type specific.**

Specification Tips

- Duplex for 3-Circuit are field programmable.
- For power access at any location within the panels with appropriate base raceway covers.
- Not for use with power sources other than 120 volt 60 hertz.
- Isolated ground receptacle not for use with single circuit base feed module.
- **Controlled receptacles are marked with a permanent symbol and the word CONTROLLED to comply with various energy code requirements including ASHRAE 90.1 and California Building Code Title 24 part 6.**
- **Circuit assignment and receptacle placement should be coordinated with a local electrician. Local electrician is responsible for circuit loading and code compliance.**
- **Consult with local authority having jurisdiction (AHJ) for requirements regarding controlled receptacles before placing orders and installation.**

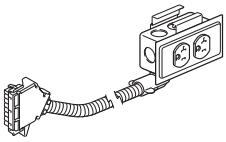
Duplex Receptacle – 20 Amp



PRD-2000-M13

Description	Circuit Access	Ground Type	Number	Price
3-Circuit – 20 Amp Duplex	Circuit 1	Common	PRD-2000-M13	**$1048.01**

Features

- Includes one duplex receptacle assembly (outlets are NEMA 5-20R configuration) with mounting hardware.
- For use with panels 36″(914mm) wide and greater powered by power distribution assembly.
- Plugs into the receptacle location on the left side of the power distribution assembly.
- Receptacle and cover plate are black.

Specification Tips

- For use with UniGroup Too, UniGroup and PLACES.
- Receptacle is not circuit access programmable.
- Receptacle requires new raceway covers that must be ordered separately. Field modification of non-powered raceway covers are an alternate option.
- Standard powered raceway cover receptacle outlet locations are not compatible with this product.
- Panels powered by 3-circuit power distribution assemblies manufactured prior to January 2010 must order new power distribution assemblies based on panel size through e-parts.
- **Not for use in Canada.**

To Order, Specify:

1) Product number.
   (No finish specification required.)

Features

- Retrofit to UniGroup Too, UniGroup and PLACES panel.
- Ported raceway covers enable communications equipment cabling to be routed to connector modules located on the faces of the base raceway covers. Six variations are available to accommodate the following connector modules: one modular furniture telecommunications opening centered on one side of the raceway cover; one modular furniture telecommunications opening centered on each side of the raceway cover; two modular furniture telecommunications openings on one side; two modular furniture telecommunications openings on each side; one standard wall outlet opening centered on one side; and one standard wall outlet opening centered on each side.
- Modular furniture telecommunications opening measures 1.38″(35mm) high x 2.7″(69mm) wide.
- Standard wall outlet opening measures 2.25″(57mm) high x 3.75″(95mm) wide.
- Openings for modular furniture telecommunications and standard wall outlets do not include covers.

Specification Tips

- Specify when no raceway cover is ordered (option -E).
- For use with UniGroup Too, UniGroup and PLACES.
- For use with 3-Circuit applications.

To Order, Specify:

1) Product number.
2) Trim color.

Electrical and Cable Management Accessories

End Cap / Communication Junction Box for use with UniGroup Too, UniGroup, PLACES

	Height	Number	Trim A	Trim B
Base Raceway End Cap	4″(102mm)	EC-10-B	**$64.14**	**$72.97**

EC-10-B

Features

- Includes ten end caps.
- For use at base raceway for end-of-run panel condition.

Note: .6 end caps included with every panel.
Order additional as necessary.

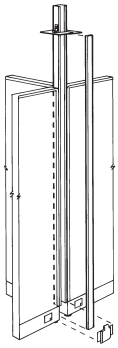
To Order, Specify:

1) Product number.
2) Trim color.

Electrical and Cable Management Accessories

UniGroup Too and UniGroup

	Number	Trim A	Trim B
Cable Management Pole — One Channel – UniGroup Too and UniGroup Only	CMPF-1-BR	**$920.12**	**$992.25**



CMPF-1-BR

Features

- Includes communications pole with cover, base raceway cover and ceiling bezel plate.
- Interface with the base raceway cover.
- Provides a means of vertically routing and accessing communications cabling within the panel's base raceway.
- May also be used to route Top Feed Harness.
- May be used in 2-way (in-line), 3-way or 4-way panel conditions.
- Attaches to panel side trim rails.
- For use up to 10′(3048mm) ceiling height.
- Refer to Specification Guide for cable management.

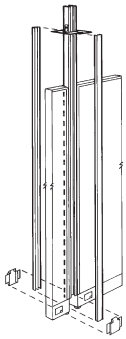
Specification Tips

- Cannot be used in conjunction with finish posts.
- For use with UniGroup Too and UniGroup.
- For use with 3-Circuit applications.

To Order, Specify:

1) Product number.
2) Trim color for raceway cover.
3) Trim color for pole.

Cable Management Pole — Two Channels – UniGroup Too and UniGroup Only	CMPT-1-B	**$1133.89**	**$1206.02**



CMPT-1-B

Features

- Includes communications pole with covers, base raceway covers and ceiling bezel plate.
- Provides cabling capacity with two integral channels.
- May also be used to route Top Feed Harness.
- May be used as a 2-way in-line panel filler.
- Interior of 2″(51mm)-wide pole is separated by a metal divider, which separates communication cables in each compartment.
- Attaches to panel side trim rails.
- For use up to 10′(3048mm) ceiling height.

Specification Tips

- Use straight span connector to bypass electrical distribution.
- Cannot be used in conjunction with finish posts.
- For use with UniGroup Too and UniGroup.
- For use with 3-Circuit applications.

To Order, Specify:

1) Product number.
2) Trim color for raceway cover.
3) Trim color for pole.

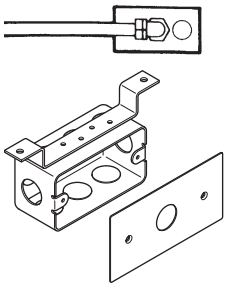
HAWORTH

Electrical Components — Hardwire

UniGroup Too, UniGroup, PLACES

Base Feed Kit



BFM-1-C

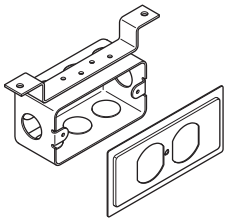
Number	Price
BFM-1-C	**$242.97**

Features
- Includes one electrical box with 0.5″(13mm) knockouts, one base feed cover plate and panel mounting hardware.
- For panel hardwire infeed connections to floor, column or wall.

Specification Tips
- For use with UniGroup Too, UniGroup and PLACES.
- **Conduit, fittings, and receptacle are field supplied.**

To Order, Specify:
1) Product number.
2) Trim color (standard only).

Dual Power Access Raceway Kit — 4″-High Base Raceway



RKP-00-C

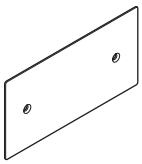
Height	Number	Price
4″(102mm)	RKP-00-C	**$456.92**

Features
- Includes one electrical box with 0.5″(13mm) knockouts, one base feed cover plate, receptacle cover plate and panel mounting hardware.
- For hardwire receptacle access in panels.

Specification Tips
- Powered raceway cover ordered separately.
- Raceway cover requires field modification.
- For use with UniGroup Too, UniGroup and PLACES.
- **Conduit, fittings, and receptacle are field supplied.**

To Order, Specify:
1) Product number.
2) Trim color (standard only).

Blank Cover Plate



BPM-1-C

Number	Price
BPM-1-C	**$70.47**

Features
- Includes one blank plate and hardware.
- For hardwire electrical box applications where no power access is required.

To Order, Specify:
1) Product number.
2) Trim color (standard only).

E2FM-NT

Class AC

Features

- Includes electrical box, ceiling bezel plate, single channel pole, hardware and square painted top cover.
- For connection to the electrical source located in space above a drop ceiling.
- For use with Chicago/Hardwire applications and with 4 meter Power Logic cord, ordered separately from Power Logic.
- For routing and cabling capacities, see Specification Guide.
- Removable cover on pole provides access to pathway.
- Routes power to base raceway.

Specification Tips

- For installation on panels no less the 18″(457mm) wide.
- Not for use with glazed add-on panels, glazed panels or single doors.
- For use with UniGroup Too square painted top cap panels only, field cutting of top cap is required.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
2) Trim color for pole.
3) Trim color for top cap piece.

Top Feed Module – Hardwire / International – UniGroup Only	32″(813mm) - 56″(1422mm)	124″(3150mm)	TFM-3000-NT	**$608.73**

- Routes power to base raceway.

Specification Tips

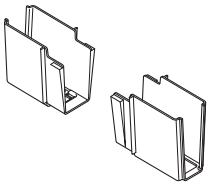
- For installation on panels no less than 18″(457mm) wide.
- For use with PLACES panels only.
- Not for use with glazed add-on panels, glazed and open frame panels or single doors.
- For use with PLACES low profile steel top cap, field cutting of top cap is required. When used with PLACES low profile wood top cap, access hole must be cut into top cap.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
2) Trim color for pole.
3) Trim color for top cap piece.

Plastic Liner



HCT-0000

Number	Price
HCT-0000	**$85.21**

Features

- Includes a package of 10 plastic liners (enough for 5 panels).
- Used when routing communication cables in the top trough of PLACES.
- Two liners per panel regardless of panel width.

To Order, Specify:

1) Product number.
(No finish specification required.)

Electrical Components — International

UniGroup Too, UniGroup, PLACES

International Power Components

For power applications outside North America we recommend the use of **Power Logic** soft wiring components. Power Logic offers a system of single circuit power cords and receptacle modules that fit into our non-powered base raceway. Receptacle modules are offered with two sockets (3 and 4 socket versions also available). Each receptacle module has sockets, switches and fuses that are appropriate for each country around the world. Contact the Power Logic regional sales office in your area to help with planning details to assure local electrical code compliance. Contact Power Logic via the Haworth/Power Logic website, (www.haworth.com/powerlogic), or through their corporate offices in Cape Town, South Africa at 27-21-704-1450. Power Logic also offers power solutions for desktop, conference table or freestanding power applications.

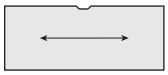
Adaptable Worksurfaces

Rectangular

24" x 60"



24" x 72"

WURA

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer worksurface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on sides and back.
- Worksurfaces predrilled to accept most support options.
- Optional wireway along back edge of worksurface is color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireway will be Charcoal. Refer to Specification Guide for wireway details.
- 24″(607mm)- to 60″(1524mm)-wide worksurfaces have one wireway.
- Worksurfaces wider than 60″(1524mm) have two wireways.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.
- Worksurfaces 36″(914mm) wide and above are drilled for pedestals.

Specification Tips

- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –Standard cantilever brackets
  –Side/corner brackets
  –Worksurface support panel
  –Support post or support column
  –Attached lower storage
  –P-Leg
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- Intermediate support is required for unsupported worksurface span greater than 60″(1524mm).

Note: Separately specified worksurface reinforcement channels provide additional support for worksurfaces with 50″(1270mm) spans that are heavily loaded and not otherwise supported by mid-span cantilevers, worksurface support panels, columns, legs or attached lower storage.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

2) Laminate surface color or Wood finish color.
3) Edge trim color (laminate only).

Adaptable Worksurfaces

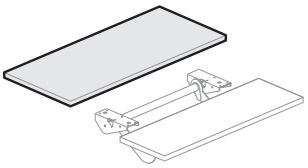
Rectangular Worksurface and Rectangular Adjustable Split Top

To Create Rectangular Worksurface with Split Top

Rectangular Worksurface



WURA

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) user edge and 1mm edgeband on sides and back.
- Worksurfaces predrilled to accept most support options.
- Optional wireway along back edge of worksurface is color-matched to solid side/back edge trim. Refer to Specification Guide for wireway details.
- Worksurfaces have one wireway.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **To create a split top application, an 18″ D WURA must be used in conjunction with a WUKR split top. Overall worksurface depth with Split Top is 30″ D.**
- **Suspended accessories cannot be attached to WURA worksurface with a WUKR split top.**
- **Do not attach pedestals.**
- **Separately specify worksurface supports for the product line and worksurface. Refer to the Specification Guide for support and load guidelines.**

To Order, Specify:

1) Product number.
2) Laminate surface color.
3) Edge trim color.

Depth	Width	Number	Laminate A J	Laminate B J
Notched

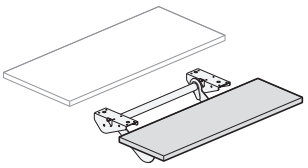
	42″(1067mm)	WURA-1842-LJSC	**439.48**	**473.44**
	48″(1219mm)	WURA-1848-LJSC	**540.42**	**577.92**

Rectangular Adjustable Split Top



WUKR

Features

- Includes one split rectangular worksurface with a spring assist mechanism that must be used in conjunction with a rectangular worksurface for a split top application.
- Laminate with 3mm edgeband (J) on front and rear front edge, and 1mm on back and side edge of front worksurface.
- Spring assist mechanism:
  –Available in charcoal finish color only.
  –Spring assisted adjustment (with manual lock) of 6″(152mm) above worksurface and 6″(152mm) below.
- Depths and widths shown in nominal and actual dimensions.

Specification Tips

- **To create a split top application, an 18″ D WURA must be used in conjunction with a WUKR split top.**
- Rectangular worksurface split top applications are designed to align with adjacent 30″(762mm)-depth worksurfaces; split top is designed to allow pinch point clearance to accommodate cables.
- Not designed for use on worksurfaces with knife edge.
- Refer to the Specification Guide for application guidelines.

To Order, Specify:

1) Product number.
2) Laminate surface color.
3) Edge trim color.

Depth	Actual Width	Nominal Width	Number	Laminate A J	Laminate B J

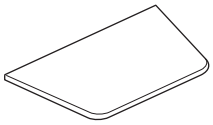
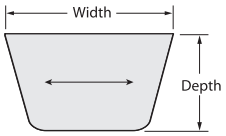
Adaptable Worksurfaces

Rectangular Key





WURY

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer surface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on sides and back.
- **Worksurface width dimension attaches directly to panel and matches panel width.**
- Worksurfaces predrilled to accept most support options.
- Optional wireways along back edges are color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireways will be Charcoal. Refer to Specification Guide for wireway details.
- 72″(1829mm) wide worksurfaces have two wireways when 'A' option ordered.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –Flush mount plate
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- **Support post or height adjustment disc base is required.**

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

2) Laminate surface color or Wood finish color.
3) Edge trim color (laminate only).

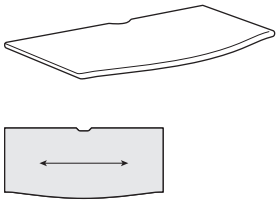
Adaptable Worksurfaces

Rectangular Swell



WURS

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer worksurface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on sides and back.
- Worksurfaces predrilled to accept most support options.
- Optional wireway along back edge of worksurface is color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireway will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –Standard cantilever brackets
  –Side brackets
  –Worksurface support panel
  –Support post or support column
  –P-Leg
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- Suggested pedestal style is mobile.

Note: Separately specified worksurface reinforcement channels provide additional support for worksurfaces with 50″(1270mm) spans that are heavily loaded and not otherwise supported by mid-span cantilevers, worksurface support panels, columns or legs.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

2) Laminate surface color or Wood finish color.

3) Edge trim color (laminate only).

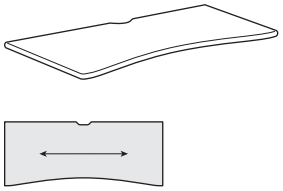
Adaptable Worksurfaces

Rectangular Inverse Swell



WURW

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer worksurface with 3mm edgeband (K) of knife (U) on user edge and 1mm edgeband on sides and back.
- Worksurfaces predrilled to accept most support options.
- Optional wireway along back edge of worksurface is color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireway will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –Standard cantilever brackets
  –Side/corner brackets
  –Worksurface support panel
  –Worksurface support post or support column
  –P-Leg
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- Suggested pedestal style is mobile.

Note: Separately specified worksurface reinforcement channels provide additional support for worksurfaces with 50″(1270mm) spans that are heavily loaded and not otherwise supported by mid-span cantilevers, worksurface support panels, columns or legs.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

2) Laminate surface color or Wood finish color.

3) Edge trim color (laminate only).

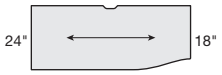
Adaptable Worksurfaces

Rectangular Transition



WURT-N43

WURT-N34

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer worksurface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on sides and back.
- Worksurfaces predrilled to accept most support options.
- Optional wireway along back edge of worksurface is color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireway will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –Standard cantilever brackets
  –Side/corner brackets
  –Worksurface support panel
  –Worksurface support post or support column
  –P-Leg
  –Attached lower storage
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- For worksurfaces less than 42″(1067mm)-wide, suggested pedestal style is mobile.
- For worksurfaces greater than 42″(1067mm)-wide, attached pedestal may be installed on deepest side.

Note: Separately specified worksurface reinforcement channels provide additional support for worksurfaces with 50″(1270mm) spans that are heavily loaded and not otherwise supported by mid-span cantilevers, worksurface support panels, columns, legs or attached lower storage.

To Order, Specify:

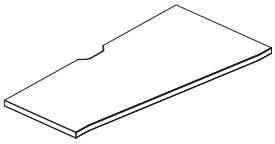
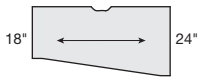
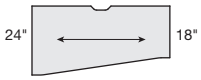
Adaptable Worksurfaces

Wedge





WURE-N34



WURE-N43

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer surface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on sides and back.
- Worksurfaces predrilled to accept most support options.
- Optional wireways along back edges are color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireways will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –Standard cantilever brackets
  –Side/corner brackets
  –Worksurface support post or support column
  –P-Leg
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- Suggested pedestal style is mobile.

Note: Separately specified worksurface reinforcement channels provide additional support for worksurfaces with 50″(1270mm) spans that are heavily loaded and not otherwise supported by mid-span cantilevers, worksurface end panels, posts or attached lower storage.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

2) Laminate surface color or Wood finish color.
3) Edge trim color (laminate only).

Adaptable Worksurfaces

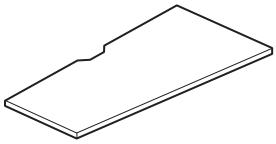
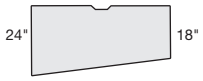
Adaptable Worksurfaces

Sharp Wedge



WURG-N34



WURG-N43

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer surface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on sides and back.
- Worksurfaces predrilled to accept most support options.
- Optional wireways along back edges are color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireways will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified.**
  –Standard cantilever brackets
  –Side/corner brackets
  –Worksurface support post or support column
  –**P-Leg not recommended**
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- Suggested pedestal style is mobile.

Note: Separately specified worksurface reinforcement channels provide additional support for worksurfaces with 50″(1270mm) spans that are heavily loaded and not otherwise supported by mid-span cantilevers, worksurface end panels, posts or attached lower storage.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

2) Laminate surface color or Wood finish color.

3) Edge trim color (laminate only).

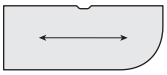
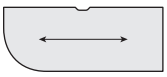
Adaptable Worksurfaces

Rectangular Radius End



(Right-hand orientation)



(Left-hand orientation)

WURR

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer worksurface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on side and back.
- Worksurfaces predrilled to accept most support options.
- Optional wireway along back edge of worksurface is color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireway will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- Separately specified floor support required on radius end:
  –Side/corner bracket with worksurface support leg or column
- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –Standard cantilever brackets
  –Side/corner brackets
  –Worksurface support post or leg - REQUIRED
  –Worksurface support panel
  –Attached pedestal (for worksurfaces greater than 36″(914mm)-wide)
  –Attached lower storage
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- For worksurfaces less than 42″(1067mm) wide, suggested pedestal style is mobile.

Note: Separately specified worksurface reinforcement channels provide additional support for worksurfaces with 50″(1270mm) spans that are heavily loaded and not otherwise supported by mid-span cantilevers, worksurface support panels, posts or attached lower storage.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

❹ Orientation (as seated):

- **R** Right-hand
- **L** Left-hand

2) Laminate surface color or Wood finish color.

3) Edge trim color (laminate only).

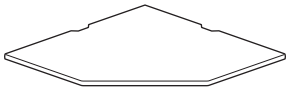
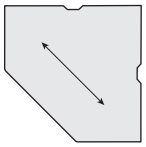
Adaptable Worksurfaces

Corner, 90° Straight Front





WUCA

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer worksurface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on sides and back.
- Worksurfaces predrilled to accept most support options.
- Optional wireway along back edges of worksurface is color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireway will be Charcoal.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Corner bracket is required and must be separately specified.**
- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –Cantilever brackets
  –Corner bracket - REQUIRED
  –Worksurface support panel
  –P-leg
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- Recommend the KU4A-0023-■ N or KU3A-0023-■ ■ keyboard pad for 36″(914mm)-wide corners.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate

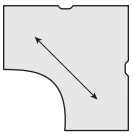
Adaptable Worksurfaces

Corner, 90° Wrap-Around



WUCR

Features

- Includes worksurface.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer worksurface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on sides and back.
- Worksurfaces predrilled to accept most support options.
- Optional wireway along back edges of worksurface is color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireway will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Corner bracket is required and must be separately specified.**
- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –Cantilever brackets
  –Corner bracket - REQUIRED
  –Worksurface support panel
  –P-Leg
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- Recommend the KU4A-0023-▢ N or KU3A-0023-▢ ▢ keyboard pad for 36″(914mm)-wide corners.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

2) Laminate surface color or Wood finish color.
3) Edge trim color (laminate only).

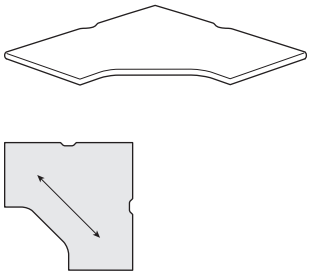
Adaptable Worksurfaces

Corner, 90° Notched



WUCN

Features

- Includes worksurface.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer surface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on sides and back.
- Worksurfaces predrilled to accept an adjustable keyboard and most support options.
- Optional wireways along back edges are color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireways will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Corner bracket is required and must be separately specified.**
- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –Cantilever brackets
  –Corner bracket - REQUIRED
  –Worksurface support panel
  –P-Leg
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- Recommend the KU4A-0023-■ N or KU3A-0023-■ ■ keyboard pad for 36″(914mm)-wide corners.

Adaptable Worksurfaces

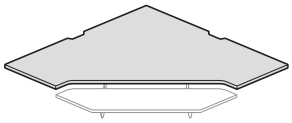
Corner 90° Worksurface and Corner 90° Adjustable Split Top
To Create Corner 90° Worksurface Split Top

Corner 90° Worksurface



WUCN

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) on user edge and 1mm edgeband on sides and back.
- Worksurfaces predrilled to accept most support options.
- Optional wireway along back edge of worksurface is color-matched to solid side/back edge trim. Refer to Specification Guide for wireway details.
- Worksurfaces have two wireways.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **To create a split top application, an 18″ D x 48″ W WUCN must be used in conjunction with a WUKC split top. Overall worksurface depth with Split Top is 30″ D.**
- **Corner bracket is required and must be separately specified.**
- **Separately specify worksurface supports for the product line and worksurface. Refer to the Specification Guide for support and load guidelines.**

To Order, Specify:

1) Product number.
2) Laminate surface color.
3) Edge trim color.

Left/Right Depth	Width	Number	Laminate A J	Laminate B J
Notched				
48″(1219mm)	48″(1219mm)	WUCN-4848-LJSAN33	**$1025.72**	**$1093.33**

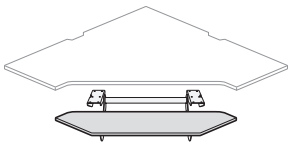
Corner 90° Adjustable Split Top



WUKC

Features

- Includes one split corner worksurface with spring mechanism that must be used in conjunction with a corner worksurface for a split top application.
- Laminate with 3mm edgeband (J) on front and rear front edge, and 1mm on back and side edge of front worksurface.
- Spring assist mechanism:
  –Available in charcoal finish color only.
  –Spring assisted adjustment (with manual lock) of 6″(152mm) above worksurface and 6″(152mm) below.
- Depths and widths shown in nominal dimensions.

Specification Tips

- **To create a split top application, an 18″ D x 48″ W WUCN must be used in conjunction with a WUKC split top. Overall worksurface depth with Split Top is 30″ D.**
- Corner worksurface split top applications are designed to align with adjacent 18″(457mm)-depth worksurfaces; split top is designed to allow pinch point clearance to accommodate cables.
- Not designed for use with adjacent worksurfaces of 24″(610mm) or 30″(762mm) depth.
- Not designed for use on worksurfaces with knife edge.
- Refer to the Specification Guide for application guidelines.

To Order, Specify:

1) Product number.
2) Laminate surface color.
3) Edge trim color.

  –P-Leg
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- Recommend the KU4A-0023-■ N or KU3A-0023-■ ■ keyboard pad for 36″(914mm)-wide corners.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

2) Laminate surface color or Wood finish color.
3) Edge trim color (laminate only).

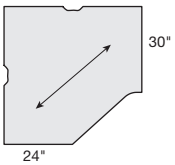
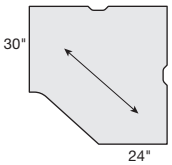
Adaptable Worksurfaces

Corner, 90° Angled – Transitional



(Left-hand orientation)

WUCF-L45



(Right-hand orientation)

WUCF-L54

Features

- Includes worksurface.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer surface with 3mm edgeband (K) or knife edge (U) on user edge and 1mm edgeband on sides and back.
- Optional wireways along back edges are color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireways will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Corner bracket is required and must be separately specified.**
- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –Cantilever brackets
  –Corner brackets - REQUIRED
  –Worksurface support panel
  –P-Leg
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- Recommend the KU4A-0023-■ N or KU3A-0023-■ ■ keyboard pad for 36″(914mm)-wide corners.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

❹ Orientation (as seated):

- **R** Right-hand
- **L** Left-hand

2) Laminate surface color or Wood finish color.

3) Edge trim color (laminate only).

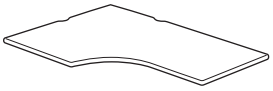
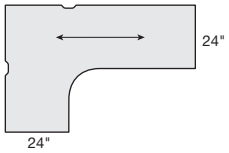
Adaptable Worksurfaces

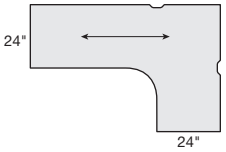
Corner, 90° Wrap-Around Extended





(Right-hand orientation)

WUCE-R44



(Left-hand orientation)

WUCE-L44

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer worksurface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on sides and back.
- Worksurfaces predrilled to accept most support options.
- Optional wireway along back edge of worksurface is color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireway will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Corner bracket is required and must be separately specified.**
- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –Cantilever brackets
  –Corner bracket - REQUIRED
  –Worksurface support panel
  –Worksurface support column or leg
  –P-Leg
  –Side brackets
  –Attached lower storage
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18”(457mm) deep worksurfaces with knife edge only.
- Recommend the KU4A-0023-■ N or KU3A-0023-■ ■ keyboard pad for 36”(914mm)-wide corners.

Note: Separately specified worksurface reinforcement channels provide additional support for worksurfaces with 50”(1270mm) spans that are heavily loaded and not otherwise supported by mid-span cantilevers, worksurface support panels, columns, legs or attached lower storage.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

❹ Orientation (as seated):

- **R** Right-hand
- **L** Left-hand

2) Laminate surface color or Wood finish color.
3) Edge trim color (laminate only).

Adaptable Worksurfaces

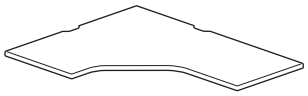
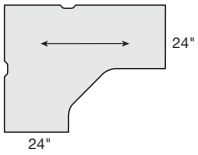
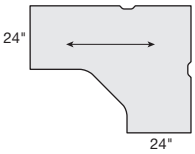
Corner, 90° Notched Extended





(Right-hand orientation)

WUCP-R44



(Left-hand orientation)

WUCP-L44

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer worksurface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on sides and back.
- Worksurfaces predrilled to accept most support options.
- Optional wireways along back edges are color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireways will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Corner bracket is required and must be separately specified.**
- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –Cantilever brackets
  –Corner bracket - REQUIRED
  –Worksurface support panel
  –Support post or support column
  –Disc base
  –Double support leg
  –P-Leg
  –Side brackets
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- Recommend the KU4A-0023-■ N or KU3A-0023-■ ■ keyboard pad for 36″(914mm)-wide corners.

Note: Separately specified worksurface reinforcement channels provide additional support for worksurfaces with 50″(1270mm) spans that are heavily loaded and not otherwise supported by mid-span cantilevers, worksurface end panels, legs or attached storage.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

❹ Orientation (as seated):

- **R** Right-hand
- **L** Left-hand

2) Laminate surface color or Wood finish color.

3) Edge trim color (laminate only).

Class CA – SIN 33721; Discount Group I
Canadian Conversion Factor: Refer to haworth.com/Canada

Adaptable Worksurfaces

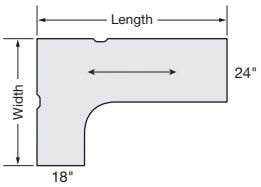
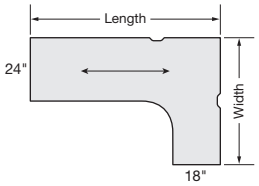
Corner, 90° Wrap-Around Transitional Extended



(Right-hand orientation)

WUCX-R34



(Left-hand orientation)

WUCX-L43

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer worksurface with 3mm edgeband (K) of knife (U) on user edge and 1mm edgeband on sides and back.
- Worksurfaces predrilled to accept most support options.
- Optional wireway along back edges of worksurface is color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireway will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Corner bracket is required and must be separately specified.**
- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –Cantilever brackets
  –Corner bracket - REQUIRED
  –Worksurface support panel
  –Support post or support column
  –P-Leg
  –Side brackets
  –Attached lower storage
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- Recommend the KU4A-0023-■ N or KU3A-0023-■ ■ keyboard pad for 36″(914mm)-wide corners.
- Intermediate support is required for unsupported worksurface span greater than 60″(1524mm).

Note: Separately specified worksurface reinforcement channels provide additional support for worksurfaces with 50″(1270mm) spans that are heavily loaded and not otherwise supported by mid-span cantilevers, worksurface support panels, columns, legs or attached lower storage.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

❹ Orientation (as seated):

- **R** Right-hand
- **L** Left-hand

2) Laminate surface color or Wood finish color.
3) Edge trim color (laminate only).

Adaptable Worksurfaces

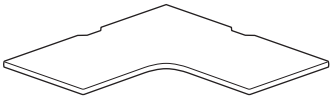
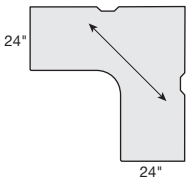
90° Merger





WUCQ-N44

Features

- Includes worksurface.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer surface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on sides and back.
- Worksurfaces predrilled to accept most support options.
- Optional wireways along back edges are color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireways will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- 90° Merger is suggested alternative to using two perpendicular rectangular worksurfaces.
- **Corner bracket is required and must be separately specified.**
- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –Cantilever brackets
  –Corner bracket - REQUIRED
  –Worksurface support panel
  –Side brackets
  –P-Leg
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- **Not designed for use with an adjustable keyboard pad.**

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

2) Laminate surface color or Wood finish color.
3) Edge trim color (laminate only).

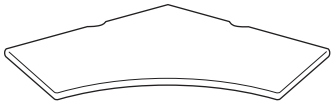
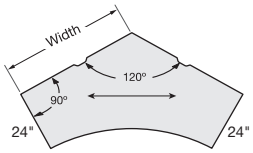
Adaptable Worksurfaces

Corner, 120° Wrap-Around





WUCZ-N44

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer worksurface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on sides and back.
- Worksurfaces predrilled to accept most support options.
- Optional wireway along back edges of worksurface is color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireway will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Corner bracket is required and must be separately specified.**
- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –Cantilever brackets
  –Corner bracket - REQUIRED
  –Worksurface support panel
  –Side brackets
  –P-leg
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- Recommend the KU4A-0023-■ N or KU3A-0023-■ ■ keyboard pad for 36″(914mm)-wide corners.

Note: Separately specified worksurface reinforcement channels provide additional support for worksurfaces with 50″(1270mm) spans that are heavily loaded and not otherwise supported by mid-span cantilevers, worksurface support panels, columns, legs or attached lower storage.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

2) Laminate surface color or Wood finish color.

3) Edge trim color (laminate only).

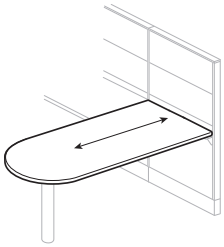
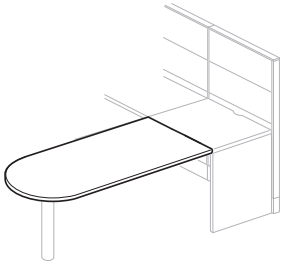
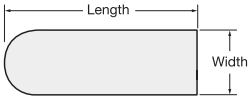
Adaptable Worksurfaces

D-Shaped Convergent







WURD

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on back (width).
- Wood veneer worksurface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on back (width).
- Worksurfaces predrilled to accept most support options.
- Optional wireway is centered on back edge and is color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireway will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- **Must be attached to a panel or face of a straight worksurface.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- Worksurface support must be separately specified. Select one of the following required floor support options:
  –Worksurface support post or column
  –Attached lower storage
- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- In addition to the required floor support, separately specify the appropriate support options. Select one or more of the following:
  –Cantilever bracket
  –Side bracket
  –Worksurface support panel
  –Flush mount plates
  –P-Leg
- For aesthetic reasons, when using edgeband edge option, consider specifying D-Shaped Convergent Wrap-Around.

Note: Separately specified worksurface reinforcement channels provide additional support for worksurfaces with 50″(1270mm) spans that are heavily loaded and not otherwise supported by mid-span cantilevers, worksurface support panels, columns, legs or attached lower storage.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

2) Laminate surface color or Wood finish color.
3) Edge trim color (laminate only).

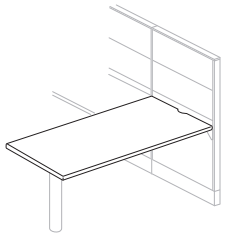
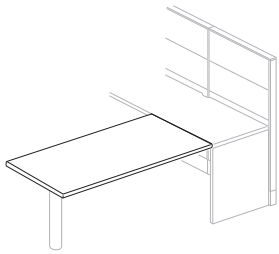
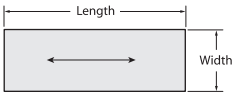
Adaptable Worksurfaces

Rectangular Convergent







WURV

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edges and 1mm edgeband on front and back (width).
- Wood veneer worksurface 3mm edgeband (K) or knife (U) on user edges and 1mm edgeband on front and back (width).
- Worksurfaces predrilled to accept most support options.
- Optional wireway along back edge of worksurface is color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireway will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Must be attached to a panel or face of a straight worksurface.
- Depths and widths shown in nominal dimensions.

Specification Tips

- Worksurface support must be separately specified. Select one of the following required floor support options:
  –Worksurface support post or column
  –Attached lower storage
- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- In addition to the required floor support, separately specify the appropriate support options. Select one or more of the following:
  –Cantilever bracket
  –Worksurface support panel
  –Side bracket
  –Standard link cantilever bracket
  –Flush mount plates
  –P-Leg
- For aesthetic reasons, when using edgeband edge option, consider specifying D-Shaped Convergent Wrap-Around.

Note: Separately specified worksurface reinforcement channels provide additional support for worksurfaces with 50″(1270mm) spans that are heavily loaded and not otherwise supported by mid-span cantilevers, worksurface support panels, columns, legs or attached lower storage.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

2) Laminate surface color or Wood finish color.

3) Edge trim color (laminate only).

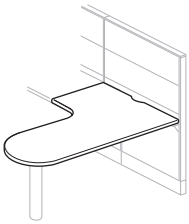
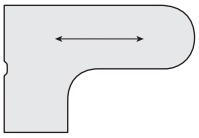
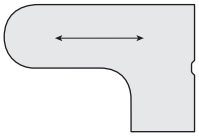
Adaptable Worksurfaces

D-Shaped Convergent, Wrap-Around





(Right-hand orientation)



(Left-hand orientation)

WUCD-L

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on side and back.
- Wood veneer worksurface 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on side and back (width).
- Worksurfaces predrilled to accept most support options.
- Optional wireway is centered on back edge and is color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireway will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- 36″(914mm)-wide surfaces have a 24″(610mm) diameter D-shaped radius.
- 42″(1067mm)- to 60″(1524mm)-wide surfaces have a 30″(762mm) diameter D-shaped radius.
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Worksurface support specific to product line; must be separately specified.**
  –Worksurface support post or column
  –21″(533mm) adjustable height disc base
  –Attached lower storage
- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- In addition to the required floor support, separately specify the appropriate support options. Select one or more of the following:
  –Cantilever bracket
  –Side bracket
  –Worksurface support panel
  –P-Leg
- Recommend the KU4A-0023-■ N or KU3A-0023-■ ■ keyboard pad for 36″(914mm)-wide corners.

Note: Separately specified worksurface reinforcement channels provide additional support for worksurfaces with 50″(1270mm) spans that are heavily loaded and not otherwise supported by mid-span cantilevers, worksurface support panels, columns, legs or attached lower storage.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

❹ Orientation (as seated):

- **R** Right-hand
- **L** Left-hand

2) Laminate surface color or Wood finish color.
3) Edge trim color (laminate only).

Adaptable Worksurfaces

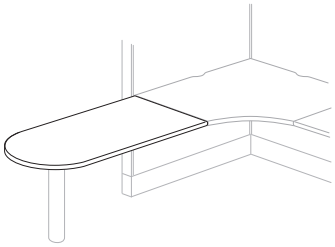
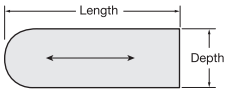
D-Shaped Ender





WUDD

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on back (width).
- Wood veneer worksurface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on back (width).
- Worksurfaces predrilled to accept most support options.
- **Must be attached to the depth of adjoining worksurface.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Worksurface support specific to product line; must be separately specified.**
  –Worksurface support post or column
  –21″(533mm) adjustable height disc base
  –Attached lower storage
- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
- In addition to the required floor support, separately specify the appropriate support options. Select one or more of the following:
  –Worksurface support panel
  –Flush mount plate
  –Standard link cantilever bracket

Note: Separately specified worksurface reinforcement channels provide additional support for worksurfaces with 50″(1270mm) spans that are heavily loaded and not otherwise supported by mid-span cantilevers, worksurface support panels, columns, legs or attached lower storage.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

2) Laminate surface color or Wood finish color.
3) Edge trim color (laminate only).

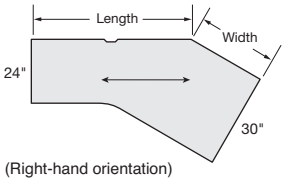
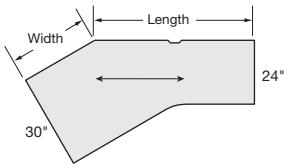
Adaptable Worksurfaces

Bent



(Right-hand orientation)

WUCB-R45



(Left-hand orientation)

WUCB-L54

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back (width).
- Wood veneer worksurface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on sides and back (width).
- Worksurfaces predrilled to accept most support options.
- Optional wireway along back edge is color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireways will be Charcoal. Refer to Specification Guide for wireway details.
- **Installed worksurfaces without wireway will not allow clearance for power plug.**
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Corner bracket is required and must be separately specified.**
- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –Corner bracket - REQUIRED
  –Cantilever bracket
  –Support post, column, double support leg, or 21″(533mm) adjustable height disc base
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.

Note: Separately specified worksurface reinforcement channels provide additional support for worksurfaces with 50″(1270mm) spans that are heavily loaded and not otherwise supported by mid-span cantilevers, worksurface end panels, legs or attached storage.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

❸ Wireway Options:

- **A** Notched
- **C** Without

2) Laminate surface color or Wood finish color.

3) Edge trim color (laminate only).

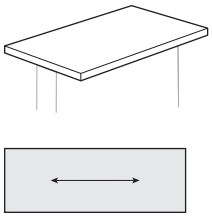
Adaptable Worksurfaces

Countertop



WUTS

Features

- Includes countertop and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on ends.
- Wood veneer surface with 3mm edgeband (K) or knife (U) on user edges and 1mm edgeband on ends.
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Requires separately specified mounting hardware.**
- For installation on panels 42″(1067mm)-high or higher.
- For use in applications that match panel width or multiple panel widths.
- **Countertop support specific to product line; must be separately specified.**

To Order, Specify:

1) Product number, including:

❶ **Surface Options:**

- **L** Laminate
- **W** Wood

❷ **Edge Options:**

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

2) Laminate surface color or Wood finish color.

3) Edge trim color (laminate only).

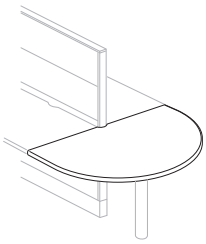
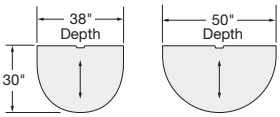
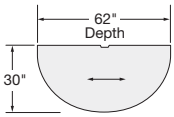
Adaptable Worksurfaces

Conference End





WUDC-3830 WUDC-5030



WUDC-6230

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on back.
- Wood veneer worksurface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on back.
- Worksurfaces predrilled to accept most support options.
- Wireway required to accommodate end-of-run trim.
- Wireway is color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireway will be Charcoal. Refer to Specification Guide for wireway details.
- Depths and widths shown in nominal dimensions.

Specification Tips

- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Conference ends with single support posts or columns are generally not considered to be panel supports. See load guidelines in Specification Guide to insure that the panels are properly supported.
- The back edge of the conference end must be supported by either
  –Two FMK brackets (50″(1270mm)/62″(1575mm) depths)
  –A standard link cantilever (pair)
  –Worksurface support panel
  –A combination of the previous three
- The front of the conference end must be supported by one of the following:
  –Support post, column, or 21″(533mm) adjustable height disc base - REQUIRED

Note: Grain direction will run across 62″(1575mm)-wide conference end worksurface.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

Laminate:

- **J** Edgeband
- **F** Knife

Wood:

- **K** Edgeband
- **U** Knife

2) Laminate surface color or Wood finish color.
3) Edge trim color (laminate only).

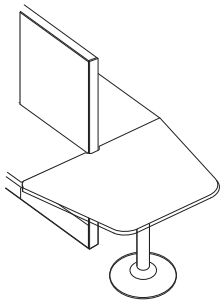
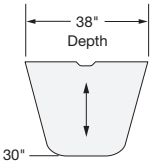
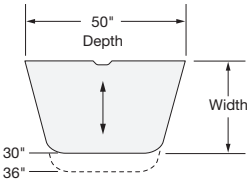
Key Conference End

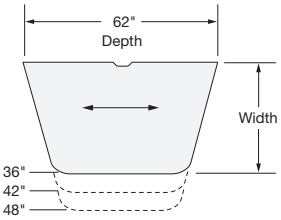




WURY-3830



WURY-5030
WURY-5036



WURY-6236
WURY-6242
WURY-6248

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on back.
- Wood veneer worksurface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on back.
- Worksurfaces predrilled to accept most support options.
- Wireway along back edge is color-matched to solid side/back edge trim. When wood veneer or wood grain or patterned laminate is specified, wireway will be Charcoal. Refer to Specification Guide for wireway details.
- Depths and widths shown in nominal dimensions.
- Wireway required to accommodate end-of-run trim.

Specification Tips

- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
  –Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.
- Key ends with single support posts or columns are generally not considered to be panel supports. See load guidelines in Specification Guide to insure that the panels are properly supported.
- The back edge of the key end must be supported by either
  –Two FMK brackets (50″(1270mm)/62″(1575mm) depths)
  –A standard link bracket (pair)
  –Another component with shared worksurface support (Worksurface support panel, P-leg)
  –A combination of the previous three
- The front of the key end must be supported by one of the following:
  –Support post, column, or 21″(533mm) adjustable height disc base - REQUIRED
- To be used in conference end application.

Note: Grain direction for laminate Key End over 62″(1575mm)-deep will be reversed.

To Order, Specify:

1) Product number, including:

❶ **Surface Options:**

- **L** Laminate
- **W** Wood

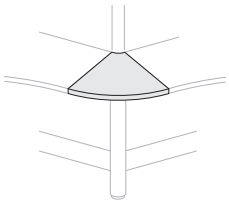
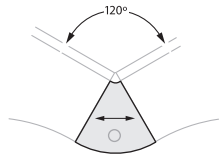
Adaptable Worksurfaces

120° Link





WUDZ

Features

- Includes worksurface and tie plate.
- Laminate with 3mm edgeband (J) or knife edge (F) on user edge and 1mm edgeband on sides and back.
- Wood veneer worksurface with 3mm edgeband (K) or knife (U) on user edge and 1mm edgeband on back.
- Worksurfaces predrilled to accept most support options.
- Depths and widths shown in nominal dimensions.

Specification Tips

- Support column, leg or worksurface support panel may be used dependent upon application.
- Use with Corner, 120° Wrap-Around worksurfaces.
- **Worksurface support specific to product line and worksurface edge guidelines; must be separately specified; refer to Specification Guide for support and load.**
  –P-Leg
  –Support post
  –Support column
  –Worksurface support panel
  –Tie plate with 18″(457mm) depth
  –Flush mount plates with 24″(610mm) and 30″(762mm) depths
  –Standard link cantilevers
- Knife edge requires use of worksurface supports for that application; worksurface support panel and/or side bracket for use with knife edge.
- Mini cantilever brackets are for use with 18″(457mm) deep worksurfaces with knife edge only.

Standard Snap-n-Fit Cantilever Bracket for Corner Worksurface

ZEBC-1900

Height	Depth	Description	Number	Price
10.5″(267mm)	19″(483mm)	Pair	ZEBC-1900-PP	$[illegible]

Feature

- Includes one right and one left-hand cantilever, two U-channels (1 corner, 1 rectangular) and mounting screws.

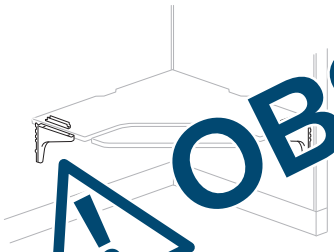
Specification Tips

- Worksurfaces are predrilled for snap-n-fit cantilevers.
- **To be used with 24″(610mm)-deep or 30″(762mm)-deep 90° and 120° corner and extended worksurfaces.**
- **Exception: Not to be used with 24″(610mm)-deep, 90° sp[illegible] top corner worksurface or 24″(610mm)-deep r[illegible]ular [illegible]it top worksurface.**

To Order, Specify:

1) Product number.
2) Non-metallic [illegible] color.

Standard Snap-n-Fit Mini Cantilever Bracket for Corner Worksurface



ZEBC-1[illegible]

Height	Depth	Description	Number	Price
10.5″(267mm)	1[illegible]2″ (2[illegible]mm)	Pair	ZEBC-1200-PP	$403.97

Feature

- Includes one [illegible]ht and [illegible] left-[illegible]and cantilever, two U-channels (1 corn[illegible]ular) an[illegible]unting screws.

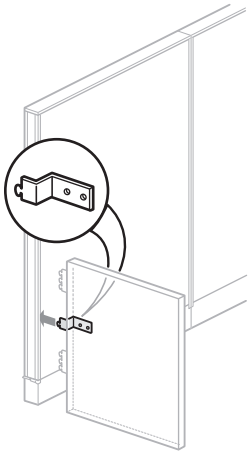
Sp[illegible]ati[illegible]ips

- [illegible]s are predrilled for snap-n-fit cantilevers.
- **To[illegible]e used with 18″(457mm)-deep 90° and 120° corner and [illegible]xtended worksurfaces.**
- **To be used with 24″(610mm)-deep 90° split top corner worksurfaces.**

To Order, Specify:

1) Product number.
2) Non-metallic trim color.

Anti Dislodgement Bracket for use with Worksurface Support Panels



ZEBF-0000-P

Number ❶	Price
ZEBF-0000-P	$150.92

Features

- Includes one left or right-hand shared or non-shared anti-dislodgement bracket and mounting screws.
- Standard in black finish only.

Specification Tips

- **Anti-Dislodgement Bracket only for use with worksurface support panels used in conjunction with a worksurface.**
- Worksurface support panel with anti-dislodgement bracket can be used in place of a return panel in some applications.
- See Load and Support guidelines for details.

To Order, Specify:

1) Product number, including:
(No finish specification required.)

❶ **Handedness:**

- **R** Right
- **L** Left

Class CA – SIN 33721; Discount Group I

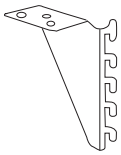
			Right	ZEBA-0000-PR	**30.94**

Features
- Includes one left- or right-hand bracket and mounting screws.
- Mounts ends of rectilinear worksurface to adjacent panel.
- Worksurface depth and return panel width must be equal.
- Standard in Charcoal finish only.

Specification Tip
- Not recommended for use with convergent worksurface.

To Order, Specify:
1) Product number.
(No finish specification required.)

Convergent Mount Bracket



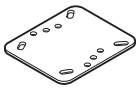
ZEBV-0000
(Right-hand)

4.75″(121mm)	1.875″(48mm)	4.25″(108mm)	Left	ZEBV-0000-PL	**$37.31**
			Right	ZEBV-0000-PR	**37.31**

Features
- Includes one left- or right-hand bracket, mounting screws and anti-dislodgement clip.
- Mounts one corner of straight end of convergent worksurface to panel side rails.
- Standard in Charcoal finish only.

To Order, Specify:
1) Product number.
(No finish specification required.)

Flush Mount Plate



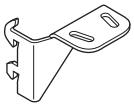
ZUBF-0000

	3″(76mm)	4″(102mm)		ZUBF-0000-PN	**$35.85**

Features
- Includes one bracket and mounting screws.
- Mounts straight end of convergent worksurfaces or conference end worksurfaces to panel-hung worksurfaces.
- Provides 90° attachment of two worksurfaces at the same height.
- Standard in Charcoal finish only.

To Order, Specify:
1) Product number.
(No finish specification required.)

Rear-Corner Bracket



ZEBR-0000

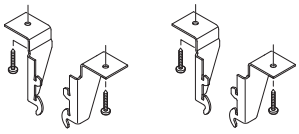
2″(51mm)	1.5″(38mm)	2.625″(67mm)		ZEBR-0000-PN	**$28.43**

Features
- Includes one left-hand bracket and mounting screws.
- Attaches rear corner of worksurface to left hand side trim rail of panel.
- Standard in Charcoal finish only.

Specification Tip
- **Required for all corner worksurfaces.**

To Order, Specify:
1) Product number.
(No finish specification required.)

Counter Top Brackets



Z2BT-0000
ZEBT-0000
ZHBT-0000

Description	Height	Number	Price A	Price B
UniGroup Too for Square Painted Top Cap	2.59″(66mm)	Z2BT-0000-PNE	**$162.88**	**$164.52**
UniGroup for Radius Steel Top Cap	2.76″(70mm)	ZEBT-0000-PNE	**162.88**	**N/A**
PLACES for Low Profile Steel/Wood Top Cap	2.59″(66mm)	ZHBT-0000-PNE	**162.88**	**N/A**

Feature
- Includes countertop brackets and screws to support countertops up to 60″(1524mm) wide. For wider widths order additional brackets as needed so that brackets are positioned a maximum of 60″(1524mm) apart.

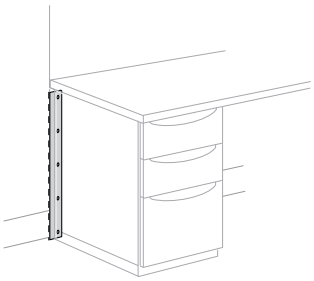
Specification Tips
- For UniGroup radius wood top cap, specify UniGroup for radius steel top cap and add field supplied spacers to accommodate height difference.
- UniGroup Too for square painted top cap brackets are available in Metallic finish.

To Order, Specify:
1) Product number.
2) Trim color.

Adaptable Worksurface Supports

for use with UniGroup Too, UniGroup & PLACES

	Height	Depth	Description	Number	Price A	Price B
Pedestal-to-Panel Bracket	2″(51mm)	27.25″(692mm)	Left-hand	ZEBN-0000-PLJ	**$266.35**	**$287.23**
			Right-hand	ZEBN-0000-PRJ	**266.35**	**287.23**



ZEBN-0000

Features

- Includes one handed bracket and mounting screws.
- Installs in side trim rail slots and attaches to the back side of an attached pedestal.
- Bracket is predrilled for attachment to pedestal.

Specification Tips

- Worksurface and pedestal have to be same depth (nominal).
- Not for use with lateral files.
- For use with edgeband worksurfaces.

To Order, Specify:

1) Product number.
2) Trim color.

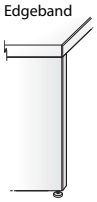
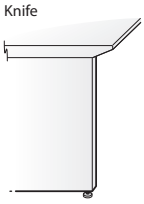
ZEFS

Edgeband



Knife



Features

- Includes support panel with glides and mounting hardware.
- Installs in panel frame component slots and attaches under the end of a worksurface.
- Provides full support for one end of equal depth worksurfaces.
- Recommended in heavy loading conditions.
- Non-handed design may be installed in left-hand, right-hand or shared configuration.
- Laminate or wood surfaces with plastic edge trim, 3mm radiused user edge provides soft access to knee space.
- Adjustable glides provide a maximum of 2.5″(64mm) of height adjustment.

Specification Tips

- Specify worksurface support panel to match worksurface edge option.
- Separately specify Anti-Dislodgement Bracket for additional support. Please refer to Anti-Dislodgement Bracket price list page for specification tips.

To Order, Specify:

1) Product number, including:

❶ **Edge Options:**

- **J** Edgeband
- **F** Knife

2) Laminate color.
3) Edge trim color.

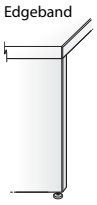
ZEFS

Edgeband



Knife

Features

- Includes support panel with glides and mounting hardware.
- Installs in panel frame component slots and attaches under the end of a worksurface.
- Provides full support for one end of equal depth worksurfaces.
- Recommended in heavy loading conditions.
- Non-handed design may be installed in left-hand, right-hand or shared configuration.
- Laminate or wood surfaces with plastic edge trim, 3mm radiused user edge provides soft access to knee space.
- Adjustable glides provide a maximum of 2.5″(64mm) of height adjustment.

Specification Tips

- Specify worksurface support panel to match worksurface edge option.
- Separately specify Anti-Dislodgement Bracket for additional support. Please refer to Anti-Dislodgement Bracket price list page for specification tips.

To Order, Specify:

1) Product number, including:

❶ **Edge Options:**

- **K** Edgeband
- **U** Knife Edge

2) Wood finish color.

Worksurface Supports

	Number	Price
Straight Leg Basic	WUCL-0001	**$193.52**

WUCL-0001

Class CA

Features

- Includes one leg and mounting screws.
- 4″(102mm) glide adjustment range allows worksurface heights from 27″(686mm) to 31″(787mm).
- 2.25″(57mm) diameter column includes 6″(152mm)-diameter top plate.
- Standard in Charcoal finish only.
- Shipped assembled.

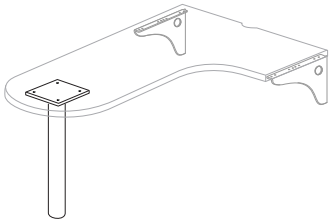
Specification Tip

- Predrilled for convergent worksurfaces and end-of-run worksurface application.

To Order, Specify:

1) Product number.
   (No finish specification required.)

Support Column



WUCC-0004

Class CA

	Number	Price A	Price B
	WUCC-0004	**$434.98**	**$456.27**

Features

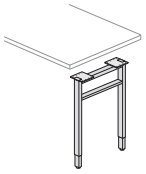
- Includes one column and mounting screws.
- Column adjusts vertically for worksurface heights from 26″(660mm) to 30″(762mm).
- 3″(76mm)-diameter column includes 6″(152mm)- square top plate.

To Order, Specify:

1) Product number.
2) Trim color.

Worksurface Supports

Double Support Leg



ZZFK Class CA

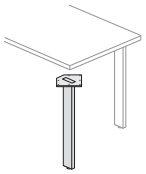
Height (Adjustable)	Depth	Number	Price A	Price B
27″(686mm)	18″(457mm)	ZZFK-1800-PNFG	**$740.27**	**$763.22**
	24″(610mm)	ZZFK-2400-PNFG	**784.47**	**807.42**
	30″(762mm)	ZZFK-3000-PNFG	**828.67**	**851.62**

Features
- Includes one double leg and mounting hardware.
- Leg may be installed in left-hand or right-hand configuration.
- 6″ adjustment range allows worksurface heights from 26″(660mm) to 32″(813mm).
- Provides full support for one end of equal depth worksurface.

Specification Tips
- One end of worksurface must be panel attached, not to be used as freestanding.
- Double leg with glide can be used to replace support post or support column.

To Order, Specify:
1) Product number.
2) Trim color.

Single Support Leg



ZUFJ-0101-PNFG Class CA

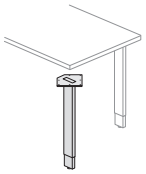
Height	Depth	Width	Description	Number	Price A	Price B
28″(711mm)	3.25″(83mm)	1.125″(29mm)	Single Post with Glide	ZUFJ-0101-PNFG	**$280.53**	**$304.50**

Features
- Includes one single post and mounting hardware.
- Glide provides 0.5″(13mm) of height adjustment.

Specification Tip
- May be used for worksurface applications.
- One end of worksurface must be panel attached, not to be used as freestanding.

To Order, Specify:
1) Product number.
2) Trim color.

Support Post



ZZFJ Class CA

Height (Adjustable)	Description	Number	Price A	Price B
26″(660mm)/30″(762mm)	Single post with glide, adjustable	ZZFJ-0101-PNFG	**$397.69**	**$420.78**

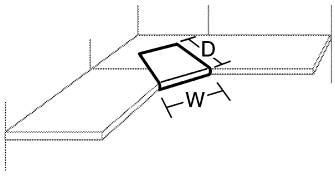
Features
- Includes one single post and mounting hardware.
- 6″(152mm) height adjustment (26″(660mm)-32″(813mm)).

Specification Tip
- May be used for worksurface and freestanding table applications.

To Order, Specify:
1) Product number.
2) Trim color.

Worksurface Accessories

	Height	Width	Number	Price
Make-A-Corner	21.125″(537mm)	26.125″(664mm)	MAC-0001	**$283.56**



MAC-0001

Features

- Creates an angled edge between two (2) perpendicular regular worksurfaces.
- Slides over the top of 1.82″(46mm) thick worksurfaces.
- Accommodates an adjustable keyboard or mouse pad track (screws included).

To Order, Specify:

1) Product number.
2) Non-metallic trim color.

Features

- Includes door front without lock, top shelf, bottom shelf with back stop, end panels, and hardware. Optional locks available.
- Inside dimensions:
  –Height: 12.75″(324mm)
  –Depth: 13.25″(337mm)
- Locks are available in black or chrome.
- For lock options, refer to Lock Program section of the Accessories Price List.
- Accepts separately specified task lights.
- Safety interlock prevents dislodgement from panel component slots.
- Flipper Door - 66″(1676mm) and 72″(1829mm) units have two doors, one lock per door if locking option is specified.
- Flipper door stores on top of unit.
- Cabinet Door - 24″-42″(610mm-1067mm) units have two cabinet doors with one lock if locking option is specified.
  - 48″-72″(1219mm-1829mm) units have four cabinet doors with two locks if locking option is specified.
- Single Slider Door - Door is half the width of the unit.
- Shipped unassembled.

Specification Tips

- To be installed in component slots on same size panel or on a combination of panels that equal the width of the storage unit.
- Specify separate shelf gang clip for unbalanced configurations with greater than one row of overhead storage units.
- Doors cannot be retrofitted with locks.
- Standard mount overhead storage unit cannot be retrofitted to up mount overhead storage unit.
- Flipper doors can be field retrofitted with slow close mechanism from eParts.

To Order, Specify:

1) Product number, including:

❶ Locking Option:

- **N** Non-locking
- **L** Locking, add **$31.53** list.

❷ Close Option: (Flipper door only)

- **S** Slow close, add **$516.39** list. 66″ and 72″ wide units, add **$1032.78** list.
- No specification required for standard close.

2) Trim color for shelf and end panels.
3) Trim color for door.
4) Trim color for lock housing, if applicable.

Features

- Includes door front without lock, top shelf, bottom shelf with back stop, end panels, and hardware. Optional locks available.
- Inside dimensions:
  –Height: 12.75″(324mm)
  –Depth: 13.25″(337mm)
- Locks are available in black or chrome.
- For lock options, refer to Lock Program section of the Accessories Price List.
- Accepts separately specified task lights.
- Safety interlock prevents dislodgement from panel component slots.
- Flipper Door - 66″(1676mm) and 72″(1829mm) units have two doors, one lock per door if locking option is specified.
- Flipper door stores on top of unit.
- Cabinet Door - 24″-42″(610mm-1067mm) units have two cabinet doors with one lock if locking option is specified.
  - 48″-72″(1219mm-1829mm) units have four cabinet doors with two locks if locking option is specified.
- Single Slider Door - Door is half the width of the unit.
- Shipped unassembled.

Specification Tips

- To be installed in component slots on same size panel or on a combination of panels that equal the width of the storage unit.
- Specify separate shelf gang clip for unbalanced configurations with greater than one row of overhead storage units.
- Doors cannot be retrofitted with locks.
- Standard mount overhead storage unit cannot be retrofitted to up mount overhead storage unit.
- Flipper doors can be field retrofitted with slow close mechanism from eParts.

To Order, Specify:

1) Product number, including:

❶ Locking Option:

N Non-locking

L Locking, add **$31.53** list.

❷ Close Option: (Flipper door only)

S Slow close, add **$516.39** list. 66″ and 72″ wide units, add **$1032.78** list.

No specification required for standard close.

2) Trim color for shelf and end panels.
3) Trim color for door.
4) Trim color for lock housing, if applicable.

Features

- Includes door front without lock, top shelf, bottom shelf with full back, mounting brackets, end panels, and hardware. Optional locks available.
- Inside dimensions:
  –Height: 12.75″(324mm)
  –Depth: 13.25″(337mm)
- Up-Mount brackets are color-matched to case.
- Locks are available in black or chrome.
- For lock options, refer to Lock Program section of the Accessories Price List.
- Accepts separately specified task lights.
- Safety interlock prevents dislodgement from panel component slots.
- Flipper door stores on top of unit.
- Cabinet Door - 24″-42″(610mm-1067mm) units have two cabinet doors with one lock if locking option is specified.
  - 48″(1219mm) units have four cabinet doors with two locks if locking option is specified.
- Single Slider Door - Door is half the width of the unit.
- Doors shipped separate - remainder of the unit shipped unassembled.

Specification Tips

- To be installed in component slots on same size panel or on a combination of panels that equal the width of the storage unit.
- Specify separate shelf gang clip for unbalanced configurations with greater than one row of overhead storage units.
- Doors cannot be retrofitted with locks.
- Up mount overhead storage unit cannot be retrofitted to Standard overhead storage unit.
- Recommended for single row application.
- Recommended for use with 48″-56″(1219mm-1422mm) high panel configurations.
- Using up mount overheads limits allowable panel runs to 10 feet maximum and requires worksurfaces use side-mount brackets, worksurface support panels or other form of floor support. (Fully cantilevered worksurfaces are not allowed). Return panels on each end must equal height of panel run and depth of worksurface.
- Cannot be installed above a slat pad, tackboard, markerboard, or add-on glazed panel.
- Flipper doors can be field retrofitted with slow close mechanism from eParts.

To Order, Specify:

1) Product number, including:

❶ Locking Option:

- **N** Non-locking
- **L** Locking, add **$31.53** list.

❷ Close Option: (Flipper door only)

- **S** Slow close, add **$516.39** list.
- No specification required for standard close.

2) Trim color for shelf and end panels.
3) Trim color for door.
4) Trim color for lock housing, if applicable.

Features

- Includes door front without lock, top shelf, bottom shelf with full back, mounting brackets, end panels, and hardware. Optional locks available.
- Inside dimensions:
  –Height: 12.75″(324mm)
  –Depth: 13.25″(337mm)
- Up-Mount brackets are color-matched to case.
- Locks are available in black or chrome.
- For lock options, refer to Lock Program section of the Accessories Price List.
- Accepts separately specified task lights.
- Safety interlock prevents dislodgement from panel component slots.
- Flipper door stores on top of unit.
- Cabinet Door - 24″-42″(610mm-1067mm) units have two cabinet doors with one lock if locking option is specified.
  - 48″(1219mm) units have four cabinet doors with two locks if locking option is specified.
- Single Slider Door - Door is half the width of the unit.
- Doors shipped separate - remainder of the unit shipped unassembled.

Specification Tips

- To be installed in component slots on same size panel or on a combination of panels that equal the width of the storage unit.
- Specify separate shelf gang clip for unbalanced configurations with greater than one row of overhead storage units.
- Doors cannot be retrofitted with locks.
- Up mount overhead storage unit cannot be retrofitted to Standard overhead storage unit.
- Recommended for single row application.
- Recommended for use with 48″-56″(1219mm-1422mm) high panel configurations.
- Using up mount overheads limits allowable panel runs to 10 feet maximum and requires worksurfaces use side-mount brackets, worksurface support panels or other form of floor support. (Fully cantilevered worksurfaces are not allowed). Return panels on each end must equal height of panel run and depth of worksurface.
- Cannot be installed above a slat pad, tackboard, markerboard, or add-on glazed panel.
- Flipper doors can be field retrofitted with slow close mechanism from eParts.

To Order, Specify:

1) Product number, including:

❶ Locking Option:

- **N** Non-locking
- **L** Locking, add **$31.53** list.

❷ Close Option: (Flipper door only)

- **S** Slow close, add **$516.39** list.
- No specification required for standard close.

2) Trim color for shelf and end panels.
3) Translucent color for door.
4) Trim color for lock housing, if applicable.

Features

- Includes door front without lock, top shelf, bottom shelf with back stop, end panels, wall attachment bar, angle attachment bracket and hardware. Optional locks available.
- Inside dimensions:
  –Height: 12.75″(324mm)
  –Depth: 13.25″(337mm)
- Locks are available in black or chrome.
- For lock options, refer to Lock Program section of the Accessories Price List.
- Accepts separately specified task lights.
- Safety interlock prevents dislodgement from wall.
- Flipper Door - 66″(1676mm) and 72″(1829mm) units have two doors, one lock per door if locking option is specified.
- Flipper door stores on top of unit.
- Cabinet Door - 24″-42″(610mm-1067mm) units have two cabinet doors with one lock if locking option is specified.
  - 48″-72″(1219mm-1829mm) units have four cabinet doors with two locks if locking option is specified.
- Single Slider Door - Door is half the width of the unit.
- Optional non-structural back is available.
- Shipped unassembled.

Specification Tips

- Doors cannot be retrofitted with locks.
- Must be properly anchored to a structural wall.
- Anchors are not provided, must be field supplied.
- Flipper doors can be field retrofitted with slow close mechanism from eParts.
- Wall mount overhead storage units cannot be retrofitted to:
  –Upmount overhead storage unit
  –Standard overhead storage unit

To Order, Specify:

1) Product number, including:

❶ Locking Option:

- **N** Non-locking
- **L** Locking, add **$31.53** list.

❷ Close Option: (Flipper door only)

- **S** Slow close, add **$516.39** list. 66″ and 72″ wide units, add **$1032.78** list.
- No specification required for standard close.

2) Trim color for shelf and end panels.
3) Translucent color for door.
4) Trim color for lock housing, if applicable.

	72″(1829mm)	UUFB-0072-P	**494.81**	**537.26**

Features

- Includes one painted back and mounting hardware.
- Used to cover wall mount attachment brackets.

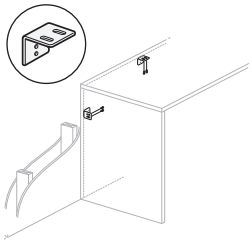
Specification Tips

- For use on Wall Mount Overhead Storage Units only.
- Back must match width of Wall Mounted Overhead Storage Units.

To Order, Specify:

1) Product number.
2) Trim color.

Worksurface Wall Bracket



ZUBW-PN

Number	Price
ZUBW-0000-PN	**$38.18**

Features

- Includes one bracket and worksurface or worksurface support panel mounting screws.
- **Screws/anchors for attachment to wall are field supplied.**
- Worksurface to wall application
  –Partially supports the back of a worksurface in wall mount application when a vertical wall track is not desired.
- Worksurface Support Panel to wall application
  –Attaches a worksurface support panel (ZEFS) to a building wall in a wall mount application when a vertical wall track is not desired.
- Standard in black finish only.

Specification Tips

- **Must be properly anchored to a structural wall.**
- Worksurface front corners support requirements:
  –One corner must be floor supported.
  –Second corner must be either floor supported or attached to an adjacent worksurface with a flush mount kit.
  –The distance between these floor supports may not exceed 10 feet.

Bracket Requirements

Length of a particular worksurface adjacent to the wall (inches)	Min # of Brackets Required (qty)
12-47	2
48-83	3
84-120	4

To Order, Specify:

1) Product number.
(No finish specification required.)

	60″(1524mm)		KUR1-1260-TMN	**709.83**	**740.76**

Features

- Includes one double sided rail with two posts, two rail end caps and attachment hardware.
- Mounts to worksurface to support rail tools.
- 1.19″(30mm) C-clamp Rail mounts on worksurfaces from 0.75″(19mm) to 1.75″(44mm) thick.
- Thru-mount Rail mounts on 1.19″(30mm) thick worksurfaces.
- Posts are 1.25″(32mm) thick.
- Belong Rail tools separately specified.
- Belong Work Tools or JumpStuff Slat Pad Tools may be used; separately specified.
- Rail overall height above worksurface: 11.81″(300mm).
- Distance between rail bottom and top of worksurface: 7.44″(189mm).
- Ships unassembled.

Specification Tips

- Designed for single sided Reside desking and single sided benching applications.
- **Not designed to be used in front of panel mounted accessories (tackboard, markerboard).**
- Rail holds up to a maximum of 40 pounds(18.14kg) evenly distributed on one side.
- Rail may be installed off modular.
- Heavy load application; additional posts can be ordered.
- Monitor arm cannot be mounted in post positions.
- Thru-mount post can be attached flush to back edge of worksurface.
- C-clamp rail can be attached to panel mounted worksurface with notch or radius wireways without removing the worksurface.
- Under worksurface: 4″(102mm) of clearance is necessary between back of worksurface and adjacent component for clamp attachment.
- Gap between screen and horizontal surface allows installation of Belong Tool Rail.
- Utility tray provides clearance for installation of Belong Tool Rail.
- Refer to Specification Guide for planning rules.

Note: No more than 6″(152mm) of rail can be extended beyond outside of support.

To Order, Specify:

1) Product number.
2) Trim color for rail/post.
3) Trim color for rail end caps:
   TR-K Charcoal
   TR-J Graphite
   TR-FM Snow

Class YA – SIN 33721; Discount Group XIII

2″(51mm) Thick Top				
7.5″(191mm)	Thru-mount	KUP1-0000-TMN	**$138.29**	**$149.21**

Features

- Includes one C-clamp or one Thru-mount Post and attachment hardware.
- Posts mount on worksurfaces 1.81″(46mm)-2″(51mm) thick.
- Posts are 1.25″(32mm) thick.

Specification Tips

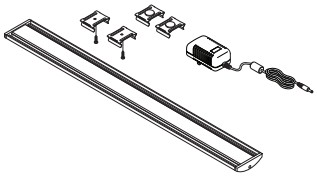
- Posts supports slide along rail bottom groove.
- For use with C-clamp or Thru-mount tool rail only.
- Monitor arm cannot be mounted in post position.
- Extra single posts can be ordered when additional support for monitor arms and paper management are attached to Tool Rail.
- Refer to Specification Guide for planning rules.

To Order, Specify:

1) Product number.
2) Trim color.

Lighting — Task

Reed Premier™ Stand-Alone LED Task Light



LUTS-0017-19ULD5

Fixture Length	Watts	Number	Price
16.4"(417mm)	7.8	LUTS-0017-19ULD5	**$366.83**

Features

- Includes 17"(432mm) LED fixture, 15 watt power supply with nine foot removable power cord.
- Standard in anodized (silver) color with white end caps.
- Height: 0.5"(12.7mm); Width: 2.0"(51mm); Length: 16.4"(417mm).

Specification Tips

- For use with 120 volt, 60 hertz electrical system.
- Color Temp: 3500K.
- Color Rendition Index: 84 CRI.
- Rated Lifespan: 5 0,000 hour.
- Not intended for daisy chaining.
- Single touch on/off with continuous dimming from 15-100%.
- Includes screw and magnetic attachment hardware for steel, laminate and wood.
- Intended for use in horizontal applications.

To Order, Specify:

1) Product number.
(No finish specification required.)

- Color Rendition Index: 84 CRI.
- Rated Lifespan: 5 0,000 hour.
- Refer to the Specification Guide for a chart showing the total number of light fixtures that can be daisy chained together.
- Single touch on/off with continuous dimming from 15-100%.
- Includes screw and magnetic attachment hardware for steel, laminate and wood.
- Intended for use in horizontal applications.

To Order, Specify:

1) Product number.
(No finish specification required.)

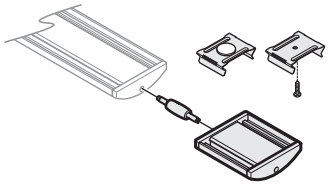
Reed Premier™ Add-On Occupancy Sensor



LUTS-0000

		LUTS-0000	**$412.73**

Features

- Includes occupancy sensor and attachment connector.
- Standard in anodized (silver) color with white end caps.
- Height: 0.7″(17.8mm); Width: 2.0″(51mm); Length: 2.3″(58mm).

Specification Tips

- For use with 120 volt, 60 hertz electrical system.
- Includes screw and magnetic attachment hardware for steel, laminate and wood.
- Intended for use in horizontal applications.

To Order, Specify:

1) Product number.
(No finish specification required.)

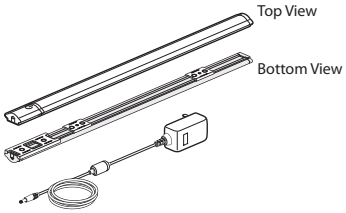
Adaptable LED Task Light - Stand-Alone



LUTN

Fixture Length	Total Length with Switch	Watts	Number	Price
17″(432mm)	18.6″(472mm)	5.6	LUTN-0017-19ULDN	**$244.53**
31″(787mm)	32.6″(828mm)	10.3	LUTN-0031-19ULDN	**277.57**
44″(1118mm)	45.6″(1158mm)	14.3	LUTN-0044-19ULDN	**308.25**

Features

- Includes 17″(1118mm), 31″(787mm) or 44″(1118mm) LED fixture, one on/off/dimmer pack,18 watt power supply with black nine foot power cord, two adhesive cord managers and screw/magnetic attachment hardware.
- Standard in anodized (silver) color with black caps.
- Height: 0.5″(12.7mm); Width: 1.18″(30mm).
- Automatic turn off after 12 hours (+/- 15 mins).

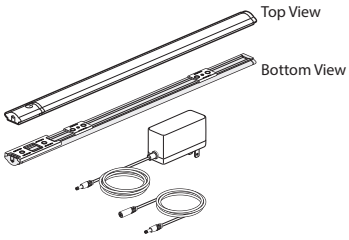
Specification Tips

- For use with 120 volt, 60 hertz electrical system.
- Color Temp: 3500K.
- Color Rendition Index: 85 CRI.
- Rated Lifespan: 52,000 hour.
- **Not intended for daisy chaining.**
- Single touch on/off with continuous dimming from 15-100% with last state memory.
- Intended for use under shelf or cabinet.

To Order, Specify:

1) Product number.
(No finish specification required.)

Adaptable LED Task Light - Starter Kit



LUTT

17″(432mm)	18.6″(472mm)	5.6	LUTT-0017-11ULDN	**$277.41**
31″(787mm)	32.6″(828mm)	10.3	LUTT-0031-11ULDN	**310.45**
44″(1118mm)	45.6″(1158mm)	14.3	LUTT-0044-11ULDN	**341.13**

Features

- Includes LED fixture, one on/off/dimmer pack, 65 watt power supply with eleven foot power cord, two adhesive cord mangers, and screw/magnetic attachment hardware.
- Standard in anodized (silver) color with black caps.
- Height: 0.5″(12.7mm); Width: 1.18″(30mm).
- Automatic turn off after 12 hours (+/- 15 mins).

Specification Tips

- For use with 120 volt, 60 hertz electrical system.
- Color Temp: 3500K.
- Color Rendition Index: 85 CRI.
- Rated Lifespan: 52,000 hour.
- Refer to the Specification Guide or under the Adaptable LED Task Light - Add-on Kit for a chart showing the total number of light fixtures that can be daisy chained together.
- Single touch on/off with continuous dimming from 15-100% with last state memory.
- The on/off dimmer switch on the Starter Kit fixture will control all connected Add-On lights.
- Intended for use under shelf or cabinet.

To Order, Specify:

1) Product number.
(No finish specification required.)

Index

Products are listed alphabetically in this index by alpha-numeric prefix/suffix codes.

Product Code	Product Description	Page
2371-6401	Panel Accessories – Panel Bridge	120
7031-0501	Panel Accessories – Friction Pad	74
7031-0501	Panel Accessories – Friction Pad	100
7031-0501	Panel Accessories – Friction Pad	123
7031-7001	Markerboard Accessories	229
7031-7002	Markerboard Accessories	229
7062-8001	Markerboard Accessories	229
BFM-1-B	Electrical Components – Base Feed Module – Hardwire Connection	133
BFM-1-C	Electrical Components — Hardwire – Base Feed Kit	155
BFM-2-A	Electrical Components – Single Circuit Base Feed Module – Receptacle Connection with Power Cord	134
BFM-2-B	Electrical Components – Single Circuit Base Feed Module – Receptacle Connection with Power Cord	133
BFM-6-B	Electrical Components – Base Feed Module — Concealed Hardwire Connection	135
BPM-1-C	Electrical Components — Hardwire – Blank Cover Plate	155
CH-8	Panel Accessories – All-Purpose Hook	100
CMPF-1-BR	Electrical and Cable Management Accessories – Cable Management Pole — One Channel – UniGroup Too and UniGroup Only	148
CMPT-1-B	Electrical and Cable Management Accessories – Cable Management Pole — Two Channels – UniGroup Too and UniGroup Only	148
E2AG	Glazed Add-On Panel – Glazed	63
E2AL-1	Panel Accessories – UniGroup Too Top Cap Aligner	71
E2AM	Fabric Add-On Panel – Fabric	62
E2BN-B	Monolithic Panel Core without Insert(s) — No Power – Panel Core	52
E2BP-B	Monolithic Panel Core without Insert(s) — Powered – Panel Core	54
E2CA-120	Panel Accessories – 120° Square Painted Top Cap for 2-Way or 3-Way	70
E2CC-90	Panel Accessories – 90° Square Painted Top Cap for 2-Way, 3-Way, 4-Way	70
E2CH-8	Panel Accessories – All-Purpose Hook	74
E2DS	Swing Door – Single Door — Laminate	65
E2EC-1	Panel Accessories – UniGroup Too Top Cap End Plug	71
E2FM	Electrical Components – Top Feed Module — UniGroup Too Only	138
E2FM-NT	Electrical Components — Hardwire / International – Top Feed Module – Hardwire / International – UniGroup Too Only	156
E2FM-X	Electrical Components – Top Feed Module — UniGroup Too Only	138
E2FN-B	Fabric Monolithic Panel — No Power – Fabric	29
E2FP-B	Fabric Monolithic Panel — Powered – Fabric	33
E2GN-B	Glazed Monolithic Panel — No Power – Glazed	56
E2GP-B	Glazed Monolithic Panel — Powered – Glazed	58
E2JF	Base Insert – Base Insert — Fabric	60
E2LN-B	Monolithic Panel with Full-Height Inserts — No Power – Fabric Inserts	37
E2LP-B	Monolithic Panel with Full-Height Inserts — Powered – Fabric Inserts	41
E2MN-B	Basic Monolithic Panel — No Power – Fabric	21
E2MP-B	Basic Monolithic Panel — Powered – Fabric	25
E2PA	Panel Accessories – 120° Full-Height Finish Post — Square Painted Top Cap	67
E2PA-V	Panel Accessories – 120° Variable-Height Finish Post — Square Painted Top Cap	67
E2PC	Panel Accessories – 90° Full-Height Finish Post — Square Painted Top Cap	66
E2PC-120-B	Panel Accessories – 120° Power Connector Cover	67
E2PC-90-B	Panel Accessories – 90° Power Connector Cover — Square Profile	66
E2PC-V	Panel Accessories – 90° Variable-Height Finish Post — Square Painted Top Cap	66
E2PS	Panel Accessories – 180° Full-Height Finish Post — Square Painted Top Cap	68
E2PS-N	Panel Accessories – 180° Vertical Cover only, (no top cap or base raceway cover)	69
E2PS-V	Panel Accessories – 180° Variable-Height Finish Post — Square Painted Top Cap	68
E2SN-B	Monolithic Panel with Segmented Inserts — No Power – Fabric Inserts	45
E2SP-B	Monolithic Panel with Segmented Inserts — Powered – Fabric Inserts	49
E2TF	Upper Inserts – Upper Insert — Fabric or Markerboard	61
E2TK	Panel Accessories – T-Mount Kits	74

Index

Product Code	Product Description	Page
E2TM	Upper Inserts – Upper Insert — Fabric or Markerboard	61
E2TS-P	Panel Accessories – Retrofit Kits – Square Painted Top Caps	128
E2TS-T	Panel Accessories – Retrofit Kits – Square Painted Top Caps	124
E2TS-U	Panel Accessories – Retrofit Kits – Square Painted Top Caps	124
E2UR-A	Panel Accessories – Retrofit Kits – Trim Strip for UniGroup Fabric and Glazed Add-On Panels	124
EAF	Fabric Add-On Panel – Fabric	92
EAG	Glazed Add-On Panel – Glazed	94
EBEJ-0072-3WF	Electrical Components – Raised Floor Base Feed Module	135
EC-10-B	Electrical and Cable Management Accessories – Base Raceway End Cap	147
EC-10-B	Panel Accessories – Base Raceway End Cap	71
EDS-BHL	Swing Doors with Steel Top Cap – Single Door — Laminate	96
EFN-B	Monolithic Panel with Steel Top Cap — No Power – Fabric	76
EFP-B	Monolithic Panel with Steel Top Cap — Powered – Fabric	78
EGN-B	Glazed Monolithic Panel with Steel Top Cap — No Power – Glazed	88
EGP-B	Glazed Monolithic Panel with Steel Top Cap — Powered – Glazed	90
EMN-B	Basic Monolithic Panel with Steel Top Cap — No Power – Fabric	80
EMP-B	Basic Monolithic Panel with Steel Top Cap — Powered – Fabric	82
EON-B	Open Frame Panel with Steel Top Cap — No Power – Open-Frame	84
EOP-B	Open Frame Panel with Steel Top Cap — Powered – Open-Frame	86
ETCR	Electrical and Cable Management Accessories – Expanded Top Cap Raceway – UniGroup Only	153
EVEJ-3WF	Electrical Components – Internal Power Base AI Feed	136
FBEW	Electrical Components – Wall Feed Field Wired 1 Port	136
FC-1	Electrical and Cable Management Accessories – Expanded Top Finish Cap – UniGroup Only	153
FC-2	Electrical and Cable Management Accessories – Expanded Top Finish Cap – UniGroup Only	153
FC-3	Electrical and Cable Management Accessories – Expanded Top Finish Cap – UniGroup Only	153
FC-4	Electrical and Cable Management Accessories – Expanded Top Finish Cap – UniGroup Only	153
FC-90	Electrical and Cable Management Accessories – Expanded Top Finish Cap – UniGroup Only	153
FPC-2	Panel Accessories – Steel Top Cap for 3-Way and 4-Way	97
FPPC-B	Panel Accessories – 90° Finish Post — for Steel Top Cap — Painted Surface	97
FPPS-B	Panel Accessories – 180° Finish Post — for Steel Top Cap — Painted Surface	97
H2PC	Panel Accessories – Retrofit Kits – 90° Full-Height Finish Post — Square Painted Top Cap	128
H2PC-V	Panel Accessories – Retrofit Kits – 90° Variable-Height Finish Post — Square Painted Top Cap	128
H2PS	Panel Accessories – Retrofit Kits – 180° Full-Height Finish Post — Square Painted Top Cap	129
H2PS-V	Panel Accessories – Retrofit Kits – 180° Variable-Height Finish Post — Square Painted Top Cap	129
HAB	Panel Accessories – Seismic Anchoring Bracket	74
HAB	Panel Accessories – Seismic Anchoring Bracket	100
HAB	Panel Accessories – Seismic Anchoring Bracket	123
HAF	Fabric Add-On Panel – Fabric	114
HAG	Glazed Add-On Panel – Glazed	116
HCCP-V4	Electrical and Cable Management Accessories – Cable Management Post – Variable Height – Three-Way 90° – PLACES Only	152
HCH-0008	Panel Accessories – All-Purpose Hook	123
HCPA	Electrical and Cable Management Accessories – Cable Management Pole – Panel Height – PLACES Only	149
HCPA	Electrical and Cable Management Accessories – Cable Management Pole – for 10′(3048mm)-High Ceiling – PLACES Only	149
HCPA	Electrical and Cable Management Accessories – Cable Management Pole – for 12′(3658mm)-High Ceiling – PLACES Only	150
HCPE	Electrical and Cable Management Accessories – Cable Management Pole – for 10′(3048mm)-High Ceiling – PLACES Only	149
HCPE	Electrical and Cable Management Accessories – Cable Management Pole – for 12′(3658mm)-High Ceiling – PLACES Only	150
HCPS	Electrical and Cable Management Accessories – Cable Management Pole – Panel Height – PLACES Only	149
HCPS	Electrical and Cable Management Accessories – Cable Management Pole – for 10′(3048mm)-High Ceiling – PLACES Only	149
HCPS	Electrical and Cable Management Accessories – Cable Management Pole – for 12′(3658mm)-High Ceiling – PLACES Only	150
HCT-0000	Electrical Components — Hardwire / International – Plastic Liner	157
HCT-0000	PLACES — Electrical Components – Plastic Liner — PLACES Only	140
HDPC	Panel Accessories – 90° Finish Post — for Steel Top Cap — Painted Surface	119
HDPS	Panel Accessories – 180° Finish Post — for Steel Top Cap — Painted Surface	119

Index

Product Code	Product Description	Page
HDS-L	Swing Doors with Steel Top Cap – Single Door — Laminate	118
HE	Panel Accessories – Hinges	73
HE	Panel Accessories – Hinges	98
HFN	Monolithic Fabric Panel with Steel Top Cap — No Power – Fabric	102
HFP	Monolithic Fabric Panel with Steel Top Cap — Powered – Fabric	104
HGN	Glazed Monolithic Panels with Steel Top Cap — No Power – Glazed	110
HGP	Glazed Monolithic Panels with Steel Top Cap — Powered – Glazed	112
HGRY	Markerboards/Wall Accessory Slat Pad – Wall Accessory Slat Pad	228
HHE	Panel Accessories – Hinges	121
HMN	Basic Monolithic Fabric Panel with Steel Top Cap — No Power – Fabric	106
HMP	Basic Monolithic Fabric Panel with Steel Top Cap — Powered – Fabric	108
HMSC	Mini Shelves with Loop Bracket – Corner Mini-Shelf, with Loop Bracket	210
HMSS	Mini Shelves with Loop Bracket – Straight Mini-Shelf, with Loop Bracket	210
HNAM	Markerboards/Wall Accessory Slat Pad – Markerboard — Non-Magnetic Surface	228
HRE	Panel Accessories – Side Trim Rail With Notch	120
HREH	Panel Accessories – Full Height Side Trim Rail – for use with Add-On Panels	121
HSCP-V1	Electrical and Cable Management Accessories – Cable Management Post – Variable Height – PLACES Only	151
HSCP-V2	Electrical and Cable Management Accessories – Cable Management Post – Variable Height – Two-Way 90° – PLACES Only	151
HSCP-V3	Electrical and Cable Management Accessories – Cable Management Post – Variable Height — In-Line – PLACES Only	151
HTB	Tack Strips/Tackboards – Tack Strip	227
HTB	Tack Strips/Tackboards – Tackboard	227
HTF-0004	Panel Accessories – Steel Top Cap for 3-Way and 4-Way	120
HTFM	Electrical Components — Hardwire / International – Top Feed Module – Hardwire / International – PLACES Only	157
HTFM	PLACES — Electrical Components – Top Feed Module — PLACES Only	140
HTFM-X	PLACES — Electrical Components – Top Feed Module — PLACES Only	140
KUAF	Wall Mount Components – Tackboard, Wall Mount	226
KUAM	Wall Mount Components – Markerboard, Wall Mount	226
KUP1-0000-CSN	Belong Work Tools Mounting Rails – Tool Rail — Single Post — C-Clamp or Thru-mount	231
KUPY	Wall Mount Components – Slat, Wall Mount	226
KUR1-1224-CSN	Belong Work Tools Mounting Rails – Tool Rail — Worksurface Mount C-Clamp or Thru-Mount	230
(Left-hand swing)	Swing Doors with Steel Top Cap – Single Door — Laminate	96
LUTA	Lighting — Haworth – Adaptable LED Task Light - Add-On Kit	235
LUTD-0017-1NULDN	Lighting — Task – Reed Premier™ Add-On LED Task Light — For Use with Reed Premier Starter LED Task Lights	233
LUTN	Lighting — Haworth – Adaptable LED Task Light - Stand-Alone	234
LUTS-0000	Lighting — Task – Reed Premier™ Add-On Occupancy Sensor	233
LUTS-0017-12ULD6	Lighting — Task – Reed Premier™ Starter LED Task Light	232
LUTS-0017-19ULD5	Lighting — Task – Reed Premier™ Stand-Alone LED Task Light	232
LUTT	Lighting — Haworth – Adaptable LED Task Light - Starter Kit	234
MAC-0001	Worksurface Accessories – Make-A-Corner	208
MEAM	Markerboards/Wall Accessory Slat Pad – Markerboard — Non-Magnetic Surface	228
NADR-8	Shelf Accessories – Adaptable Shelf Dividers	224
NEP-1	Electrical and Cable Management Accessories – Power Breaker Marker	152
NUB-1	Adaptable Upper Storage – Overhead Storage Unit / Shelf Gang Clip	211
PCC-180-B	Panel Accessories – 180° Power Connector Cover — Radius Profile	97
PCC-180-B	Panel Accessories – 180° Power Connector Cover	120
PCC-90-B	Panel Accessories – 90° Power Connector Cover — Radius Profile	119
PCC-90-B	Panel Accessories – 90° Power Connector Cover	97
PCF-3-B	Electrical Components – Flexible Power Connector — Panel-to-Panel	141
PCOF-1-B	Electrical Components – Connector Assembly – 12″ Pass-Through	142
PCSS-3-B	Electrical Components – Flexible Power Connector — Straight Span	142
PPC-180-B	Panel Accessories – 180° Power Connector Cover	69
PRCN-B	Electrical Components – Ported Raceway Covers	146
PRCP	Electrical Components — Hardwire – Raceway Covers	155

HAWORTH

Product Compatibility and Limited Warranty Policy

Great Expectations

You have them as a Haworth customer and so do we. And because we value our customers, we cover our products with the Haworth North America Product Compatibility and Limited Warranty Policy.

Our Commitment To Product Compatibility – Integrated Product Platforms

As a market leader in the design and manufacture of workspaces that adapt to change, we strive to maintain product compatibility within our various generations of integrated product platforms. This benefits the customer who desires to update or modify their work environment. It also benefits the customer needing to replace a product due to damage or other reasons but which is no longer manufactured or is otherwise unavailable, such as a fabric or finish that is discontinued because of changing market preferences. In both circumstances, we often can provide products with comparable function and performance.

Our Commitment To Product Quality – The Haworth North America Limited Warranty

To ensure customer satisfaction and peace of mind, we stand behind our products with the Haworth North America Limited Warranty. To review the current version of the limited warranty including its terms and conditions, please go to: **www.haworth.com/warranty** or contact **OneTouch@Haworth.com or 1 877 429 6784**.

Warranty Requests or Questions

For questions or service requests pertaining to the Haworth Limited Warranty, please contact your Haworth dealer. If you are unsure who your dealer is, please contact **OneTouch@Haworth.com or 1 877 429 6784**.

Effective: September 1, 2021

Terms of Sale

The Terms of Sale apply to all products in the North America Price Lists. To review the current version of the North American Terms of Sale, please go to:
www.haworth.com/terms-of-sale or contact **OneTouch@Haworth.com or 1 877 429 6784**.

Effective: September 2, 2022
