Ordering Customer's Own Material (C.O.M.) Upholstery
Information

Customer's Own Material

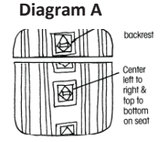
Specifications Form
January 2023

How to Specify

As a standard procedure, KI applies seating upholstery as swatched by the textile distributor. Reference distributor's website. Upholstery that is required to be applied differently than is swatched, will need a Product Modification Request written specifying the direction the upholstery is to be applied.

Seating upholstery requiring specific positioning of intricate patterns or patterns repeats on seats and backrests, will need a Product Modification Request written including a sketch noting the specific requirements, as in Diagram A.

Diagram A



C.O.M. must be supplied in continuous yardage.

Yardage requirements listed in price list are based on plain goods 54" wide. Fabrics less than 54" wide, or those requiring matching (stripes, plaids, prints, large patterns) will require additional yardage based on the fabric used and the item ordered. Consult matrix below for additional yardage needed.

C.O.M. INCREASE MATRIX (yardage matrix is also applicable to any reservations of KI Ingrade, Pallas, or K.O.M. upholsteries).

This table is a general guide.

FABRIC WIDTH	PLAIN FABRIC	UNDER 7" REPEAT	8"–13" REPEAT	14"-21" REPEAT	22"-27" REPEAT	28"-33" REPEAT	34"-40" REPEAT	41"-48" REPEAT
54"	0	20%	25%	30%	45%	55%	70%	80%
51"-53"	15%	25%	30%	35%	50%	60%	80%	90%
48"-50"	20%	30%	35%	40%	55%	65%	85%	95%
45"-47"	30%	45%	50%	55%	60%	80%	90%	100%
36"-44"	50%	65%	70%	75%	80%	100%	110%	120%

Fabric with double repeat: If using a fabric with a double repeat, please follow this formula: take the total amount of the larger and half of the smaller repeat; add together to find the correct overall repeat. Example: 10" vertical with 14" horizontal would be 14+5=19.

If fabric comes in on multiple rolls, one additional yard per roll needs to be added to the yardage requirement.

Leather hides must be a minimum of 50 square feet of usable material. The outer edges cannot be calculated as square feet or yardage. To determine square footage, multiply unit yardage by 18 square feet to obtain the total square footage required per unit.

For exact production yardage requirements, call 1-800-424-2432, ext. 2707.

Production

Customer's upholstery must be approved prior to acceptance for production.

After approval, a memo swatch of the C.O.M. from the textile distributor must accompany the order. KI assumes no responsibility for wear, defects, or performance of C.O.M. or K.O.M. upholstery.

C.O.M. not received into the appropriate facility 3 weeks prior to acknowledged delivery date may go on hold. See KI C.O.M. Shipping Location listing for the correct facility address by product.

All C.O.M. must be labeled as follows:

1. Name and address
2. Your purchase order number
3. Our style number to which fabric is to be applied
4. Supplier name and fabric name, number, and color

ALL C.O.M. Shipments must be prepaid. Collect shipments will be refused.

Testing

When KI requires testing, actual yardage to upholster one chair may be required. The C.O.M. Specialist will confirm model and fabric testing requirements when applicable.

Approved test samples will be applied to the order or will be held for 6 months. After 6 months, the sample will no longer be applied to your order. For all product testing, send fabric samples to the manufacturing facility. See KI C.O.M. Shipping Location listing for the correct facility address by product.

ALL C.O.M. Shipments must be prepaid. Collect shipments will be refused.

Treated Materials

If C.O.M. requires processing such as a stain resistance treatment or acrylic backing, it may shrink. To prevent delays in delivery or back ordering due to shrinkage, please have your processor verify measurement after processing and assure adequate yardage shipped.

Split Orders

If a portion of the shipment which does not require C.O.M. application is to be processed and shipped early, KI will enter the order immediately at your request. These split shipments are subject to minimum order changes.

Excess Upholstery Material

KI will dispose of excess upholstery material at the time of shipment unless expressly requested to return it with the product shipment.

Cancelled or Changed Orders

KI assumes no responsibility for extra C.O.M. due to a change of upholstery or cancellation of an order. If it the customer's responsibility to arrange for return of the material.

Contact the C.O.M. Specialist at 1-800-424-2432, ext. 2707, with questions or to request a split order

UPHOLSTERY INFORMATION

C.O.M. Fabric
For C.O.M. fabric sent to KI-High Point on multiple rolls, add an additional yard of fabric per roll to the yardage requirements. Multiple rolls have shorter pieces of fabric on them and do not allow nesting and stacking of the fabric to achieve the best yield as is done with one large roll. This results in yardage shortages and requests for additional fabric from the client, which can hold up the order. For each roll that is sent, one yard needs to be added and needs to be added to one of the rolls, not separately.

Fabric Disclaimer
Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Product Modification Request written specifying the direction the fabric is to be applied.

INFORMATION

C.O.M. and C.O.L. Requirements
C.O.M. yardage requirements listed above are based on plain goods 54" wide. If less than 54" wide or fabrics requiring matching (stripes, plaids, prints, large patterns), additional yardage will be needed. Consult C.O.M. matrix for additional yardage needed. For C.O.M. fabric sent to KI-High Point on multiple rolls, add an additional yard of fabric per roll to the yardage requirements.

C.O.L. Requirements
Figure 18 sq. ft. of leather (C.O.L.) for each yard shown (i.e., 4.75 x 18 = 85.5 sq ft).

Contrasting Upholstery
When contrasting fabric is chosen, price at highest in-grade.

Minimum Fabric/Leather Quantity
Minimum order for fabric is 1 yard. Minimum order for leather is 1 hide (approximately 50 sq. ft).

UPHOLSTERY INFORMATION

C.O.M. Fabric
For C.O.M. fabric sent to KI-High Point on multiple rolls, add an additional yard of fabric per roll to the yardage requirements. Multiple rolls have shorter pieces of fabric on them and do not allow nesting and stacking of the fabric to achieve the best yeild as is done with one large roll. This results in yardage shortages and requests for additional fabric from the client, which can delay an order. For each roll that is sent, one yard needs to be added to one of the rolls, not separately.

Fabric Disclaimer
Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Product Modification Request written specifying the direction the fabric is to be applied.

UPHOLSTERY INFORMATION

C.O.M. Fabric

For C.O.M. fabric sent to KI-High Point on multiple rolls, add an additional yard of fabric per roll to the yardage requirements. Multiple rolls have shorter pieces of fabric on them and do not allow nesting and stacking of the fabric to achieve the best yeild as is done with one large roll. This results in yardage shortages and requests for additional fabric from the client, which can delay an order. For each roll that is sent, one yard needs to be added to one of the rolls, not separately.

Fabric Disclaimer

Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Product Modification Request written specifying the direction the fabric is to be applied.

FINISH INFORMATION

Color Match

KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact Customer Service for details.

C.O.M. Requirements
C.O.M. yardage requirements listed above are based on plain goods 54" wide. If less than 54" wide or fabrics requiring matching (stripes, plaids, prints, large patterns), additional yardage will be needed. Consult C.O.M. matrix on the Ordering C.O.M. and C.O.L. page for additional yardage needed. For C.O.M. fabric sent to KI-High Point on multiple rolls, add an additional yard of fabric per roll to the yardage requirements.

C.O.L. Requirements
Figure 18 sq. ft. of leather (C.O.L.) for each yard shown (i.e., 4.75 x 18 = 85.5 sq. ft.).

Contrasting Upholstery
When contrasting fabric is chosen, price at highest in-grade.

Minimum Fabric/Leather Quantity
Minimum order for fabric is 1 yard. Minimum order for leather is 1 hide (approximately 50 sq. ft).

Moisture Barrier
Moisture barrier is applied underneath the fabric cover as a means of protecting the foam.

C.O.M. Requirements
C.O.M. yardage requirements listed above are based on plain goods 54" wide. If less than 54" wide or fabrics requiring matching (stripes, plaids, prints, large patterns), additional yardage will be needed. Consult C.O.M. matrix on the Ordering C.O.M. and C.O.L. page for addtional yardage needed. For C.O.M. fabric sent to KI-High Point on multiple rolls, add an additional yard of fabric per roll to the yardage requirements.

C.O.L. Requirements
Figure 18 sq. ft. of leather (C.O.L.) for each yard shown (i.e., 4.75 x 18 = 85.5 sq. ft.).

Contrasting Upholstery
When contrasting fabric is chosen, price at highest in-grade.

Minimum Fabric/Leather Quantity
Minimum order for fabric is 1 yard. Minimum order for leather is 1 hide (approximately 50 sq. ft).

Moisture Barrier
Moisture barrier is applied underneath the fabric cover as a means of protecting the foam.

Chair Testing and Loading

The Affina II Recliners have passed all standard ANSI BIFMA tests for seating products, and in addition, the chairs also passed KI's bariatric test battery (see document KI-98829) which allows the chairs to safely accommodate weights of up to 750 pounds.

Field Replaceable Seat, Back, Ottoman and Armcaps

Replacement seats include new foam and upholstery and are Velcro Fastened to the seat. Backs are attached to the frame mechanism with a metal-to-metal hinge connection that allows for easy replacement. Removing two screws at the bottom of the back will allow lifting the entire back off the mechanism. Replacement backs come with complete wood frame, foam and upholstery. Footrest Ottoman replacements are fully upholstered and bolt on to the frame. Armcaps are attached to the arms using compression dowels for easy replacement. For full arm replacement. contact a factory representative.

UPHOLSTERY INFORMATION

C.O.M. Fabric

For C.O.M. fabric sent to KI-High Point on multiple rolls, add an additional yard of fabric per roll to the yardage requirement. Multiple rolls have shorter pieces of fabric on them and do not allow nesting and stacking of the fabric to achieve the best yield as is done with one large roll. This results in yardage shortages and requests for additional fabric from the client, which can hold up the order. For each roll that is sent, one yard needs to be added and needs to be added to one of the rolls, not separately.

Fabric Disclaimer

Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Product Modification Request written specifying the direction the fabric is to be applied.

Color Match

KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact Customer Service for details.

General Information

Wood Arm Caps
Wood arm caps are constructed of 5/4 select hardwood kiln dried to a moisture content of 5% to 7%, fastened to hardwood plywood panels. Joinery utilizes three (3) 1/2" x 1" spring steel dowels, screwed into position on the arm cap. Plywood arm panels are 1/2" thick plywood skins, inside and out. glued and stapled using mortise, butt, and lap joints throughout. Craftboard (.09 thick) is stapled over edges and bottom beneath 1/4" thick soft polyurethane foam padding.

Mechanism and Chair Frame
Rectangular steel tube frame ranging from 14 to 10 guage, is welded, or riveted, at all member connections and fully powder coated to seal frame. Steel frame arm and footrest mounting plates are 14 guage thickness. Frame is bolted to wood arms at 12 locations using 1/4"-20 machine bolts. Back frame is constructed of 1" laminated plywood with solid wood cross rails. Dowel and lap joints are utilized. Seat frame is 5/4 solid maple wood. Mechanism is all steel ranging in guage from 14-11 guage.

Recliner Back and Seat
Back is 1" hardwood plywood (7 ply) utilixing dowel and lap joints. Six (6) 3" woven web straps are stretched and interwoven across the seat and stapled. Sea Board mounts to steel seat frame using two (2) 1/4"-20 machne bolts. Propex woven polypropylene fabric covers the back surface openings. A layer of 1/4" thick soft polyurethane foam padding covers all non-cushioned surfaces.

Polyurethane Foam Cushions
Seat cushion is composed of 2.5 lb. 35 density high resilient polyurethane foam measuring 4" in thickness. A 1" thick slab of 1.5 lb. 14 density foam is laminated to the top and front edge. Back cushion is composed of 2.5 lb. 35 density high resilient polyurethane foam measuring 2" in thickness. A 1" thick slab of 1.5 lb. 14 density foam is laminated to the foam surface.

Upholstery Covers
Traditional upholstery methods are used throughout.

Central Locking Caster System
5" sealed, locking casters are activated using a foot lever, and are controlled by a series of steel and cast aluminum linkages inside the chair.

Optional Heat & Massage
Heat & Massage units are installed into the backrest and the seat of the unit. Control functions are performed at a built-in control unit in the right-facing arm. Three temperature levels are available for the heat option: low (37C/99F), medium (38C/101F), and high (39C/102F), with an automatic shut-off after four hours of operation. The vibrating massage modules are built into the backrest of the unit, with the controller managing four modes of operation: low location low vibration, low location high vibration, high location low vibration, and high location high vibration, also with an automatic shut-off after 15 minutes of operation. The entire assembly meets TUVRheinland and IEC 60601-1 ratings. The powercoard is a 14 AWG, 15-Amp NEMA rated three conducted SJT, with a three-prong grounded plug. A 72" length of exposed power cord extends from the back of the unit and is strain releaf mounted to the rear of the unit. Use of this product is not intended to offer any medical benefits, but rather supports relaxation, comfort, and convenience to the user.

Optional USB Charger (requires Heat & Massage selection)
The USB power module houses one 5V DC USB (type 2.0 and type 3.0 compatible) charging plug-in receptacle with 1-AMP DC total power (no data). The module is installed in the front of the right-side facing arm.

UPHOLSTERY INFORMATION

C.O.M. Fabric
For C.O.M. fabric sent to KI-High Point on multiple rolls, add an additional yard of fabric per roll to the yardage requirement. Multiple rolls have shorter pieces of fabric on them and do not allow nesting and stacking of the fabric to achieve the best yield as is done with one large roll. This results in yardage shortages and requests for additional fabric from the client, which can hold up the order. For each roll that is sent, one yard needs to be added and needs to be added to one of the rolls, not separately.

Fabric Disclaimer
Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Product Modification Request written specifying the direction the fabric is to be applied.

FINISH INFORMATION

Color Match
KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact Customer Service for details.

Chair Testing and Loading
The Affina II Recliners have passed all standard ANSI BIFMA tests for seating products, and in addition, the chairs also passed KI's bariatric test battery (see document KI-98829) which allows the chairs to safely accommodate weights of up to 750 pounds.

Field Replaceable Seat, Back, Ottoman and Armcaps
Replacement seats include new foam and upholstery and are Velcro Fastened to the seat. Backs are attached to the frame mechanism with a metal-to-metal hinge connection that allows for easy replacement. Removing two screws at the bottom of the back will allow lifting the entire back off the mechanism. Replacement backs come with complete wood frame, foam and upholstery. Footrest Ottoman replacements are fully upholstered and bolt on to the frame. Armcaps are attached to the arms using compression dowels for easy replacement. For full arm replacement. contact a factory representative.

C.O.M. Requirements
C.O.M. yardage requirements listed above are based on plain goods 54" wide. If less than 54" wide or fabrics requiring matching (stripes, plaids, prints, large patterns), additional yardage will be needed. Consult C.O.M. matrix on the Ordering C.O.M. and C.O.L. page for addtional yardage needed. For C.O.M. fabric sent to KI-High Point on multiple rolls, add an additional yard of fabric per roll to the yardage requirements.

C.O.L. Requirements
Figure 18 sq. ft. of leather (C.O.L.) for each yard shown (i.e., 4.75 x 18 = 85.5 sq. ft.).

Contrasting Upholstery
When contrasting fabric is chosen, price at highest in-grade.

Minimum Fabric/Leather Quantity
Minimum order for fabric is 1 yard. Minimum order for leather is 1 hide (approximately 50 sq. ft).
