

### Specifications:

**Material:** Available in machined 6061-T6 aluminum, C36000 brass, or 304 stainless steel.

**Cap:** Machined caps come in four styles, lock in place with one 18-8 stainless steel set screw, and are sealed to the body with a high temperature silicone O-ring. Regressed caps have drain holes for water drainage from top of lens if mounted in the up position. 'Flush Lens' cap styles incorporate a stepped lens to reduce the collection of water and debris on the lens. All caps accept up to three internal accessories, held in place by a stainless steel clip.

**Mount Canopy:** Available with the following mount options: MO3 (Machined Round Canopy), MO15 (Machined Square Canopy), and MO12 (Surface Mount Powered Canopy); and may be mounted in the up or down position. Stem is permanently attached to the mount canopy to prevent loosening. MO3 & MO15 mount options come mounted to a steel universal mounting ring for ease of mounting and adjustment on an industry standard round junction box (box and hardware not supplied). See mount specification sheets for more information. (Mount canopy must be mounted to an appropriate wall or junction box, in such a manner that is capable of holding the weight of the fixture. Junction box and hardware not included).

**Finish:** TGIC thermo set polyester powder coat paint available in 14 standard colors. On aluminum model, finish is applied over a corrosion resistant chromate conversion coating. Aluminum model available in one additional metal finish: Clear Anodized. Brass model available in three additional metal finishes:

Natural, Polished, and Aged. Stainless steel model available in three additional metal finishes: Natural, Polished, and Brushed.

**Socket:** GY-6.35 porcelain socket with 600V, 250°C, PTFE coated 18 ga leads.

**Lamp:** 12 Volt Bi-pin MR16 halogen up to 50 watts. (See **Certification** heading for wattage limitations.)

**Lens:** Tempered, clear lens, secured to cap with a high temperature, UV curing, silicone adhesive. Stepped lens is used in 'Flush Lens' cap style options to reduce the collection of water and debris on the lens.

**Certification:** CSA tested & certified to US and Canadian safety standards for wet location wall mount use (UL1598):

MO3 & MO15 mount options:

**WM1A - 50W Max. MR16 Halogen lamp.**

**WM1B - 37W Max. MR16 Halogen lamp.**

**WM1S - 20W Max. MR16 Halogen lamp.**

MO12 mount option:

**WM1A - 50W Max. MR16 Halogen lamp.**

**WM1B - 42W Max. MR16 Halogen lamp.**

**WM1S - Not available.**

**Notes:**

- See MO3, MO12, or MO15 specification sheet for mount details.
- Allowable wattage depends on model and application. See **Certification** heading above.
- MO12 mount options not available with WM1S.
- LED lamps available separately. Contact your Vision3 lighting CSR. ('Lens Accy' & 'Filter' options should not be used with LED lamps.)
- Specifications, certifications, and ordering information are subject to change. Please check website for latest specification sheets.
