Features

Aura is a superb die cast aluminium framed chair concept with distinctive character, proportions and presence, available with either injection moulded plastic seat and back, or with upholstery. The curvaceously contoured seat and back provide great comfort while adding to the pleasing aesthetics and universal appeal of this design. The design offers arms, with or without 'soft touch' pads, as well as linking. In its plastic version, with painted frame, Aura is also suitable for exterior use and is available in six colours.

Finishes

Frames are polished aluminium (this should not be confused with polished chrome) or are Polyester powder coated in RAL 9006 Silver. This Polyester finish is suitable for use outdoors. The plastic seats and backs are available from stock in six colours; Black RAL 9011; Cream RAL 1013; Olive Green RAL 7008; Ice Blue BS 4800 18E49, Orange RAL 2000; and Dark Blue RAL 5003. The under seat shroud, arm/link connector blocks, and glides all come in Grey RAL 7040 as standard. 'Soft touch' arm pads are available in Black as standard. Upholstered seats and backs are available in a wide range of contract quality fabrics or leather.

Marketplace

A truly striking multi-purpose design that will be equally at home in meeting rooms, conference facilities, restaurants or an outdoor café terrace. Aura is a high quality, yet excellent value aluminium and plastic based chair that is a match for similar products from the likes of Driade, Alias, Kusch, Bonaldo, Amat and others.
