### Notes on the optional use of Option A Woods and Finishes

Option A Woods are species, not finishes. By default, they are offered as shown on the samples and in the finish selector with little or no stain added, to show their natural beauty. Option A Woods can also be finished in the standard MP-Finishes, as long as the Option A Wood is lighter than the standard finish you select.

**Refer to Finish Selector for available finish selections and limitations and stone selections**
