MEO...a modern twist on the classic tuxedo

Wolfgang C.R. Mezger always adds something extra to his designs and with the MEO Lounge he packed a lot into a small package. He starts with a modern twist to the classic tuxedo styling by offering rounded corners and a two-piece construction. This construction allows for the application of different textiles and leathers to add various aesthetics to any lounge environment.

The offering of the MEO Lounge Series is simple, yet it offers great functionality. The single lounge chair can be a fixed unit, but can also be ordered with a 360° swivel mechanism. This mechanism has a memory-return that will bring the chair to its original position for a neat appearance.

Other upholstered pieces are a love seat and a large love seat, which is a two-and-a-half seat unit that offers a smaller footprint than a typical sofa.

A low square table offers an elegant statement with leather wrapped sides and top choices in glass or veneers. It is also available in a rectangle version. The side table has a square base and round column with a square top that is available in glass or veneer.

For more information on the MEO Lounge Series please visit our website.
