LIPSE TOO ...plush comfort with style

Utilizing the classic shell shape of the award-winning Lipse Series, a fully upholstered version was created to offer exceptional seating comfort in the new lounge series...LIPSE TOO. The larger scale of these chairs are appropriately designed for pull-up chairs, which when combined with the complimentary tables create an inviting lounge environment.

LIPSE TOO...a valuable switch

The tablet option for the pedestal base chair offers a unique function that pivots 360°, thus allowing the tablet to serve a right-handed or a left-handed person. A valuable switch from having to specify it one way or the other. The tablet is offered in a granite top surface for elegant settings, or a solid core plastic that offers a more utilitarian surface.

## LIPSE TOO ...complimenting tables

To compliment the classic styling of the Lipse Too seating, two different bases — Pedestal and Four-Leg — with round and rounded square top surfaces are included in this series offering a unique low table height. Both tables are at 15<sup>3</sup>/<sub>4</sub>" in height which is more in keeping with a cocktail table height. The tables are offered in a variety of top surfaces to blend with any decor.

## LIPSE TOO...

love seat for cozy corners

The newest addition to the Lipse Too Series is a larger scale love seat that is constructed of an extended plywood shell with the same classic styling as the original Lipse chair. This love seat has a thicker upholstery treatment that is necessary to set correct proportions for the wider scale. The two shells are still joined by aluminum strips in the same manner as the lounge chair.
