MIKADO LOUNGE ...priced for comfort

The original concept of this lounge series focused on designing a chair that not only offered contemporary styling, but also a price point that reflected the needs in today's marketplace.

MIKADO LOUNGE ...sleek profiles

While the sleek profiles of the Mikado Lounge Chairs in high or mid back versions are aesthetically pleasing, they also offer comfort with a slight rocking motion enabled by four rubber nodes under the shells. In addition to the chairs, a matching footrest, large round cocktail table, and two side tables enable the complete function needed for typical lounge areas.

Tables are offered in glass, laminates with t-mold edges, and wood laminates — beech, cherry, maple, oak, and sycamore.

Metal frames for chairs and tables are available in a new nickel finish called Sterling. It has a bright, satin finish that is similar to stainless steel without the cost. All standard powdercoat finishes are also available on the framework.

All tables at height of 19 1/8", all chair seat heights at 15 1/4".

Arm covers available in Davis Leather Collection or any Ultrafabric Collection.
