WEBB MEETING ...the working lounge meets alternative conference

A new concept for alternative conferencing...relaxing support for the way we need to meet and communicate in today's contemporary office culture. Start with comfortable, flexible, and stylish furniture that can go from an individual working at their own pace...to a complete training room with mobile power, data, network, and computer storage for total communication connections. No matter how complex the alternative conference requirements may be, Webb Meeting has a solution for your communication support.

shown bottom: three tables from above brought together for a group meeting.

WEBB MEETING...it starts with a classic design for a lounge chair

Davis' "trademark" webbed back from the original Webb Chair Series was put to task once again in the new Webb Meeting Chair. The low sleek design of this frame creates a classic look with its triangular arms and comfortable lounge pitch. This chair is offered with glides or casters, and may be specified with a pivoting tablet arm that can be used for individual work space.

WEBB MEETING...it continues with tables in the right scale

It is one thing to sit and be relaxed, but the table support must be scaled to this casual atmosphere. Webb Meeting Tables were designed at a lower height, smaller scale, and even mobile when necessary to blend with the Webb Meeting Chairs. These tables are offered in half round, round, square, and elliptical to accommodate from one to ten people with multiple table configurations.

The tops may be specified in ash, beech, cherry, maple, oak, and laminates.

WEBB TEC...

a compact, mobile way to stay connected

Simple, yet very innovative...the Webb Tec Unit offers complete communication support for computer, network, and power for up to four guests in addition to the on-board computer.

This unit handles the new technology of flat screens and wireless connections. A pivoting monitor arm will accept a flat screen that is VESA compliant for connection. It is recommended that a wireless keyboard, mouse and network hub are used to offer the best in convenience and mobility.

For quick communications, up to four guest may plug in their laptops for power and data. A voice jack is also supplied for convenient conference calls.

It's mobile...it's simple...it connects any meeting to today's technology.

WEBB MEDIA...

takes it to the max for meetings

If the meeting calls for the CEO's to gather for a preview, the Media Chair and Media Table create the perfect environment. This grouping offers an even lower lounge and cocktail table height, which can keep the design sophisticated in a more relaxed, business atmosphere.

Ottomans and a small side table are also available for individual comfort.

shown: four - WB-9020-SC Media Chairs / Satin Chrome / WB-Black, WB-9222-MM-SC Media Round Table / 7000 Maple / Satin Chrome.
