hb

Named for the low-key yet sophisticated coastal city of Huntington Beach, HB reflects modern style, finesse, and comfort. With its clean lines HB brings high design down to earth. The mesh version features a double layer of mesh to support and conform to any back shape; the mesh evenly distributes body weight while eliminating pressure points. Choosing fabric, leather, vinyl, or one of six designer mesh colors to dress HB will change its personality. Options include mid back, high back, multiple arm and control choices, and a seat slider.
