Product Overview

Introduction

By removing the center vertical mullion between a pair of casement windows, the wood French casement allows for unobstructed views and maximum light visibility. Select from the wide range of options and features that are available for our standard casement window, or remove the handle and use friction hardware and latches for an old world style. Pacific Architectural Millwork also offers custom glazing and grille patterns for a decorative touch.

Hardware Options

The wood French casement window comes with stainless-steel hardware standard, which is suitable for coastal applications. Hardware is available in your choice of finishes:

- Polished Brass
- Matte Black
- Oil-Rubbed Brass
- White
- Brushed Chrome
- Satin Nickel
- Antique Brass
- Polished Chrome

Custom hardware and handles are available.

Glazing Options

Standard glazing for the wood French casement window uses 5/8" overall insulated glass. Custom glazing and tinted glass are also available.

We offer two different edge details:

- Contemporary
- Traditional

See the General Info section for more details.

Wood Species

Our standard wood species are the following:

- Pine
- Vertical Grain Douglas Fir
- Mahogany

Alternative and exotic wood species are also available.

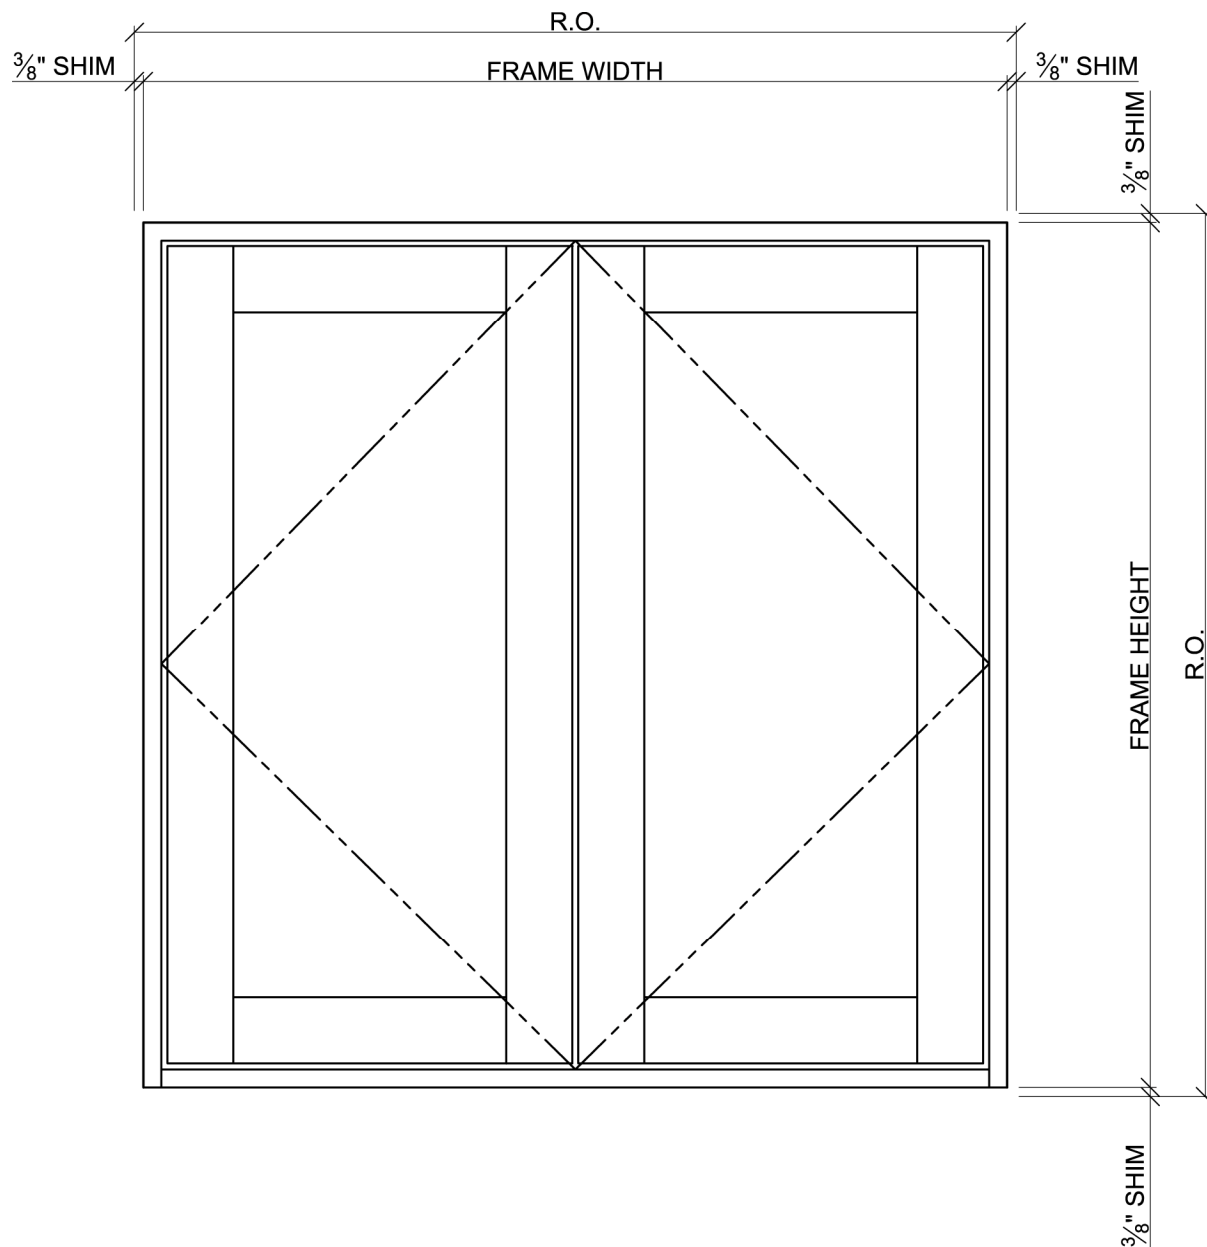

Other Options

The wood French casement is also available with decorative true-divided or simulated-divided lites and brick or stucco exterior moulding. Contact Pacific Architectural Millwork for additional options.
