

Sierra™

More chair. Less money.

Wide Range of Color Options

Select from our broad range of seating fabrics to perfectly coordinate your Sierra chair with the rest of your office decor.

Comfort and Durability

Waterfront seating edge improves leg circulation, increases mobility, and is especially beneficial for active tasks such as filing. Seats are made of formed plywood for added strength and durability.

Adjustable Arm Options

Order your Sierra with adjustable arms or without arms to fit your budget and the needs of your staff. Swivel seats and flexible height adjustment are standard; tilt-lock control and back-depth adjustment are specific to the model.
