

PREPARED FOR CHANGES

Agility offers growing businesses a flexible furniture solution for quick, easy changes and reconfigurations throughout the years. Shells ship flat for easy handling and assemble easily with a Phillips screwdriver. Pedestals deliver fully finished and assembled for immediate use – just slide underneath shells. All pedestals are non-locking and non-handed for use on either side and can be relocated at any time. Five-sided drawers feature all-wood boxes with replaceable fronts, integral fingerpulls and smooth-action, steel ball-bearing drawer slides. File drawers feature full-extension drawer slides and legal/letter filing. Adjustable leveling glides standard.

NON-HANDED

Agility non-handed desking provides long-term flexibility and reconfigurability for time and money savings throughout an organization. Need a right-hand unit to be a left-hand unit? Just slide the pedestals and relocate the bridge or return shell. Two employees switching offices? Leave desks and credenza shells in place, just relocate the pedestals... a quick job that eliminates unloading and reloading drawers and movement of large furniture pieces.
