TIMELESS MODERN DESIGN

The Sensation veneer collection offers a contemporary combination of versatility, function and aesthetics. A close inspection of Sensation reveals clean and contemporary crown molding detail with oval pulls. Three-ply radial cut veneer is painstakingly finished in your choice of a warm Honey Cherry or a rich Rouge Mahogany finish. Extra open pedestal in connecting corners of single pedestal desks and credenzas features one grommet in the inside panel for CPU storage applications. You have your choice of the 4-door overhead unit (in aluminum/frosted, wood or a combination of wood and aluminum/frosted doors) or you may select the New Tri-hutch with aluminum/frosted center doors and wood tower doors. The Tri-hutch also offers the option of an open or closed hutch back to suit your specific application. Sensation offers all the richness and quality expected in executive office environments.
