

Terms and Conditions

Seating Warranty

JSI warrants to the original purchaser that each piece of furniture will be free from defects in workmanship given normal use for a period of 12 years of single shift service. Pneumatic lifts and casters are warranted to be free from defects in materials and workmanship for a period of 5 years and textiles for 2 years. JSI will, at its option, repair or replace any defective merchandise within the terms of the warranty.

JSI makes no expressed or implied warranties as to any product, and, in particular, makes no warranty of merchantability or of fitness for any particular purpose.

This warranty does not cover:

- Natural variations in color, grain, or texture of wood and covering materials over which JSI has no control.
- Damage caused by an installation or transportation company.
- Accident, user modifications, misuse or product neglect.

Matching Finishes

Due to the natural characteristics of wood, environmental effects, and material upgrades, we cannot guarantee exact finish matches on existing furniture previously ordered from JSI.

If an exact match to existing furniture is required, it must be specified so that the proper procedures can be followed to ensure an acceptable finish. We will accept no liability for the finish if this procedure is not followed. We reserve the right to make changes in a finish formula if we believe the change will improve the quality or appearance of our furniture. Products cannot be replaced due to these natural variations.

Natural Variations in Wood

Every tree has unique and defining characteristics, like fingerprints. These characteristics include differences in color, grain configurations and texture. When specifying natural or light finishes, these natural markings are not masked and are easily detected. Maple and cherry species have a high degree or uneven distribution of grain. With this in mind, we hope you enjoy and appreciate the beauty of each tree's fingerprints. In addition, lighter finishes may discolor and darken when exposed to ultraviolet rays. Products cannot be replaced due to these natural variations.

Special Finishes

Add a one time charge of \$226 list per order for any non-standard wood finish. Written approval is required to proceed with custom finish order.

We reserve the right to decline any request for a custom finish if we feel that we will be unable to match it due to limitations of the wood species or of the sample provided to us.

Because of the natural variations of wood, minor differences in color may occur.

Care of Upholstery Surfaces

Cleanability will vary based on the fabric type. For best results, a professional service is recommended. Dirt and crumbs may be gently brushed or vacuumed off. Spills should be wiped up immediately with a cloth. Vinyl textiles can be cleaned with warm soapy water and then wiped down with a warm damp cloth. For more details on any JSI carded fabrics and vinyls, please visit our website at www.jsifurniture.com or consult the back of the appropriate swatch card for cleaning codes and any specific instructions. For COM materials, consult with the individual textile manufacturer for cleaning codes and any specific instructions pertaining to your particular fabric.

Maintenance of Mechanical Parts

Clean any lint or debris from the moving parts of the base mechanisms. Mechanisms have been designed and tested to not require lubrication under normal conditions however lubricant can be used if needed.

Wood Edges and Veneer Surfaces

Clean all surfaces frequently with water dampened soft cloth, moving the cloth with the grain direction. Immediately remove any liquids that come in contact with wood surfaces with a blotting action to absorb liquid. Buff dry. Lift objects to move them, never pull them across the finished surface. For an additional safeguard, use a protective surface pad. This will ensure a lasting finish by protecting your furniture from possible damage caused by pens, cups and sharp objects.

Avoid exposure of furniture to extremes of heat and cold, or to wide humidity variances. Avoid exposure of furniture to strong sunlight. Avoid exposure of furniture to harsh solvents such as nail polish remover, acetates, etc., as it will cause finish deterioration. If using a protective glass top, place spacer pads under the glass top to allow the wood to breath.

Metal finishes

Wipe smooth powdercoat finishes and textured metals with a damp cloth. For stubborn stains and grease marks, use soap and water. Lightly brush textiles metals with a soft, dry brush to remove dirt.
