CAUTION—RISK OF FIRE

This product requires installation by a qualified electrician. Before installing be sure to read all instructions and DISCONNECT POWER TO THE ELECTRICAL BOX.

Install the Fixture Base

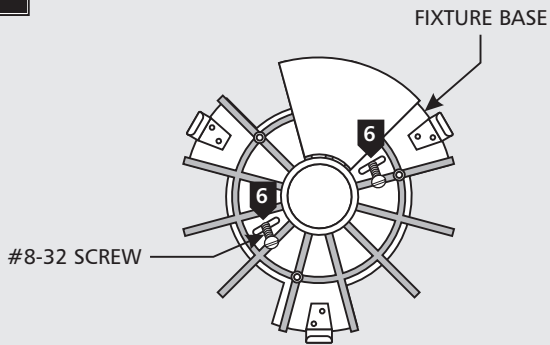

- 1 Pull the fixture base out of the shade.

- 2 Connect the fixture to a suitable ground according to local electrical codes.
- 3 Connect the black fixture wire to the hot power line wire with a wire nut.
- 4 Connect the white fixture wire to the neutral power line wire with a wire nut.

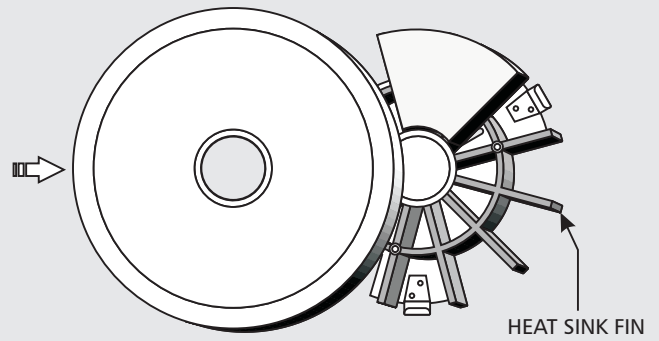

Attach the Cover

1C

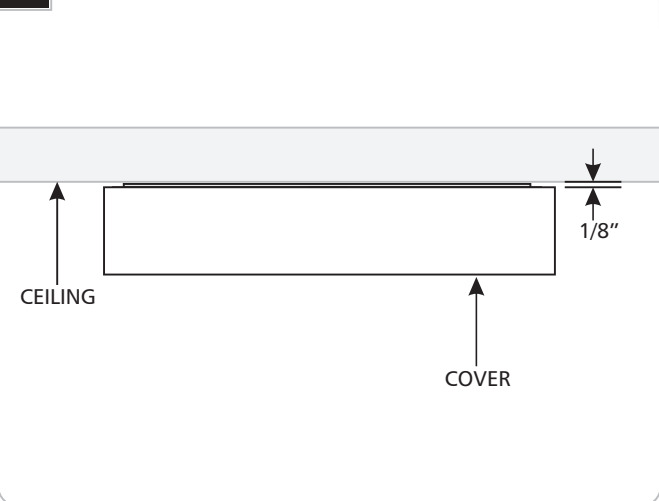

- 5 Place all wires and wire nut connections inside the electrical box.
- 6 Attach the fixture base to the electrical box with the two #8-32 screws provided.

2A

- 1 Align the plastic tabs inside the cover with the heat sink fins and push the cover onto the fixture base.

2B

- 2 The fixture is designed to have a 1/8" gap between the cover and the ceiling. **Do not attempt to close this gap.** It is essential for the fixture to function properly.
