

PENDANTS

GENERAL PRODUCT INFORMATION:

This product is suitable for damp locations.

This product can be dimmed with a standard incandescent dimmer.

Attach the shade to the socket assembly before installing the canopy.

Install the Lamps

Use **MAX** 120 Volt, 75 Watt type A19 medium base lamp with each socket.

- 1 Screw a lamp into each of the four sockets.

Install the Shade

- 1 Unscrew the cap from the top of the socket assembly and slide the cap nut off the cable.
- 2 Feed the cable through the center of the shade support until it rests on the end of the socket assembly.
- 3 Feed the cable through the center of the cap and screw the cap back onto the socket assembly.

Install the Glass Disk

- 1 Loosen the knurled nut and adjust the nipple height so the back of the cap is level with bottom of the shade.
- 2 Tighten the jam nut firmly against the bushing.

- 3 Remove the cap.
- 4 Place the glass disk onto the nipple and secure it against the shade pegs with the cap.

NOTE: Do not over tighten the cap. Overtightening may break the glass and result in injury.
