The Vision Fireplace, designed by Gavin Scott Design of England, offers a fresh simplicity in fireplace design. With an open front face and clean lines, the Vision showcases the beauty of basic shapes.

Vision shown with no surround.
Design your own or leave as is.

Vision shown with sandstone
cast stone surround, 54" L x 38" H

Your Vision Fireplace can be finished in a variety of ways. Surrounds are available as options in limestone and sandstone cast stone and in stainless steel.

Other options are to design your own surround in any non-combustible material – such as tile or stone – or simply bring non-combustible wall board to the opening for a real ‘hole-in-the-wall’ look.

Whatever finishing method you choose, Vision will enhance your room by allowing your style to shine through.
