Clip Chair

Whilst strolling around a Bulgarian market, a small, foldable basket caught our attention. Single slats were beaded on ropes to form 2 hinged surfaces, which could be transformed into a curved 3 dimensional object. We improved this stunning mechanism, both technically and visually, to create a foldable lounge chair - the 'Clip Chair'. When open, it's straight identical slats form a spacious seating space of supreme comfort. This simple design not only makes the chair highly practical, but also creates a sculptural object of outstanding aesthetic value, whether folded or open.

Designer	Blasius Osko & Oliver Deichmann
Year of design	2006
Material	Solid Beach frame and stainless steel components.
Additional	This item should not be stored outside. Limited outdoor use.

Detailing

The clip chair folds completely flat for easy storage when not in use.

Product weight:
10 KG | 22 lb
With packaging:
12 KG | 26,5 lb

Cleaning Instructions

The Clip chair can be cleaned with a damp cloth and most good multi-surface cleaners. If the chair has gathered dust it is best to remove this before proceeding with liquid cleaners. To do this Moooi recommends using a feather duster or a soft dry cloth. Always read the label of any cleaning product you intent to use on or near any item from the Moooi collection.
