Detailing

The edges of the HPL and LPL tops are always black.
HPL tops are also for outdoor use.

Technical

All Container table tops all attach to the container foot in the same way. The Container concept is that sand or treated water can be added to the foot to give it strength and stability. Water must always be treated with an anti-algae additive to prevent the water from becoming stale. There are 5 Hex-bolts on the underside of each table which align with 5 equally spaced holes in the mounting disk.

Maximum divided load per m² = 100kg

Cleaning Instructions

Moooi recommends using a trusted household furniture polish or a regular household spray cleaner and a soft, non-abrasive cloth to create an even sheen. Always read the label of any cleaning products you wish to use on Moooi furniture.
