# Soft Touch Powder Coatings

**Velvacoat** powder coatings provide an incredibly soft touch finish. These powders are exceptionally durable and corrosion resistant. Velvacoat is the ideal finish for high design items such as furniture, window frames, store fixtures, patio furniture, bike frames, bottles and any product needing that special touch. They are reclaimable, safe, environmentally friendly and, of course, backed by the technical and service expertise that separates Protech from the rest of the industry.

## ADVANTAGES

- soft-touch feel
- available in a non-tarnish **e-bond** metallic
- Corrosion resistance and outstanding durability
- available in a wide range of colors
- excellent chemical, stain, and scratch resistance
- superior over-bake resistance
- unique "reflective" appearance

## APPLICATIONS

- Store fixtures
- Bike frames
- Patio furniture
- Bottles
- Automotive wheels
- Design furniture
- Aluminum extrusions
