

Sign  
Piergiorgio Cazzaniga

A Sign of the times, Piergiorgio Cazzaniga's seating collection combines high technology with organic shapes. Sign has a beautiful fluidity of curves and a balancing of positive and negative spaces. Made for indoor and outdoor use, each piece has been drilled for water drainage. Four small feet are included to keep the integrity of the base. The collection includes a chaise, lounge and chair made of rotation molded polyamide finished in gloss white, red, yellow and black.
