

CHAMBERLAIN CASEGOOD SERIES

HBF

CHAMBERLAIN CASEGOODS

The Chamberlain Casegood Series offers sophisticated styling coupled with highly covered, quality wood working details. The design team of Lisa Bottom and John Duvivier has incorporated functional requirements of the modern workplace environment with transitional and traditional private office elements to create a variety of aesthetic options. Chamberlain casegoods, and the accompanying conference tables, provide the appropriate balance of craftsmanship, technological adaptability and timeless design for today's management and executive offices.

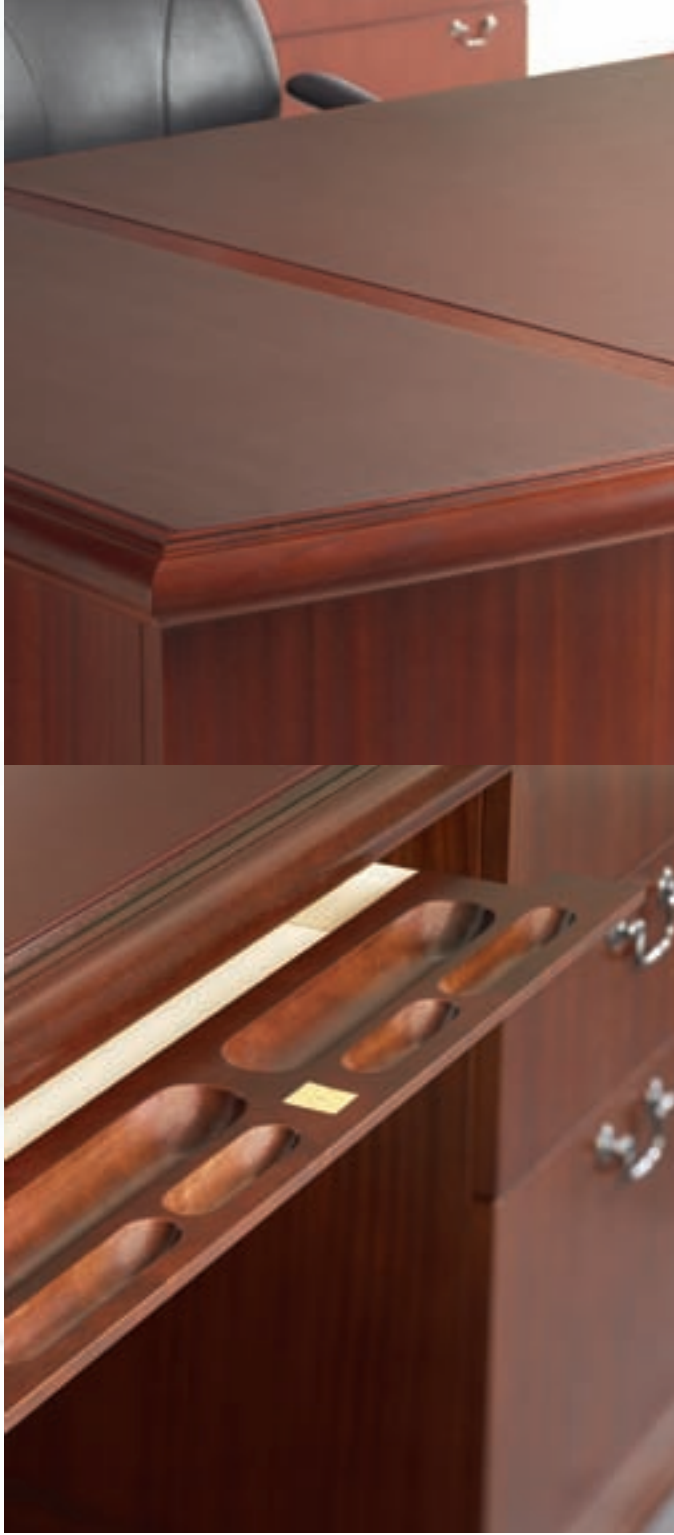

Multiple private office configurations may be specified by integrating the extensive offering of Chamberlain components. The standard credenza with overhead storage, project shelves and tack board is enhanced by a P-shaped desk extension anchored with a wood cylinder base. The units feature the Winston edge detail and are finished in HBF Butterscotch on anigre veneer.

02

Chamberlain bow front, double pedestal desk with leather inset top is complemented by vertical storage units with wood framed doors. The credenza is capped by double high overhead storage featuring wood framed seeded glass doors, interior glass shelves and down lights. The sapele veneer is finished in HBF Amber.

03

Desks are available with an optional three-piece leather inset top. Center pencil drawer with wood pencil and paper clip tray may also be specified as an option.

04

U-shaped Chamberlain casegood configuration, featuring the traditional Bennett edge detail, is shown with Bowman drawer hardware and Colwin pulls in polished brass. The double high workwall features a partial door tower cabinet along with overhead and vertical storage units. Configuration is finished in Centennial on cherry.

05

The partial door tower with clear glass shelves and down lighting in the open area provides an elegant aesthetic detail for the private office.

06

A printer cabinet pedestal provides concealed printer and paper storage while maintaining the traditional elegance of the Chamberlain collection.

08

Project management shelves beneath the overhead storage allow open storage to meet the user's organizational requirements. This Chamberlain configuration has the Clayton edge detail and corresponding crown molding; walnut species is finished in HBF Nutmeg.

07

The quarter-boat shaped desk extension with panel base is a subtle and attractive detail when an open office aesthetic is desired. The drawers below are accented by Johnston hardware in a satin nickel finish; Chatham pulls are used on storage doors.

10 This traditional office configuration, constructed with walnut veneer in HBF Honeycomb, showcases curved etageres with open shelving. The overhead has additional open storage and framed doors with clear glass inserts. A classic table desk with Bennett edge detail exemplifies the clean aesthetic of the collection. HBF's Regent executive chair is the perfect complement for this environment.

69

Overhead cabinets are available in single and double high configurations; each may be specified with a flat wood panel door, a framed wood panel door, or a framed door with clear glass or seeded glass inserts. Interior glass shelving is enhanced with the down lighting option.

Chamberlain casegoods are complemented by an extensive group of conference products. This 48x120 conference table features the Brookford edge detail and incorporates power/data access. HBF Cocoa on walnut.

12

Chamberlain round and square conference tables are available with and without power/data access and are ideal for small or informal meeting areas.

13

Chamberlain reception desks make an elegant statement as clients enter your office environment. In addition to the bow front transaction shelf, this reception desk features a recessed curved modesty panel with diamond pattern veneer. Other standard reception desks are available as well as custom configurations.
