

THE MOTIVE CONFERENCE SERIES

HBF

Inspired by mid-century modernist practicality, the design team of Ayse Birsel + Bibi Seck has created the Motive Conference Series for HBF. Designed to accommodate today's conferencing requirements from the private office environment to the formal boardroom, the tables are available in a variety of wood veneers, laminates and solid surface materials with multiple edge detail options. In addition to the wide range of standard sizes and shapes offered, custom tables are also available. Power/data connections can easily be added to meet current and future communication requirements.

THE MOTIVE CONFERENCE SERIES

Motive arched boat shaped conference table, 168 OW x 64 OD, in HBF Ligno-Grain veneer. The graceful polished aluminum bases are enhanced by cylindrical wood shrouds.

02

Motive 54" diameter tables can be adapted for various environments and user needs by specifying a number of top options. HBF Ligno-Grain veneer top with knife-edge detail; Alabaster White solid surface top with edge groove to accommodate a protective bumper insert; Alabaster White solid surface top with Ebony Skies contrasting solid surface edge detail.

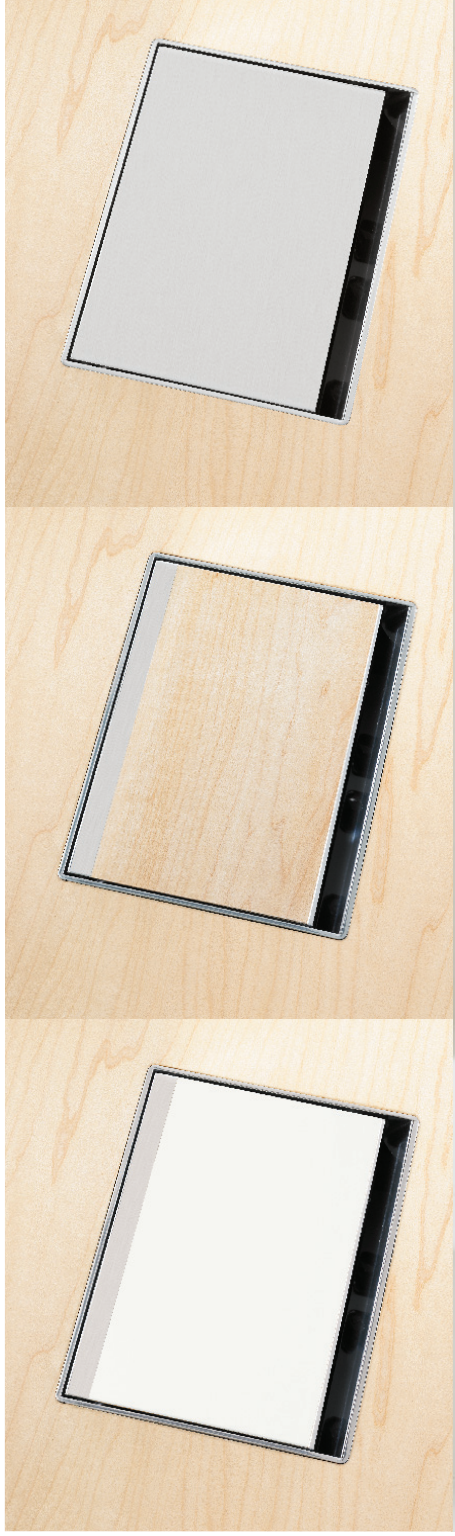

03

Motive round conference table in HBF Ligno-Grain veneer with wood edge groove, the polished aluminum X-base is shown with the optional wood veneer shroud.

04

Conference tables are available in round, square, rectangular and arched boat shapes. This Motive 120OW x 48OD arched boat table shows the beauty of the highly polished aluminum die cast base without the wood shroud. These bases are 100% recyclable and contain 42% – 48% recycled aluminum content.

Alternate wire management for conference tables with power access is accomplished with a mesh cable base insert. This allows power to be hard wired or soft wired as requirements dictate while providing a clean aesthetic.
