

## Go Specifications.

Go is freestanding and mobile, bringing flexibility to active workspaces and versatility to the workplace. Adaptable, attractive and effortless style, Go can stand alone as an independent workstation or can be linked with Cosmopolitan, Rev, Panelink and Metropolis.

### Freestanding Tables

- Tables are available in 17 unique shapes and can be used on their own to create mobile offices, as an accessory to other Tayco product lines, for training room purposes, and to create impromptu meeting areas.
- Tabletops are fabricated from thermally fused melamine with 45lbs industrial grade composite wood core.
- Tabletops come standard as 1" thick with 24 laminate finish options finished with a choice of 24-3mm vinyl worksurface trims. All laminates come with a recommended matching vinyl trim including vinyl edgebanding to match wood grain laminates.
- An optional 1.5" thick upgraded surface is also available in 12 laminate finishes and three decorative edge details.
- Tabletops are available in 24" and 30" depths and widths from 30" to 78" depending on the table shape. Nonstandard sizes are available upon request.
- Tables come with an optional perforated metal modesty in a choice of 9 paint colors.
- Table legs can be specified as stationary or mobile and are available in 9 paint colors.
- Mobile legs come equipped with 4" lockable casters.
- Legs have up to 4" in height adjustability. Leg height is adjusted by rotating the black band on the bottom of each leg. The total height of tables adjusts from 28¼" to 32¼".
- When 1.5" thick worksurfaces are specified, the total height adjustability of the tables ranges from 28 ¾" to 32 ¾".
- Tables can be attached by means of a ganging mechanism to enable individual tables to be joined together for use as a large meeting table.
- Legs are attached to the table top by means of a metal plate and screws.
- Tables have the ability to attach a clamp-mounted accessory bar.
- Frosted acrylic privacy screens can be used in conjunction with Tayco's table-mounted accessory bars. The acrylic screen is 19" high and comes in widths of 18" to 60" wide.

### Mobile Privacy Screen

- Mobile privacy screens are 72" high and are available in 36", 48", and 60" widths.
- All screens come with a tack board, and a magnetic whiteboard and space on either side of the screen to hold markers, board eraser, etc...

## Go. Momentum in the workplace.

- Accessory bars are also optional on all screens.

### Electrical Components

- All electrical components are based on NEC standards and are therefore UL and CSA certified.
- Electrical receptacles and voice/data communication kits can be secured to the desktop via clamp. Power/communication modules can provide either 2 electrical receptacles, a telephone jack, and a network/data jack, OR 4 electrical receptacles, 2 telephone, and 2 network/data jacks.
- Electrical power modules are rated for 15 Amps.
- A power bar is used to electrify the system.
- A black vertical wire manager is available to house cords and cables as they travel from the desk-height power module to the power/cable source.

### Go Pedestals

- Go offers a choice of 6 different types of mobile pedestals including two types of upholstered cushion pedestals. Duo-purpose upholstered pedestals can be used as a secondary seat in the workstation as well as for storage.
- Mobile pedestals are fabricated from thermally fused melamine with 45lbs industrial grade composite wood core.
- Pedestal drawers are available with combinations of 6" and 12" high drawer fronts. Box drawers have ball bearing full extension slides and include a pencil tray. File drawers have steel ball bearing full extension slides and rubber stoppers. File drawers have the option to file legal or letter size documents.
- Drawer slides are used to attach the drawer to the case. Drawer slides have the capacity to support a load of up

to 100lbs. Drawers and slides are removable and interchangeable on-site.

- All pedestals come equipped with a locking mechanism. Stations can be keyed-alike upon request and a master key made available to the facility manager.
- Mobile pedestals come equipped with a fifth wheel on the bottom drawer to ensure stability, in place of a counter-weight.

### Triple File Cabinets

- Triple files are available in two types.
- The 3-file drawer triple file comes with a built-in anti-tilt mechanism, which only allows one drawer to be opened at a time for safety purposes.
- A triple file with a file/file base and closed top storage is also available.
- Triple files are fabricated from thermally fused melamine with 45lbs industrial grade composite wood core.
- Triple files come equipped with a locking mechanism. Stations can be keyed-alike upon request and a master key will be made available to the facility manager.

### Storage Cabinets

- All storage cabinets are mobile. Storage cabinets are available in a variety of sizes and combinations of filing; top double door storage, open side storage, and closet storage with coat rod, and closed storage with and without shelves. They come complete with organizing components to allow for the storage of paper, forms, coats, or other items.
- Cabinets are comprised of 11/16" thick thermally fused melamine with 45 lbs density wood core.

## Go. Momentum in the workplace.

- Box drawers have full extension steel ball bearing slides and include a pencil tray.
- File drawers have full extension steel ball bearing slides and rubber stoppers and are capable of filing legal and letter size documents laterally, or letter size documents front to back.
- Drawer slides are used to attach the drawer to the case. Drawer slides have the capacity to support a load of up to 100lbs. Drawers and slides are removable and interchangeable on-site.
- All cabinets come equipped with a locking mechanism. Stations can be keyed-alike upon request and a master key made available to the Facility manager.

### Glow Cabinets

- Glow cabinets come with frosted acrylic glazed doors enclosed in a metal frame finished in a choice of 3 paint colors.

### Laminate, Vinyl, and Metal Handle Finishes for Filing and Cabinetry

- Filing and cabinetry are available in 24 laminate finishes. Drawer handles are available in six decorative options and five metal finishes. Laminates are finished with a combination of tape matching the laminate, and vinyl edge banding. Vinyl is available in 24 standard colors.
- Doors and drawer fronts may be specified with a different laminate than the file or cabinet casing.
- COM laminates are also available upon request.

### Accessories

- A variety of organizing tools can be hung from accessory bars without the use of tools. Accessory bars are available in widths ranging from 18" to 60" at 6" increments. Accessory bars are connected to the tabletop

via a mounting clamp.

- Accessory components include three-division sorters, both legal and letter size, 2 different phone tray sizes, binder and file organizers, paper easels, pen clip trays, multimedia organizers, headset or photo holders, and pencil holders.
- Accessory bars are made from extruded aluminum.
- Accessories are fabricated from laser cut 18-gauge steel and have a circular decorative detail.
- A 2" high pencil drawer is available in black and provides ample storage without interfering with under-desk knee space.
- Articulating keyboard trays allow the user to swivel, lift, lower and tilt the keyboard tray from the horizontal position to a negative angle.
- Keyboard mouse trays come standard on keyboard trays and can be easily positioned on the left or right-hand side of the keyboard to accommodate the user.
- Under desk and mobile CPU holders are available.
- Desk-mounted swing arm task lights can be mounted to tabletops. Task lights are UL listed and CSA certified. They can hang from the bottom side of both open and closed shelving units.

### Certification

- Go is GREENGUARD Certified for indoor air quality and meets the emission level requirements of LEED Credit 4.5 and the BIFMA x7.1-2006 Conformance Standards (7).
