

Mouette suspension asymmetrical and symmetrical

Wilmotte & Associates

Cable suspended luminaires for indirect and direct diffused fluorescent lighting.

- opal white, wing shaped diffuser constructed of a single piece of polypropylene produced using roto-form molding technology
- light distribution: 74% direct and 26% indirect
- diffuser support in white powder coated steel provides access to lamping
- suspension cables and support ends in stainless steel with grip-lock connectors for quick height adjustment at installation
- central electrical feed with thermoplastic molded canopy mounting to standard electrical junction boxes
- support cables mount directly to rigid ceiling surface (hardware not supplied)
- equipped with thermally protected, class P, high power factor 120V electronic fluorescent ballast
- for 277/347V electronic fluorescent ballast, dimmable electronic ballast, and emergency lighting options, please consult your Artemide Sales Representative

for additional information on this model, please refer to the Artemide Architectural Binder
