

Once a local hinge maker. Now a global solutions provider.

There once was a time when the words *Hager* and *hinge* were nearly synonymous.

Today, however, Hager Companies is so much more than just the St. Louis hinge manufacturer that helped to open the American West in 1849. With 10 comprehensive product lines and more than 6,000 products, Hager's name can now be found in buildings not only across the U.S., but around the world as well.

As more and more people have learned over the years, choosing Hager helps guarantee a level of quality, reliability,

personal service and value you won't find with other brands. And while those qualities have helped us open new doors here and abroad, one thing that's never changed is Hager's commitment to our distributors, and our efforts to help you grow your business, just as we have grown ours.

Visit us during this year's DHI Annual Conference and Exposition at Booth #501 or at www.hagerco.com to learn more about our full line of door hardware products. To order Hager products after the show, just call your local Hager representative or 1-800-325-9995.
