TRACTOR STOOLS

The dynamic form of the stool evokes a warm, organic feel that symbolizes nature and invites interaction. The stool's shape is directly influenced by the ergonomics of a Swiss tractor seat. Carved from solid wood using techniques applied to the making of shoe lasts, it is then hand-finished by expert cabinetmakers.

The stool is lightweight, elegant yet informal, and supremely comfortable.

It is suitable for both residential or contract use. Can be used outdoors in teak. Covered terrace recommended.

Tractor stools above and below in Walnut and at left in Teak
