TOTEM

Burkhard Dämmer / Marivi Calvo

The Totem is fruit of the combination of the Poppy and the Pod. It is conceived for installing in great spaces given the monumentality of its proportions, as well as of the energy of it's smooth, tapered forms that hang forming an imposing column of great rhythm and harmony.

Due to the shape of the five different models of Poppys and Pods they can be combined as one sees fit, though, we have made three standard models: Totem5, Totem4 and Totem3. Other combinations are possible upon request.
