SHADE FINISHES

REF. CHW

Natural timber veneer

Miguel Herranz

Anfora is a lamp designed to motivate and capture the senses. It's three dimensional shade means that what looks to be outside is in, and what looks to be inside is out. The light itself bathes the shade creating both reflection and translucence.

Miguel has followed his tendency for organic form in this piece, creating once again a living light sculpture that reflects both the simplicity and the complexity of nature.
