Grey

**I-CLUB**

Burkhard Dämmer

**A lighting family for direct and indirect lighting in private and contract spaces. The CLUB lights serve for both, a warm surrounding created by the illuminated veneer and a good work light for tables and the work place.**

**Its elegant and compact design is equipped with T-5 technology to ensure a minimum of energy consumption. In this way the CLUB family achieves a duality between the warmth of ambient lighting and the illuminating power of fluorescent lights.**

**The CLUB family is made up of suspension, table, floor and wall models.**
