

Go with the curve!

Sure, straight lines are the shortest distance between two points...  
....but not always the most visually appealing!

Liven up your designs with Microcomb™ curved, lightweight architectural panels from Fulcrum Composites –the curved panel specialists. Ideal for exhibitions, signage, column covers, retail and museum display, ceilings, hanging elements and 3-D relief elements.

A wide selection of surface materials and curved configurations make the possibilities endless – from purely decorative, to semi-structural.

Give us a call today to discuss your requirements, or for samples or literature.
