Living System

Modular program, integrated with patented transformable system, to furnish the day and night areas. The versatility of the transformable system permits to project dynamic and multi functional solutions.

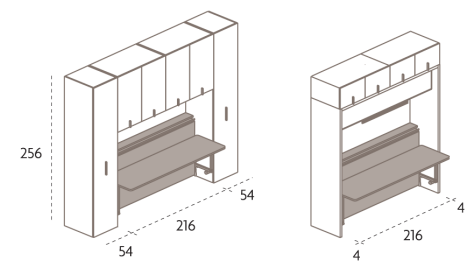

Cabrio

A transformable system ideal for a children's study area, Cabrio combines a large desk with a single bed. Without removing a single object from the desktop, the desk elevates using a simple motion, revealing a horizontally oriented fold-out bed. Available as a free-standing unit or integrated into the modular program.

All Measurements given in Centimeters

To convert to inches, divide by 2.54
