* The operating height of steam heated dryers is 6" greater than cabinet height.
** Where applicable, drive motor specifications are for non-reversing models only. Please consult factory for reversing specifications.
*** Exhaust ducting requirements vary with installation conditions. Exhaust connection size should not be used to determine ducting requirements.
**** Size of gas piping to dryer varies with installation conditions. Contact factory for assistance.
***** Air operated steam damper units must be provided with a clean, dry, regulated air supply of 80 psi +/- 10 psi (5.51 bar +/- 0.68)/

Refer installation and servicing to qualified, licensed personnel. Always read installation and operating manuals and consult local codes before installation. Protect machines with properly rated, inverse-time, common-trip, industrial-type circuit breakers ONLY. Warranty void if not properly installed. Advise when placing order if dryers are for installation at altitudes in excess of 1000 feet above sea level, as this may require a gas-orifice change. Contact Wascomat for more information and availability of machines for electric services not listed. Specifications subject to change without notice. Wascomat assumes no responsibility for errors or omissions in this information.

DRYER CONTROLS

Wascomat
dryers will
blow you
away.

Built to last and engineered to perfection.

Gas saving Wascomat commercial dryers are meticulously designed to meet the heavy demands of a self-service laundry environment—and with widths as narrow as 28 1/2", a 36" door is no problem! Precision-engineered for efficiency, ease of use, and superior drying results, your customers will love the fast drying and user-friendly controls. They'll also notice less wear and tear on their clothing. Wascomat is your best choice for reliability, durability and customer satisfaction.

Skinny, with a lot of muscle.

Narrow doorways and tight floor plan? No problem! Wascomat has dryers starting at 28 1/2" wide. We even have a powerful, gas-saving 75 lb. dryer that will fit through a standard 36" door.

Features

- Many models fit through standard 36" door.
- Fast drying and low, low energy/gas consumption.
- Extra large doors with no rubber gasket.
- Bearings on the drive system and motor are permanently lubricated.
- V-belts and pulleys for smooth, trouble-free operation—no chains or gear reducers.
- Large, easy-to-access lint drawer.
- Reverse drum operation (option) minimizes tangling and wrinkling, and improves dryer efficiency. (Available on certain models.)
- Easy access to parts.
- Long-lasting finish - electrostatically powder-painted inside and out, then baked at 420-degrees before final assembly.
- Dryer controls have easy to read LCD screen and user-friendly multilingual interface.

WC236

- 30 lb. stack
- Only 28 1/2" wide
- Single gas line connection
- Radial airflow
- Available in 3 phase electric

WC330

- 30 lb. stack
- One microprocessor
- Available in gas, steam, or electric heat
- Axial airflow
- Only 43 3/4" deep
- Front serviceable

WC4545

- 45 lb. stack
- Fits through 36" door
- Available in gas heat
- Extra large doors (27")
- Large, easy-to-access lint drawer
- Dual coin mechanics and controls

WC285

- 30 lb. capacity
- Only 28 1/2" wide
- Radial airflow
- 6" diameter vent connection on top of dryer

WC50V

- 50 lb. capacity
- Fits through 36" door
- Available in gas, steam, and electric
- Radial airflow
- Reverse drum option available

WC78

- 75 lb. capacity
- Fits through 36" door
- Available in gas, steam, and electric
- Reverse drum option available
- Extra-wide 44 1/2" diameter drum improves air circulation and drying

WC758V

- 75 lb. capacity
- Available in gas, steam, and electric
- Reverse drum option available
