

Ivy League Furniture. A lesson in strength and reliability.

- Timeless design
- Unbeatable durability.
- Pride of ownership.

■ Classic style. Unbeatable quality. Incredible durability. It's a simple decision.

Ivy League Classroom Furniture:

Lessons to learn:

Read between the lines. Superior quality is not always obvious. The proof is in our quality construction and product longevity.

Write it down. A 15-year warranty and lowest lifecycle costs reduce overall furniture repair and replacement expenses.

Add it up. Classic design + toughness = pride of ownership and peace of mind.

Study your options. Choose wisely.

■ Sit up and take notice.

Posture chair

Choose seats and backs in Ivy League (hard thermoset plastic) or Ivy League Plus (lightweight ABS plastic). All chairs come in four fixed heights as well as an adjustable height.

Chair with book rack

Optional underseat book-rack has an inverted V in back for additional strength. It discourages stepping or foot-resting from behind. Available in either Ivy League (thermoset) or Ivy League Plus (ABS) seats and backs.

Stool

A footrest ring double welded to each stool leg adds strength to the frame. Available in three heights (18", 24" and 30"). 13" diameter thermoset seat only.

■ **Work on it.**

It all adds up. Ivy League furniture offers a selection of sizes to let you fit the furniture to any size student. Chairs come in four fixed heights (12", 14", 16" and 18") or an adjustable height (12-16"). Desks come in an adjustable height (24-30").

Learn the difference. The classic durability of standard Ivy League in thermoset hard plastic. The light-weight comfort of Ivy League Plus in ABS plastic. It's your choice. All seats and backs (chairs and combo desks) are available in either material. Both Ivy League and Ivy League Plus furniture are constructed with the same high quality steel frames.

Study top desk

Simplicity at its finest. This desk has the same large worksurface as the other Ivy League desks (18" x 24"). Available in adjustable height (24"-30"). Optional sturdy wire book basket or translucent book box allows highly visible storage.

Translucent book box

Optional translucent book box available on the IL40 study desk. Allows for highly visible storage.

Laminate top desk - single

20" x 30". Curved sides create unlimited configurations or groupings. Front modesty panel and side security panels. Optional book tray. Adjustable height (22"-32").

Laminate top desk - double

20" x 48". Curved sides create unlimited configurations or groupings. Front modesty panel and side security panels. Optional book tray. Adjustable height (22"-32").

Backpack hook

Keep backpacks off the floor with the backpack hook - standard on IL50 Laminate Top Desks.

■ **Winning combinations.**

Series 56 - comb. desk

Full-length support brace attaches to back for added rigidity and strength. 18" seat height. Thermoset worksurface. Seat and back in either thermoset or ABS plastic. Optional book basket can also be accessed from either side.

Series 58 - comb. desk

Double entry desk has a cantilevered study top for easy entry from either side. 18" seat height. Thermoset worksurface. Seat and back in either thermoset or ABS plastic. Optional book basket can also be accessed from either side.

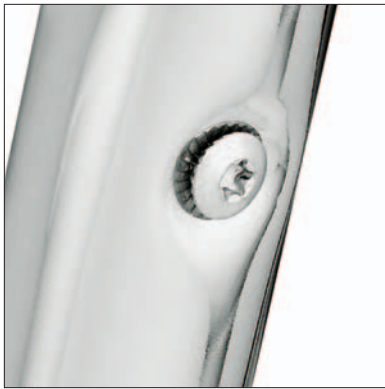

Series 61 - comb. desk

Full-length support brace plus an upper brace for maximum strength. 18" seat height. Thermoset worksurface. Seat and back in either thermoset or ABS plastic. Optional book basket can also be accessed from either side.

Series 90 - tablet arm

Generous tablet arm. Continuous tubular arm support. Right- or left-handed. Thermoset worksurface. Seat and back in either thermoset or ABS plastic. Optional book basket.

**Secure fastenings.
Smooth surfaces.**

On hard thermoset surfaces, tamper-resistant Torx head screws stay put until purposely removed. No exposed screws on seats and worksurfaces. Smooth. No snags. Better looks.

A shining example of quality - KI uses strong, durable rivets to attach the book rack. There are no cold welds to break and the look is cleaner than welds, too.

A sense of security - ABS seats and backs are securely attached with metal-on-metal fasteners. Threaded screws are fastened to an embedded metal insert for better retention than self-tapping screws. They will not strip or break out.

It's on the level - Rubber-cushioned swivel glides have a smooth sidewall collar that keeps water and wax from entering the tubular frame and causing deterioration. KI glides have exceptional strength and holding power and they help maintain quiet classrooms.

Beauty is more than skin deep. Take the finest materials. Apply careful engineering and exacting construction standards and what do you get? Classroom furniture of superior quality and durability. Furniture that withstands school use and abuse. Durability that passes the test of time. That's the true beauty of Ivy League furniture.

We make the grade. Since 1941, KI has continuously improved its processes, product quality and performance. Because KI is committed to product excellence, the company achieved the stringent ISO 9000 certification, one of the first in the furniture industry to meet this international quality standard.

KI is also the largest educational furniture manufacturer in the world and for good reason. Our products last.

Face it. You can't afford to replace classroom furniture every few years. You need durable, reliable solutions. You need Ivy League furniture. Industry-leading 15-year warranty + low life cycle costs = the perfect equation for peace of mind. In fact, Ivy League furniture has the lowest cost per year of ownership (often 30-50% less than other manufacturers' furniture).

Flat or angled top
Series 56 and Series 61 comb. desks can be ordered with either flat or angled tops. Or use retrofit kits to convert tops in the field.

Double entry desk glide option
Series 58 double entry desks have the option for steel or nylon glides, unlike most other manufacturers.

**You make the rules.
We make the rest.®**

Of course KI solutions work better for you. They're made for you. No one pays more attention to customer needs than we do. We don't design our furniture to win awards (even though it does). We don't rely on one-size-fits-all solutions (even though they would make our life easier). We find out what you need. And, we make it. The same applies to our service, distribution channels... everything we do. It's all built around knowing what you want and giving you the choice. KI solutions work, because we're working for you.
