

**You make the rules.
We make the rest.®**

Of course KI solutions work better for you. They're made for you. No one pays more attention to customer needs than we do. We don't design our furniture to win awards (even though it does). We don't rely on one-size-fits-all solutions (even though they would make our life easier). We find out what you need. And, we make it. The same applies to our service, distribution channels... everything we do. It's all built around knowing what you want and giving you the choice. KI solutions work, because we're working for you.

Students at Southeast Missouri State University helped design the University Center and Student Government offices. Michelle Brune, Assistant Professor of Human Environmental Studies offered students from the Contract Interior Design II class a unique opportunity. They started with floor plans and added fresh design ideas. Working with KI, they then created panel designs and selected finishes (including Pallas fabrics customized to match paint colors). Students, faculty and the University Center staff then selected the winning design.

“The office space was amazing,” says Brune. “Involving the students was a win-win situation. They worked on a real project rather than just client profiles and they also provided a fresh eye in looking at the design.”

Angela Meyer, Project Manager agrees, “It’s awesome. The offices have become a good selling point and recruitment tool for incoming students.”

In the Polytechnic Building, the design needed to appeal to technology students, according to Scott Wright, Technology Supervisor. A linear layout helps accommodate the maximum number of students.

“We looked for durability and reliability,” says Wright. “KI furniture does all that. It’s worked out quite well.”
