

Discover a fresh perspective.

- Exciting leg profile.
- Contemporary edges.
- Affordable price.

■ Look at table design from a whole new perspective.

Trek® Tables

Trek tables offer a fresh, contemporary look. The angled profile of the Trek leg is a significant departure from traditional floor-hugging bases. Unique edges offer subtle visual accents. And, the dramatic glide design complements the leg profile.

Cohesive Design

Integrate Trek's contemporary design with Torsion on the Go!® seating or All Terrain® storage and tables for design continuity throughout the building.

Functional Options

For training rooms, cafes, or multi-purpose rooms, Trek tables offer great design and superior functionality. Available in folding, fixed or flip-top models with standard or lightweight tops. Oversized glides

or casters complement the leg design. Optional quick-release modesty panels are also available. PowerUp modules provide convenient power and data access.

Trek Plus Table System

Create varied configurations with the Trek Plus table system. An easy-to-use, quick-connect ganging feature locks tables together.

Flip-Top Trek Table

Maximize limited storage space with versatile flip-top tables.

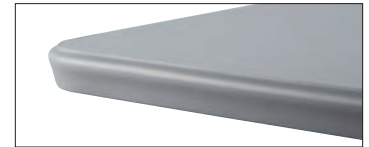

Glides and Casters

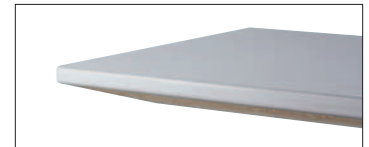

Distinctive oversized glides complement the unique Trek leg profile. Or, select two-tone casters for easy mobility.
