

**ROUGH ROUND DINING TABLE #1024**

The surface of this table is built from the reclaimed yellow heart pine of turn-of-the-century New York City buildings. A solid 3 inch-thick round of wood sits on four legs of 3" X 3" blackened steel tubing. With a generous, five-foot diameter, this table is large enough to seat 8 people comfortably.

*Shown 60" D X 29.75" H in reclaimed heart pine.*
