

## Ergon

## Alabastro GreenLite

Ergon presents GreenLite, the first double-filled porcelain tile with a thickness of just 4.5 mm. Technological innovation, raw materials quality and care for the environment are the key qualities of GreenLite, manufactured using a zero-emissions production process. GreenLite Alabastro comes in five colours, 60x60 cm, 30x60 cm and 30x30 cm sizes and three surface finishes.
