

Lea Ceramiche

Slimtech Arenaria

Arenaria, the new low-thickness porcelain tile from Lea Slimtech, is available in a thickness of just 3 mm and an extra-large format of 300x100 cm. The collection comes in a wide range of warm colours, including ivory, sand, caramel and brown. Ideal for use on floors and walls in domestic or public spaces, it can also be used for curtain walls, partitions, kitchen countertops and bathroom vanity tops.
