# Serenity<sup>®</sup> II Treatment

Designed exclusively around patient comfort and ease of use, the Serenity II Treatment chair will enhance treatment areas. Its sleek transitional design and outstanding functionality make this chair a great solution for a variety of patients in many different settings. The chair back and footrest operate independently from each other. Both can be infinitely positioned and are very easy for a patient or a caregiver to operate. With its myriad of options, exceptional comfort and great functionality, the Serenity II Treatment is a great solution for your treatment needs.
