

### **New products and/or lines:**

#### *Terracota Glass and Colors*

A new concept for interior flooring, Terracota Glass uses hand-made terracotta as a backing for fluxed glazes and surface brushing at differing speeds. The result is a shimmering collection that includes a wide range of formats and colors. Also, recently introduced is Terracota Colors, a chocolate floor tile, and the Tao series which features long ribs of terra cotta arranged in different patterns in a 10" x 10" format.

#### *Soho Collection*

With terracotta as the cornerstone of Decorativa's production, the manufacturer continues to combine the ancestral know-how of clay craftsmen with today's most advanced technology. The Soho Collection offers infinite aesthetic possibilities with a wide range of size, color and format, offering the chance of countless combinations and decorative finishes. The range includes 5.9" x 17.7", 5.9" x 5.9", 3" x 5.9", 2" x 11.8", 1" x 5.9" and 2" x 5.9"; Mesh of 11.8" x 11.8", with straight and off-set tesselas; and decors of 5.9" x 5.9" with different surface and texture. Decorative pieces show range of relief including Duna, Pirimide, Tente and Bolas. Soho is offered in two chromatic groups: Black and White, integrating black, white, silver and gold; and Interiors, including white, beige, light gray, dark gray and wengué.

### **Company Focus:**

Manually-crafted tiles, extruded tiles and stones treated with glazes and pigments which imbue new sensations and new colors, shades and tones in tune with contemporary design while paying homage to yesterday's craftsmanship. Ceramica Decorativa provides products that breathe the aroma of rich cultures as the Nazari or Alcora; classical or Renaissance techniques. They drink of the art of every age to project it towards the future while enhancing great value.

Decorativa is a custom house adapting to the style and request of each customer, with dedication and care. Decorativa creates exclusive pieces from hand formed terracotta, glazed tile and a variety of stone quarried all over the world. Decorativa materials can be seen in emblematic projects and in the most prestigious forums of architecture and heritage restorations. They embrace one-of-a-kind projects and place no limitation on the architect's imagination.

### **Projects:**

Decorativa has been involved in a number of large-scale projects that truly took the design inspiration of the architect and created a ceramic tile system that could realize that design. Notable projects include the massive ceramic tile tree trunks surrounding the Spanish Pavilion at the Zaragoza 2008 International Exposition by architect Patxi Mangado; the Santa Catarina Market in Barcelona by Benedette Tagliabue; and the Conference Center of Aragon, also in Zaragoza.
