

950 Series

HAWORTH®

A strong case for storage.

950 Series Files and Storage components have a lot to offer. They're durable. Flexible. Maneuverable. Secure. Accessible. 950 Series brings storage in line with the functional demands of the modern workplace.

Files Graphite Improv® Side Chairs

The Personal Storage Tower is an individual expression of work space freedom. It provides room for personal and work stuff in attractive designs, including an optional translucent top. The modular tower offers reconfiguration capabilities in the field.

Two-High Lateral Files tuck neatly beneath a standard worksurface.

Save everything, including space.

To be a truly functional storage family, components must go beyond best-guess applications. Everything has to fit, efficiently and economically. Space allocation matters. 950 Series gives you better choices. More basic selections. Flexible designs that accommodate a variety of drawer and shelving options; radius or square edges. Support elements that make organization and access easy. The freedom to specify any paint color by choosing from Haworth's standard colors, matching through the infinite customization program or selecting different colors for the file case and drawer fronts for a two-tone option.

Details make the difference.

From file compressors to dividers, 950 Series puts everything in its right place. Functionality and organization take top priority, combining a clean aesthetic with easy accessibility.

Slide-out Posting Shelf provides an optional convenient workspace.

Locks are visible and accessible from a seated or standing position. Random keying, keyed alike and master key locking options available.

Radius and Square Edge detail options.

Dividers organize and hold binders on stationary shelves.

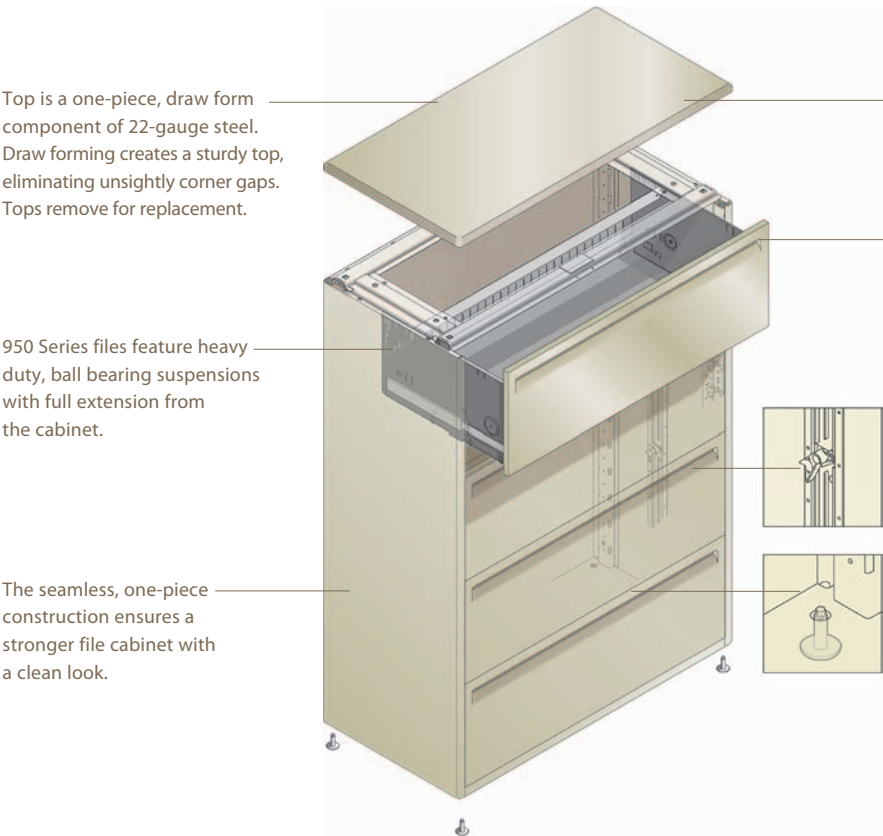

Labels and Holders can be placed anywhere along the full-width pull.

Front-to-Back or Side-to-Side Hanging Bars can suspend files in a roll-out shelf.

File Compressors secure conventional folders.

Top is a one-piece, draw form component of 22-gauge steel. Draw forming creates a sturdy top, eliminating unsightly corner gaps. Tops remove for replacement.

950 Series files feature heavy duty, ball bearing suspensions with full extension from the cabinet.

The seamless, one-piece construction ensures a stronger file cabinet with a clean look.

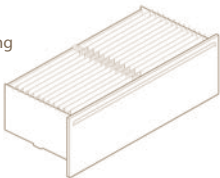

950 Series files feature an electrostatic, high-solids enamel coating for even application, uniform appearance and durability.

Drawer bodies are welded components made of 20-gauge steel. Drawer fronts remove for replacement.

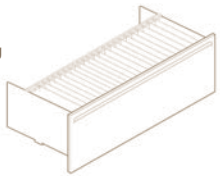

All 950 Series file drawers (except 3") are attached to a positive drawer interlock system, to prevent opening more than one drawer at a time.

Leveling glides have a 1" height adjustment.
