## General Specifications

<b>C.O.M. Requirements</b>	The fabric yardage requirements for C.O.M. (Customer's Own Material) given for each model are in lineal yards and based on 54"(1372mm) usable fabric widths. To order an Accolade chair model in a C.O.M. specify the model in the <b>Fabric Grade A</b> price. Approximate yardage requirements are shown for each model, refer to the price pages. For multi-patterned/striped materials, contact the Haworth COM department for possible additional yardage requirements. For additional information and data sheets refer to <a href="http://www.Haworth.com">www.Haworth.com</a> .
<b>C.O.L. Requirements</b>	Leather requirements for C.O.L. (Customer's Own Leather) vary depending on the hide size. To order an Accolade chair model in a C.O.L. specify the model in the <b>Fabric Grade A</b> price and add <b>\$122</b> list for the required seaming detail. For additional information and data sheets refer to <a href="http://www.Haworth.com">www.Haworth.com</a> .
<b>Flammability Requirements</b>	Accolade chair models are available with an optional fire retardant construction to comply with California Bulletin #133. Refer to the price pages for ordering information. Refer to the Matrix on page 256 for a listing of the approved fabrics.
<b>Environmental Factors</b>	<p><u>Material Off Gassing</u></p> <p>In an effort to ensure air quality standards, all Accolade parts suppliers are required to provide Material Data Sheets and/or other documentation, verifying that their products do not emit volatile organic compounds (VOCs). In addition, the powder-coat paint process used in the manufacturing of Accolade seating is free of VOCs. Our manufacturing processes have also eliminated all use of chlorofluorocarbons (CFCs) and ozone depleting chemicals (ODCs) in the chair's construction.</p> <p><u>Recycling</u></p> <p>All fabric scraps are recycled, reducing the amount of material sent to landfills, and all chair components disassemble easily to increase the potential for recycling. In addition, Accolade's inner seat shell is constructed of 100% reprocessed polypropylene, and all raw materials used in its manufacturing can be recycled at the end of the useful life of the product.</p>
<b>General Guidelines for Product Specification</b>	<p>Accolade seating specification numbers are based on an alpha-numeric logic that identifies a product by model and certain characteristics.</p> <p>For example, a product number that reads <b>A871-2142</b> identifies the product as an Accolade high-back chair fabric upholstery, pneumatic seat height adjustment, fully-upholstered shells, and hard dual-wheel casters.</p> <p>The alpha-numeric logic for this model complete with fabric and finish codes is shown below:</p> <div style="display: flex; align-items: center;"> <div style="margin-right: 20px;"> <p>Accolade Seating _____</p> <p>Fabric Upholstery _____</p> <p>High-Back Model with Advanced Forward-Tilt _____</p> <p>Pneumatic Height Adjustment _____</p> <p>Upholstered Shells _____</p> <p>Cantilever Arms _____</p> <p>Hard, Dual-Wheel Casters _____</p> <p>Without Back-Lock _____</p> <p>Tillure Fabric/Black Color _____</p> <p>Black Arm/Base Trim Color _____</p> </div> <div style="text-align: center;"> <p><b>A 8 7 1 - 2 1 4 2 , 3A-18 , TR-F</b></p> </div> </div> <p>Replace second digit in product number with 7 for leather. Example: A771-2142.</p> <p>A ninth digit suffix of the product number will indicate functional options, such as -F for fire retardant construction. There are exceptions to this logic; therefore, always refer to the price charts for product numbers rather than attempting to construct them. Product number modification instructions for additional options appear in footnoted copy for each applicable model.</p> <p>Beyond the printed product number, fabric and finish codes are required to complete an order specification. To communicate your order clearly, list the product number and fabric/finish codes in the sequence outlined on each price page.</p>
<b>RUSH</b>	Select Accolade seating models are marked with a <b>■</b> symbol to denote availability on the RUSH program. Refer to the fabric and finish options for each product.
<b>Finishes and Fabrics</b>	A complete listing of finishes and fabrics for Accolade seating can be found on pages 248 and 254-257.
