## **Stainless Steel... Reborn**

The new Stainless Steel Series from Crossville transforms a familiar and functional metal into a sleek and stylish tapestry for your walls. Available in nine textures, as well as multiple sizes and shapes, Stainless Steel offers literally thousands of design options for your home or business. For example, why not add some extra flavor to your kitchen?

## Let Your Imagination Soar

Although the various Stainless Steel textures look superb individually or when mixed, you can achieve equally spectacular results by incorporating them with traditional porcelain stone tile, such as Crossville's Quartzite, shown below.

Squares MT280

Diamonds MT230

Circles MT270

Please allow 8-16 weeks for delivery.

## Product Performance

Abrasion Resistance	Class 0	ASTM C107
Bond Strength	353 psi	ASTM C482
Coefficient of Friction (Dry)	>0.7	ASTM C1028
Coefficient of Friction (Wet)	>0.6	ASTM C1028
Mohs' Scratch Hardness	2	

## Recommended Usage

Stainless Steel tile is recommended for use on interior walls in both residential and commercial environments, and can also be used in select interior floor applications.

## Care and Maintenance

Regular cleaning is the best way to keep your Stainless Steel tile looking new for years to come. Use a soft cloth wetted with a neutral detergent, diluted with hot water. Rinse with cold water and dry with a soft cloth. For more difficult cleaning situations, a nylon abrasive pad should be adequate for dealing with most deposits.
